Multi-National Corps - Iraq

MNF-I COMMANDER’S CONFERENCE
4 AUGUST, 2007
**MNC-I Threat Outlook: Aug-Sep 07**

- **Ninewa**: AQI loses membership and capabilities to Rejectionists
- **Al Anbar**: Tribal movements proliferate
- **Baghdad**: Extremists lose ground
  - Sunni populace opposes AQI thru neighborhood watches
  - Shia populace tolerance of JAM violence diminishes

**Current Trends:**
- Insurgency Shift from urban to rural
- Migration from Extremist to Rejectionist groups
- Increased Rejectionist interest in Reconciliation
- Gol solution to intra-Shia competition

**Diwala, Salah ad Din**: AQI activity/presence increases:
- Muqdadiyah-Tuz
- Breadbasket-Samara
- Hawijah-Kirkuk

**Al Kut**: Local JAM challenges new CF presence and checkpoints

**Southern Shia Cities**: Local JAM/Badr flashpoints

**Basrah**: MJAM attacks CF with IDF/IED, Increased intra-sectarian tension due to BPOC, PIC
JAM Outcomes

- Fractures within senior leadership
- Increasing isolation from and conflict with other Shi'a groups

JAM Outlook:
- Reorganize OMS/JAM structure to regain lost influence
- Maintain restrained, defensive posture
- Maneuver for advantage against ISIC/Badr weakness
- Further distancing of JAM SG from JAM Mainstream
Al Qaeda in Iraq (AQI) Outlook

AQI Obstacles:
- Continued pressure from operations
- Growing populist rejection in the West and North
- Increasing isolation from and conflict with other Sunni militants

AQI Outlook:
- Exploit historical Ramadan surge
- Baghdad remains strategic center of gravity
- Seeking new sanctuary
Anticipated AQI Sanctuary and Staging Areas

Commander’s Intent

Purpose. The purpose of Phantom Strike is to disrupt AQI’s planning, preparation, and execution of operations in order to prevent AQI from negatively impacting CF and GOI progress and continuing CF and ISF momentum in dismantling AQI networks.

Key Tasks
- Significantly increase the OPTEMPO of offensive operations against AQI sanctuary and staging areas.
- Conduct targeted operations against AQI networks that produce and employ deep buried IEDs.
- Prioritize and employ MND/F and MNC-I level enablers in support of counter AQI operations for maximum impact against AQI.

Endstate. AQI planning and preparation disrupted, AQI unable to execute a surge in operations, and CF and ISF momentum against AQI networks sustained or accelerated.
Concept Of Operations

While continuing to operate within the framework established in OPORD 07-01, MNC-I will conduct a significant surge in offensive operations to disrupt AQI operations from 15 Aug to 15 Sep 07. CF Operations will include short term raids against AQI sanctuaries / staging areas, targeted operations to dismantle AQI D/BIED networks, and operations to kill or capture AQI HVIs. During this time period operations with a high potential to temporarily disrupt AQI operations will be executed even when the forces required to hold and build on gains made are not available. Both MNC-I and MSC Enablers will be fully employed during this time period with increased emphasis on disrupting AQI operations.
Tasks to MND-N, MNF-W, MND-B, AND MND-C

On 03 Aug 07 from 1700 to 1845 MND/F Commanders will Backbrief the MNC-I CG on their plans to surge operations against AQI from 15 Aug to 15 Sep. Backbriefs will include:

- Identification of planned operations targeting AQI to include what force will execute the operation and anticipated execution dates.
- MND/F plan for prioritizing internal enablers to effect a surge in emphasis against AQI from 15 Aug to 15 Sep.
- Anticipated requirements for corps enablers in support of MND/F Phantom Strike Operations, and the impact on operations if Corps enablers are not available.
- Corps support other than enablers required to effectively engage AQI targets (i.e. temporary boundary changes, or corps coordination for operations conducted adjacent to existing MSC boundaries).
Dedicating forces to engage AQI in sanctuary areas impacts ongoing operations to protect the populace.

The MOAG Movement Beginning in August will be a Corps priority and will require ISR, Security, and Route Clearance Equipment.

