Approved for Release

The overall classification of this briefing is **SECRET//REL TO USA, MCFI**

PURPOSE

- **Consistent with established MNF-I goals**
 - MNC-I will use a conditions-based process
 - To achieve the maximum number of detainee releases
 - Balanced against continuously improving security levels and the ability to absorb released detainees into the local communities
- **Commanders program using a bottom-up review process with conditions-based criteria**
 - MND/Fs will make the determination on releases each month
 - The objective is to release and reintegrate into Iraqi neighborhoods all detainees who no longer pose an imperative threat to coalition forces, Iraqi security forces, and the Iraqi populace

The overall classification of this briefing is **SECRET//REL TO USA, MCFI**

Approved for Release

The overall classification of this briefing is SECRET//REL TO USA, MCFI

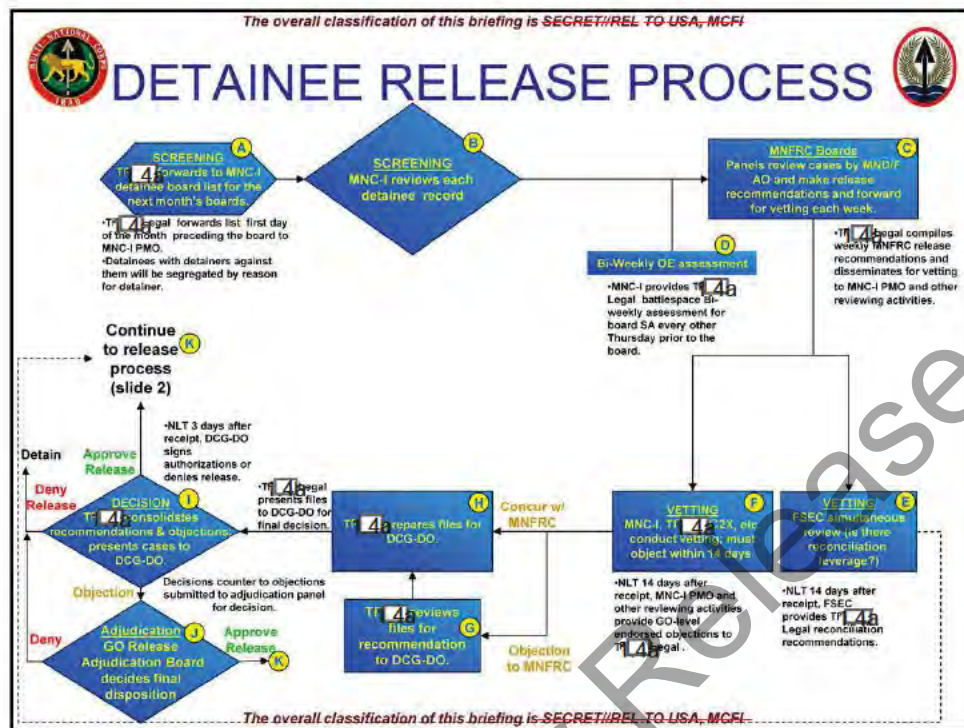

ENDSTATE

- A conditions-based detainee release process
- Emphasizing the proper assessment of security detainees
- A feasible detainee release rate coupled with a comprehensive reintegration program to transition released detainees into the local communities without jeopardizing the security environment
- The Iraqi populace recognizes and accepts the program's viability and willingly facilitates detainee reintegration
