### COIC IED Summary

- IED and AAIED attacks preceding and following Al Sadr's order to JAM to cease attacks on Coalition Forces.

- During the two weeks preceding the 29 AUG announcement, AAIED attacks were occurring at a daily average of 2.5 events per day. Since the

- announcement, there have been 115 total AAIED attacks for a daily average of 1.5 events per day. Found and Cleared rates for this type of IED remain high, increasing from October's F/C rate of approximately 40% to 46 % this month. There were 5 AAIED attacks since Thursday's BUA, annotated with an additional ring around the Icon. There were two events in New Baghdad, one event in E. Rashid, one in Rusafa and one event in Kadamiyah.
- The second slide depicts all IED attacks in Shia areas, or that are attributed to irreconcilable Shia extremists. During the two weeks prior to the announcement, attacks were occurring at a daily average of 10.3. Since then, IED attacks have occurred at a daily rate of approximately 7.5, with comparatively low attacks this past week.

- We assess that some JAM Special Groups are still actively targeting Coalition Forces within Baghdad with sustained AAIED attacks, despite supply and leadership losses over the past month.

**CCIRs reported to MNC-I for the previous 24 hour period are shown below.**

- To view report details, go to the MNC-I SIGACTS rollup page at [MNC-I CCIR/SIGACT Roll-up](#).