If Sadr’s postponed march to Samarra occurs during the lead-up to Ramadan, tensions in the area will be raised significantly.

If Phantom Hammer is executed, MND-C and Corps’ ability to actively counter an AQI surge will be significantly reduced.

Assumptions

Both AQI and Shia extremists will attempt to increase the level of violence in Iraq prior to or during Ramadan, a period which coincides with the September assessment.

As long as CF and ISF can jointly provide local security for the population, Sunni tribes in Al Anbar, Salah Al-Din, and parts of Diyala will continue to actively reject AQI and join the Iraqi Police to protect their cities and neighborhoods.

Increasing POE security will impact AQI’s ability to move fighters and weapons in support of an August surge.
Focus: DRV/TRV
- Conducting Operations IVO Baqubah, Tarmiyah and Balad
- Postured to conduct TSTI ISO emerging targets
- Operational Em lo ment TTPs

Operations Planned in Tal Afar, Tuz, Zaab Triangle, Samarra, DRV, Hamrin Lake/MNT Region, Taji/Saba al Bor area, Mansour, East Rahsid, & “AO Bedrock”
- Will continue to conduct operations against Time Sensitive Targets as identified
How Corps Will Weight the Effort

- Prioritize Corps Enablers (ISR, Aviation, Engineer) ISO MSC operations.
- Coordinate MSC Operations crossing or adjacent to MSC boundaries.
- Assist in the Intel build for potential CJSOTF-AP raids in the “Bedrock Area.”
- Engage IGFC for IA/ISOF support to CF operations/ complimentary ISF operations.

- Enforce a ban on VIP visits, conferences, mandatory briefings, to free up resources (primarily aircraft) and leader’s time to focus on combat operations.
- Provide Corps’ intelligence analysis resources to MSCs (Analysis Surge) to capitalize on information currently not analyzed in a timely manner.
- Engage AQI targets outside the operational reach of conventional forces with ODA/AWT/ISR strike packages as required by assessed priorities.
How MNF-I Can Assist

- Ensure TF 1.4a Operations are coordinated with MNC-I Operations.
- Engage GOI to further reconciliation efforts to make Sunni populations less supportive of AQI.
- Engage GOI to publicize ISF efforts against AQI.
- Engage GOI to support Local Security Forces who are willing to fight AQI.
- Continue Diplomatic and Strategic Communication efforts to limit and disrupt external support to AQI.
- Prioritize funds and reconstruction aid to areas targeted by Phantom Strike Operations to help secure hearts and minds of wavering populace.
Multi-National Corps - Iraq

COUNTERING AQI SURGE:
MNF-W ANALYSIS AND OPERATIONS

CG, MNF-W: MGEN W.E. GASKIN

Overall Brief Classified: SECRET//REL USA, MCFI
Date: 1100 2 AUG 07
DECLAS: 2 AUG 17
Large Incidents in MNF-W
6 Key Cities and Elsewhere: Jan - June 07

- Large incidents inside the six key cities within MNF-W (Ramadi, Fallujah, Hit, Hadithah, Al Qaim, Rutbah) have been below the average since Feb 07, as a result of MNF-W’s persistent presence inside these key population centers.

- Large incidents outside the six cities have declined from a recent high, but still hover around the average.

- Enemy trend has been to flee the cities and attempt to operate in peripheral areas throughout the AO.

- There are signs of aggregation in areas surrounding Fallujah (e.g. Karmah); and evidence of insurgent attempts to re-infiltrate Ramadi.

**TASK ORGANIZATION**

**Political Objectives in Area**
- Residents understand that allowing terrorists safe haven prevents Iraqi self-determination.
- Criminal activities hinder security.
- A secure environment promotes safety for children, economic prosperity, and the return of business to the area.

**Method**
- Continue enduring COIN tasks per RCT-6 OIF 06-08 OPORD.
- Focus interdiction against AIF freedom of movement in AO RAFFLEIGH and AO SAKAR.
- Focus disruption against AIF bases of operation in AO RAFFLEIGH and AO SAKAR.
- Continue to sustain development of ISF capability to assume security lead in AO RAFFLEIGH.

