1. TOPIC: Operations Phantom Thunder (Summer 2007 Offensive) (No Change)

DISCUSSION: On 15 June 2007 MNC-I reached peak combat strength with the final plus-up BDE (2/3 HBCT) and 3 CAB achieving full operational capability in MND-C and the 13th MEU beginning operations in AO Anaheim in North Eastern MNF-W. MNC-I increased the scope and intensity of offensive operations to take the fight to the enemy. Operations Arrowhead Ripper in Baqubah, Operation Marne Torch in Arab Jabour, Operation Hardh Al-Amin in the Lake Thar Thar region and Operations Dragon Fire and Gates of Freedom in the Rashid and Mansour Security Districts respectively have already made significant strides in securing the Iraqi populace and reducing AQI and Shia extremists freedom of movement.

MNC-I remains on the offensive with MND-B conducting Operations Dragon Hammer and Dragon Anvil clearing and defeating AQIZ in Rashid and Arab Jabour and Operation Iron Blitz to clearing West of Taji. MND-N will continue to attack AQI in the Diyala River Valley with the continuation of Operation Arrowhead Ripper, and prevent them from gaining sanctuary elsewhere by defeating AQI in the Kirkuk/Tuz area as part of Operation Bronco Ripper. MND-C continues to clear the Southern Baghdad Belts with Operations Avalanche, Operation Husky, and Operation Marne Torch II. MNF-W continues to clear remaining AQI elements in MNF-W with Operation Black Diamond in Karmah, and Operation Pegasus Bridge along their Eastern Boundary, and prepares Fallujah for IP control with Operation Alljah.

The focus of plus-up forces is Baghdad and the Baghdad belts. MNC-I continues to apply pressure on insurgent networks across the breadth of the country. Baghdad remains the Corps' main effort, Baqubah and the Diyala River Valley are currently the Corps' top priorities for corps assets followed by the Arab Jabour region of MND-C. While focusing on protecting the Iraqi population MNC-I will expand operations to deny the enemy freedom of movement and sanctuary in areas CF has traditionally had minimal presence while maintaining forces to foster further improvement in those areas that are showing initial signs of success.

2. TOPIC: Operation Phantom Strike (Disrupting an AQI Surge) (Update)

DISCUSSION: AQI is expected to attempt a surge in activities during the latter half of August and the first half of September both as part of a historical pattern associated with Ramadan, and as an attempt to influence CF governments and publics in advance of the scheduled September Assessment from GEN Petraeus to Congress.

MNC-I will conduct focused operations to disrupt or prevent AQI from carrying out planned attacks. The term "Phantom Strike" which previously referred specifically to MNC-I operations against networks emplacing deep buried IEDs, has now been expanded to an umbrella term for all operations which disrupt AQI's ability to conduct operations from 15 August to 15 September. Operations may target AQI IED networks, AQI Sanctuary/Staging Areas, AQI HVIs, or other targets which will disrupt AQI's ability to increase their level of attacks prior to Ramadan. **Operations against JAM SG in MND-C and MND-SE during this timeframe also fall under the Phantom Strike umbrella.**

MSCs briefed their concepts for conducting Phantom Strike to the MNC-I Commander on 3 August during the Commander's conference. MNC-I will prioritize Corps level enabler support to these operations, and assist in coordinating operations across or adjacent to MSC boundaries.

WAY AHEAD: C3 FUOPS coordinates with the MSCs to synchronize the timing and assist in any required boundary changes for Phantom Strike Objectives which cross or are adjacent to MSC boundaries.

The purpose is to determine the feasibility & serviceability of these systems at a POE. This effort will serve to be the basis of planning for follow-on implementation of same systems out at the other major POE's. **Efforts continue on finalizing setup of all equipment and determining adequate requirements for power / use of key personnel on the POE.** MNF-I began an OPT early May to develop an action plan on interdicting the flow of foreign fighters movement and infiltration inside Iraq which entails a focused, synchronized CF and DBE operation. (BCTs) operating in MND-Baghdad are supported by a heavy Combat Aviation Brigade (CAB). This CAB, the 1st Air Cavalry Brigade (ACB), will redeploy in December 2007 following a 15 month tour. Their originally scheduled replacement was tasked to support the newly created MND-Center when theater was increased to a 20 BCT posture in early 2007. There are no aviation assets scheduled to support MND-B upon the departure of 1ACB in Dec 07. Other OIF aviation assets could be tasked to support MND-B, but this could result in a significant increase in un-supported air mission requests, degradation in maneuver forces' capacity for mission completion, and a reduced ability to sustain operations throughout the area of operations. To mitigate this risk, and to preserve an ability to source future aviation force requirements, this RFF requests an Aviation Task Force (AVN TF) for approximately eight months to serve as the nucleus for dedicated aviation support to MND-B. RFF reclaimed from MNF-I pending briefing to command Group. To MNF-I 4 AUG 07.

NEXT ACTION: Respond to MNF-I RFIs.

KEY DATES: LADs between 18 NOV and 7 DEC 07.
