CCJ3-OG INFORMATION PAPER

Operation Chamberlain

1. **Subject:** CJTF-7 Future Operations (Operation Chamberlain)

2. **Discussion:** The end of the former regime has led to an increase in freedom of movement entering and exiting Iraq. This movement consists of legitimate travel (i.e. commerce, religious pilgrimages) as well as illegitimate movement (i.e. criminal, infiltration). Major Subordinate Commanders (MSCs) are seeing an increase in attacks by terrorists and foreign fighters throughout the ITO. COMCJTF-7 has directed Operation Chamberlain to interdict the infiltration of these elements.

- o **Mission:** On order, CJTF-7 conducts offensive operations to defeat terrorists and foreign fighters attempting to infiltrate into the AOR in order to create a safe and secure environment.
- o **Purpose:** Create a secure and stable environment that allows the transition of operations to Iraqi manned border points capable of maintaining the territorial integrity of Iraq.
- o **Key Tasks:**
 - 1) Identify infiltration routes, C2 assets, and logistics support infrastructure that support infiltration.
 - 2) Facilitate the establishment of Iraqi manned border points capable of denying infiltration through legitimate Points of Entry (POE).
 - 3) Destroy the C2 and logistics support infrastructure that supports the infiltration of terrorists and foreign fighters into Iraq.
 - 4) Disrupt the flow of terrorists and foreign fighters into Iraq; engage terrorists and foreign fighters in areas of our choosing.
- o **End State:**
 - 1) Enemy C2 and logistics nodes destroyed.
 - 2) Border Patrol Security (BPS) posts that are capable of interdicting the flow of terrorists and foreign fighters through POE.
 - 3) Terrorists and foreign fighters unable to reinforce existing forces in Iraq.
- o **Operation Chamberlain** is currently in the COA Development step of the MDMP. The target date for issuing the FRAGO is 18 SEP. The execution date scheduled for 22 SEP 03.

3. **Recommendation:** None, for information only.