**Supporting**
- 2d MAW(FWD) provides FW and RW CAS.

**Endstate**
- AIF interdicted and unable to accelerate violence in Baghdad.
- ISF capable of conducting independent COIN operations.
- Establish conditions supporting Provincial Iraqi Control.
OPERATION ALLJAH 29 May - Oct 07

KEY INFORMATION
Primary Force: RCT-6 (2/6)
CF Personnel: 130
MOD Personnel: 100
MOI Personnel: 70
# of vehicles: 30
# of A/C: FW/RW CAS Requested
Pre-Planned Fires: N/A

Nearest City: Fallujah
Planned Start Date: 29 2200 MAY 07
Planned End Date: OCT 07

Task Organization (TF)
- 2/6 (-)(REIN)
- CLB-6
- Co-2/1 IA
- Fallujah IP
- Attach: EOD, MWD, CEB, RTE CLR

MISSION: Between May and October 2007, TF systematically secures and establishes permanent IP occupation within designated Fallujah IP districts IOT set conditions for IP control within Fallujah.

RETURN TO AO RALEIGH SLIDE
Concept of Operations: MNF-W secures Muthanna Chemical Complex and emplaces unattended ground sensors with 13th MEU(-). This operation will be conducted in three phases.

Phase I
Develop Intel of who is at site, what is at site, and determine if there is opportune time to commence operations.

Phase II
On 19 Jun 07, 13th MEU Conducts operation to secure Muthanna Chemical Complex, kill or capture AQI using site, and emplace sensors.
Withdraws and monitor site via unattended ground sensors, airborne ISR, and periodic patrols.
Conducts operations to kill/capture AQI based on detection of AQI presence at Muthanna Chemical Complex.

Phase III
Sequel under development.

Timeline
H-Hour: 190600D Jun 07
Began Phase I: 170000D Jun 07
Began Phase II: 190600D Jun 07 retrograde from initial operation has commenced.
Began Phase III: TBD
- Ground sensors emplaced, enemy clear of Muthanna Chemical Complex
- Continue operations and period patrols of Muthanna Chemical Complex
- Transition/Turnover of BS to MND-N

Non-Kinetic Effects:
- Inform population that MCC is not a safe place to operate IOT prevent unnecessary casualties
- Safeguard information listed in the critical information list
- Document operations to enable exploitation or mitigation of unintended effects
- Support the CIED effort using airborne EW systems
- Commanders issue claim forms as necessary to compensate collateral damage.

Risk/Consequence Management
Counter-IED:
- Increased TF 1.4a route clearance operations along routes/LOCs.
- Counter-IDF/TIC: Priority for GMLRS, FW & RW, and UAV support (early warning)

ECBRN Specialists:
- HAZMAT ID: detects liquids and solids
- HAPSITE 1.4

MEDEVAC/TIC Support: MNF-W TACSON, embedded in assault package

RETURN TO AO ANAHEIM SLIDE
**Friendly Situation**

**Higher:** 13th MEU conducts counter-insurgency operations in AO ANAHEIM to defeat AQI by disrupting in the Thar Thar region and interdicting key ASRs in order to deny AQI sanctuary and freedom of movement and establish the conditions for the introduction of a permanent ISF presence.

**Adjacent:** 2/7 conducts Black Diamond, isolating and clearing Karmah ICW ISF IOT interdict accelerants to Baghdad/Fallujah and deny AIF/AQI safe haven. 2-5 Cav (MND-B), conducted an AASLT vic Ibrahim bin Ali vic (MC1201) on 22 Jul IOT disrupt AQI cells and set conditions for an establishment of a Patrol Base (est O/A 15 Aug).

**Supporting:** 2d MAW(FWD) provides ASR, FW/RW CAS, and ISR ISO BLT 3/1.

---

**Commander's Intent**

**Purpose:** Deny AQI/AIF a sanctuary to rest, train, and launch attacks into MNF-W and MND-B and prevent accelerants from moving into these AOs.

**Method:**
- Maintain a high operational tempo
- Locate and destroy AQI/AIF cache sites throughout the TAO
- Conduct aggressive route interdiction throughout the TAO with a focus on key ratlines and ASR Lincoln
- Conduct detailed population control operations, via census, to deny the enemy FOM
- Ensure all actions and messages reinforce that the BLT is here to help the people and that CF will make a difference

**Endstate:** AQI/AIF denied sanctuary and freedom of movement, accelerants prevented from reaching MNF-W and MND-B AOs, enemy caches disrupted and/or destroyed.

---

**MISSION:** NLT 300800D JUL 2007 BLT 3/1 (13th MEU) conducts deliberate clearing of TAO PEGASUS BRIDGE IOT to deny AQI/AIF sanctuary and freedom of movement and establish the conditions for the introduction of a permanent ISF presence in AO ANAHEIM.

1.4a, 1.4g
OPERATION MAWTINI (MY HOMELAND)

15 JULY – 15 AUG 07

KEY INFORMATION

Primary Force: RCT-2
MOD Personnel: 720
MOI Personnel: 2000
CF Personnel: 7000
# of vehicles: TBD
# of Aircraft: RW/FW CAS requested
Pre-Planned Fires: N/A
Nearest City: N/A (AO wide) Key cities are Hit, Haditha Triad, Rutbah, Baghdad, Al Qaim, POEs
Planned Start Date: 15 July 07
Planned End Date: 15 August 07

Friendly Situation:
RCT-2 is currently executing Phase I, Secure the cities and criminalize the insurgency, of the RCT-2 campaign plan. Operation MaWTini I will serve as the transition to Phase II, Keep the peace and defeat the insurgency.

Operation Harris Ba’sil and ops conducted since that time have provided RCT-2 a better picture of the movement patterns of the enemy.

The information gained during this period will allow RCT-2 to conduct focused operations in those areas that have shown to be critical to the enemy.

Purpose: This operation targets an anticipated “surge” of insurgent and terrorist activity that will be undertaken to regain access and sway over the population. RCT-2 will prevent the enemy from disrupting steady improvements in governance and rule of law and interdict his efforts to target facilities, individuals, and organizations which represent security and stability. This will be done by attacking the enemy’s vulnerabilities: vehicle movement, fixed caches, desert safe houses, and his inability to synchronize actions.

Key Tasks:
- Disrupt the Enemy
- Secure Key Terrain
- Protect the Population
- Achieve Intermediate LOO Objectives
- Conduct Focused CIED operations

Endstate: 1A battalions and 2/7 IA Brigade validated. Governance and Rule of Law continuing to develop, and enemy actions against CF, ISF and the population maintained at historically low levels.

MISSION: On 15 Jul 07, RCT-2, in partnership with the ISF, conducts disruption operations in order to deny the enemy the ability to conduct surge operations and re-establish presence in urban areas.

RETURN TO AO DENVER SLIDE
Phantom Strike Back Brief

The overall classification of this briefing is **SECRET//REL to USA, MCI**

Approved by: 1CD G2

Classified by: Multiple Sources

Reason: EO 12958 (as amended) 1.4(a), (c) and (d)

Declassify on: 20170804

As of: 01 AUG 07
Concept of the Operation

- MND-B disrupts an AQI surge during Operation Phantom Strike not through surging forces but by leveraging Information operations and reconciliation.

- The current defeat mechanism for extremist organizations in Baghdad is the Operation FAQ methodology. The methodology called for a surge of forces and now faces a temporary loss of combat power due to the 2 SCR RIP during Operation Phantom Strike.

- MND-B must shift non-kinetic means in an IO/reconciliation “raid” to disrupt AQI while sustaining FAQ security operations that target AQI.

- Central to this theme is to showcase successes that illuminate the possibility of a brighter future in Baghdad and a return to normalcy. This serves as an accelerant to the creation of a non-permissive environment for AQI networks during Operation Phantom Strike. Simultaneously, the FAQ security surge continues pressure against AQI planning, preparation and execution.

MND-B Objectives

- Synchronized security, reconnaissance, and offensive operations targeting AQI
- Build offensive momentum and increase security going into Ramadan
- Creation of a non-permissive environment for AQI networks (elimination of safe-havens)
- AQI IED networks disrupted

30 July 2007
Concept of the Operation

MND-B Key Tasks

- Interviews with Iraqis who have turned against AQI
- Highlighting JAM actions that impact the public
- Exposing GOI officials who have been proven to be影响力的 and arrested

1.4b, 1.4d

- Interdict sources MILSPEC Munitions into MND-B
- ACCM refined kinetic operations
- Collect actionable intelligence against IED Networks
- Confronting AQI activity at ASP/ERW and historical cache sites
- Deter re-supply of AQI IED Cells BWT repair and targeting of BSB IOT
- Synchronized surge of security, reconnaissance, and offensive operations

Security

- Deny AQI sanctuary
- Influence the population to deny AIF/AQAM safe haven for operations
- Shape, influence and disrupt IED network operations, and undermine their support
- Conduct CMO/PRT operations IOT isolate the networks from the population

Governance & Economics

- Joint Security Station Expansion
- Expanded Partnership and Transition Teams
- Joint Operations

Transition

- Coalition Information offensive on AQI actions against the population
- Arabic language public service announcements showing AQI atrocities

Communications

- Series highlighting the bad men who have been taken off the street
- Arabic language public service announcements showing AQI atrocities

Communications

Decisive: In the decisive operation, the application of non-kinetic means will be the primary weapon to isolate the insurgents from the population.

Shaping: IAW the campaign plan, during partnership operations and through kinetic and non-kinetic means ISF and CF will initiate several new major simultaneous operations, all of which include the defeat of AQI cells and IED Networks. Aggressive security, reconnaissance, and offensive operations, disrupt AQI operations and IED cells in intelligence refined TAI. An intelligence build-up, including an extensive zonal IED analysis and ISR collection plan to develop TAI and associated physical LOCs, precedes kinetic operations.

Sustaining: In the Sustaining phase, MND-B refocuses on the campaign objectives, incorporating gained intelligence and TTP into all operations.

Full Spectrum Approach to Disrupting AQI Networks
1) **Karma / Quarry Region in 1/1 CDs AO**
Primarily a C2 meeting and bed down location for members of AQI. The primary threat is DBIEDs and AAA along the peripheral of 1/1 CD and MND-N and MNF-W.

2) **Hayy Adhamiyah** – Adhamiyah is home to much of the Rusafa VBIED network.

3) **Southern Ghazaliyah** – Reporting indicates elements of AQI have moved to southern Ghazaliyah IOT evade targeting by ISF / MNF and Sunni elements of Ameriyah Freedom Fighters (AFF).

4) **East Rashid** – AQI has historically utilized this area as a support zone and weapons storage facility. The area allows weapons and personnel to freely move between Division boundaries with ease.

5) **Radwaniyah** – Supply line for weapons / personnel into Furhat and Ameriyah out of Yusifiyah, Lutafiyah and Mahmudiyah.

Capitalize on Events/Exploit Success
Kinetic Operations 1 of 2

All BCTs execute aggressive security, reconnaissance, lethal targeting and other framework operations, IOT disrupt AQI Operations.

Baghdad Security Belts: A joint 1/1 CD and MNF-W AASLT Operation (Operation Guillotine) to clear 2 x suspected AQI safe havens (Hamra Military Complex and Al Ra’oof area) within the proposed JSOA BEDROCK IOT disrupt AQI cells and set conditions for an eventual Patrol Base.

O/O, 270001JUL07 – 102359AUG07

East Baghdad
2/2 ID continues to Clear and Control the Kamaliyah & Shawra Um Jadir (SUJ) Hayys of New Baghdad IOT set conditions to control while disrupting JAM, EJK cells, and JAM Special Groups in Adhamiyah and Sadr City Security Districts. Deliberate route clearance and sanitization of a historic IED and EFP hot spots and security patrols disrupt AQI IED and VBIED infiltration into Shiite neighborhoods.

Baghdad Security Belts: 1/1 CD in partnership with ISF neutralizes AQI/IUR in AO IRONHORSE to deny the enemy sanctuary and protect the western flank of MND-B.

- 1/1 CD conducts offensive operations to neutralize (clear then control) ICW ISF to protect the flank of MND-B opns ISO OPN FAQ.
- TACRES executes PLT level Disruption Ops via AASLT (3 day cycle)
- 2-5 and 2-8 execute CO level Disruption Ops via AASLT (7-10 day cycle)
- Phased reconnaissance and deception operations sequenced with neutralization operations by Belt.
- Establish Patrol Bases (later becoming JSS’s) at key terrain to provide population control.

Enduring Operation

Rashid: 4th IBCT defeats AQIZ cells in Arab Jabour IOT reduce AQIZ influence in Rashid SD and transition to ISF control in Doura.

- Leverage ISR assets to stop AQIZ infil routes
- Conduct raids to kill/capture IED cell leaders, financiers and caches
- Conduct C-IED operations along IED hotspots
- Aggressively engage the population to gain information and resist AQIZ influence
- Leverage Neighborhood Watch (NW) and Iraqi Provisional Forces (IPF) to target AQIZ
- Conduct combined operations placing the ISF in the lead and establishing its presence in Muhallas
- Establish COP Crazyhorse

Main Effort

1 AUG - 15 SEP

Arab Jabour: Prevent AQIZ South network from using the Five Farms and their ability to influence the GOI through violent attacks against the Iraqi population and continue security operations in M82.
Kinetic Operations (2 of 2)

Falcon Shaping Operations (AQI Focus)

Adhamiyah: Focused C-IED and reconciliation efforts in Zone 20 (Adhamiyah) in order to maintain assured mobility.
- COP construction at BREWERS & DOVER (a historic IED hotspot).
- Raids (C/S) operations in Zones 18 & 19, the Adhamiyah Safe Neighborhood.
- Massed forces following the Death of the 7th Imam march, 09-10 AUG.

15 AUG-UTC

Dragon Talon

Arab Jabour: 4/1 IN Prevents AQIZ South Karkh VBIED network from using the Five Farms area and reduce their ability to influence the GOI through large violent attacks against the Iraqi population and continue security operations in M822, M824 and M826 to maintain momentum.
1-15 AUG

Gates of Freedom

2/1 ID BCT ICW the KSD and MSD, executes a series of simultaneous full-spectrum operations across the Karkh Area Command NW to defeat extremist and criminal influence.

Now-31 AUG

Marble Arch

2/1 ID ICW KAC Defeats Shia and Sunni extremists
- Precision targeting against Shia extremists
- Combined operations against Sunni extremists
- Reconcile Emerging local security groups
- Continued safe neighborhood efforts

1 AUG- 15 SEP 07

All BCTs execute aggressive security, reconnaissance, lethal targeting and other framework operations, IOT disrupt AQI Operations.
### FAQ: Phase II (Clear Control Retain)

**Operation Phantom Strike**

- **3/2 SBCT and 2 ACR RIP/TO**
- **2 SCR BEGIN ROD IRAQ**
- **SEP**
- **Ramadan**
- **2 SCR TOA**

---

**MNC-I Assistance**

- Continued resourcing of Communication/Information operations.
- Synchronization of Iraq wide communication operation to prevent an AQI information offensive in Baghdad.
- Continued allocation of EAD enablers (ISR, Aviation, Engineer) ISO MND-B operations.
- Minimize events in MND-B that require resources (primarily aircraft) from combat operations.

Combined Joint Special Operations Task Force – Arabian Peninsula (CJSOTF-AP)

CJSOTF-AP Operations in Support of Operation PHANTOM STRIKE

03 August 2007

The overall classification is: SECRET//NOFORN
SOTF-C Baghdad and the Belts

**Northern Baghdad Belt**
- Ties to the Abu Ghazwan network
- 18 HVIs responsible for conducting EJK, targeting CF bases, and IEDs
- Conducted with surge ODA and ISOF CDO

**Western Baghdad Belt**
- Targeting 3 different AQI Cells that aid flow of FF, target CF bases, emplace IEDs and conduct assassinations and kidnappings
- Conducted with ISOF CDO

**Southern Baghdad Belt**
- Targeting AQI/TWJ Cells that aid flow of FF into Samrah Jungle, target CF bases, emplace IEDs and conduct assassinations and kidnappings
- Conducted with 8th IA and Hillah SWAT

**Baghdad**
- 4 Cells across Baghdad that are responsible for sectarian violence, and IED/VBIED attacks
- Conducted with ISOF and ERU

**Additional Resources Required**
- Rotary support for operations
- Riverine Support for infil
- ISR coverage for target development and execution
- Abu Jurah Network that directs EJK and IED attacks
- Possibly tied to DUSTWUN
- Conduct with 8th IA and Hillah SWAT
**Tuz**
- Conduct operations in Tuz area against displaced AQIZ from Diyala, Samarra, and Zaab Triangle.

**Diyala**
- Anticipate conducting operations with 34th Peshmerga BDE (2200 soldiers) and 1/5 IA to target remaining pockets of AQIZ IVO Hamrin Lake and Sherween villages in the DRV.

**Tal Afar / Sinjar**
- Tal Afar SWAT attacks AQIZ concentrations west of Tal Afar.
- Continue pressure against AQIZ in Bulay, Bi’aj and south of Sinjar.

**Zaab Triangle**
- Conduct operations in Sharqat with 4th IA ISR Co and 18th SIB in the Zaab triangle area.
- Surge ODA in Q West will also support targeting efforts in the Zaab.

**Additional Resources Required**
- Rotary wing support for operations.
- ISR coverage for target development and execution.
- 34th Peshmerga BDE deployment.

**Samarra**
- Continue a month long surge against AQIZ in the Samarra AO, partnered with Samarra BDE NP and Al Bazi tribe members.
- 25 targets will be executed in the next four days with dozens more in development.
SOTF-W continues to disrupt AQI/FF operations throughout MNF-W sector

Additional Resources Required
- Rotary wing support for operations
- ISR coverage for target development and execution
OLD Slides
Decision Support Template for Arrowhead Ripper has three decision points that reallocates combat power from Baqubah back to 3/82, 3/1 and 3/25. The execution of the decision points directly relates to the ability to conduct operations in the "black/red boxes" due to troop to task. See included DST.

ICONS represent the forces that would be used.

Type of operation: Attack to disrupt IOT deny the enemy sanctuary.

Countering the AQI surge

In order of Priority for 4/2 SBCT

• N 8: Tarmiya Qada Offensive: AQI Support Zone for Tampa, Coyotes, and Tarmiya proper
  • Operations: and clearance operations of AQI Strong Holds vic 14th Ramadan area (Rowad), Abayachi, North Tarmiya. C/K AQI HVI network, disrupt AQI capability to influence Tampa, Coyotes, and Tarmiya
  • Force size: Battalion Plus Operation, encompassing 3-4 weeks. Perhaps ICW TFL
  • Timeframe: 1-30 August. Must begin early, current Raider Plan is to conduct Tarmiya Qada Offensive prior to anticipated RIP with 2SCR, and then transition to RTE Vanessa clearance and Al Rasul disruption, east side of Diyala, to set conditions for anticipated RIP with 3/1 and assumption of Diyala proper. See attached ‘Way Ahead’ Slide.
  • Assets requested: Additional RTE Clearance, TFS (Intel Packet working now)

• N 3: Al Rasul and RTE Vanessa: AQI Support Zone for Kahn Bani Sa’ad, RTE Vannesa, and Ba’qubah
  • Operations: and clearance Operation of Al Rasul (north KBS) and deliberate RTE Clearance Operation of RTE Vanessa and Al. C/K AQI HVI, disrupt AQI capability to influence KBS< RTE Vanessa, and Ba’qubah, set conditions for RIP of Ba’qubah and Diyala
  • Force Size: Battalion Plus Operation, encompassing 2 months.
  • Timeframe: 1 SEP – 1 NOV. Will set conditions for assumption of Battlespace in Diyala. See attached ‘Way Ahead’ Slide.
  • Assets requested: IA (3/2/5 from KBS currently ISO Ba’qubah), RTE Clearance Assets

• N 4: Rashadiya: AQI Strong Hold that supports Tarmiya
  • Operations to C/K AQI HVIs influencing Rashadiya and Tarmiya proper
  • Force Size: Company plus operation
  • Timeframe: Currently on-going, will continue until complete, anticipated 60 days
  • Assets requested: Additional UAS support.
