**MNC-I C3 PLANS AND POLICY NOTES (#2)**

**As of 10 January 2008**

**WARPLANS:**

**1. TOPIC:** Operation Phantom Phoenix (Update)

**DISCUSSION:** From Jan-Mar 08 Operation Phantom Phoenix commences with the purpose of disrupting AQI C2 and denying AQI and Extremists staging areas to incite a resurgence of sectarian violence. An FRAGO moving a battalion for MNF-W to MND-C and a battalion from MND-B to MND-N ISO the operation was published 2 JAN

**NEXT ACTION:** Movement of 5-7 CAV from MNF-W to MND-C

**KEY DATES:** 15 Dec 07 – 15 Mar 08

**POC:** [redacted] (b)(3), (b)(6)  
[redacted] (b)(3), (b)(6)

**2. TOPIC:** Environmental Estimate and Assessment ~Late Summer 2008 (No Change)

**DISCUSSION:** Initial 10 Provinces briefed to MNC-I Commander. Effort continues as the staff refines assessments for the remainder of Iraq. Commander will cross reference these assessments with those received from the MND/F Commanders at the OPOD 08-01 Back-Briefs. Estimates must be maintained as they will change with time.

**NEXT ACTION:** NA.

**KEY DATES:** NA.

**POC:** [redacted] (b)(3), (b)(6)  
[redacted] (b)(3), (b)(6)

**3. TOPIC:** "First 100 Days" Decision Briefing (Update)

**DISCUSSION:** The "First 100 Days" decisions are those decisions that XVIII ABC is likely to make between TOA (14 Feb 2008) and 1 June 2008. This decision briefing will be presented in February 2008, in order to provide continuity between corps and enhanced situational awareness to XVIII ABC as they transition to their role as MNC-I. Continuing to develop the storyboards.

**NEXT EVENT:** TBD rehearsal mid to late January 2008.

**WAY AHEAD:** See "First 100 Days" decisions planning timeline; posted to the SIPR C3 Plans and Policies homepage.

**POC:** [redacted] (b)(3), (b)(6)

**4. TOPIC:** MNC-I SOP (Update)

**DISCUSSION:** The Corps battle staff is re-writing the MNC-I Standing Operating Procedures.

**NEXT EVENT:** Staffing of the SOP from 5-15 January 2008

**WAY AHEAD:** ACTO reconciliation of Form 10s from 16-18 January 2008; Approval of MNC-I SOP o/a19 January 2008; Approved MNC-I SOP products hung on MNC-I SOP webpage o/a20 January 2008.

**ACTO:** [redacted] (b)(3), (b)(6)

**5. TOPIC:** HQ Consolidation (Update)

**DISCUSSION:** As BCTs in theater decrease, so will certain staff requirements, leading to an eventual consolidation of MNC-I and MNF-I. To preserve combat power, and an optimal ratio of HQ to subordinate forces as BCTs depart theater, plans is determining the HQ staff requirements for varying levels of BCTs assigned in theaters, identifying any excesses in HQ staff personnel and redundancies between MNC-I and MNF-I. Corps provided comment to

~~SECRET//REL TO USA and MCFI//~~

MNF-I FRAGO which is expected to be published in the coming. Attended initial OPT at MNF-I. A schedule for the transformation board will be forthcoming from MNF-I.

**KEY DATES:** 19 January 1000 Operations OPT .

**POC:** [redacted] (b)(3), (b)(6)  
[redacted] (b)(3), (b)(6)

**6. TOPIC:** 2CR Employment in Diyala (No Change)

**DISCUSSION:** Briefing prepared on deployment options available in the employment of 2CR in Diyala.

**NEXT ACTION:** Work into 100 day decision briefing.

**KEY DATES:** NA.

**POC:** [redacted] (b)(3), (b)(6)  
[redacted] (b)(3), (b)(6)

**7. TOPIC:** Elections (No Change)

**DISCUSSION:** Legislation: No recent progress on Elections Law or Provincial Powers Law. As of now, there have been 12 of 19 GEOs approved (one per province and two in Baghdad). That leaves 7 GEOs still to be nominated.

Voter Registration: Because there is still no operational budget for the IHEC, and due to those other difficulties, voter registration is unlikely to occur in January 2008.

Security: There is no definitive need for security assistance identified at this time. It was made clear that, as of now, MNC-I and MNF-I have no official requirements to provide security assistance for anything (actual elections or voter registration). We have been neither formally tasked nor informally asked to provide any assistance.

Provincial Elections: Earliest possible date for Provincial Elections, "if everything goes right" is June 2008, but much more likely is winter 2008, due to slow progress on legislation and lack of unified GOI position.

**WAY AHEAD:** 22 January 2008 1000-1030 MNC-I Elections Working Group at the C3 Plans and Policy conference room.

**POC:** [redacted] (b)(3), (b)(6)

**8. TOPIC:** Coalition Participation (No Change)

**DISCUSSION:** With the arrival of [redacted] (b)(3), (b)(6) in the MNC-I Coalition LNO Cell, C3 Plans has focused its coalition actions to the following items: (1) planning named operations that involve both US forces and a coalition MND (either MND-NE, MND-SE, or MND-CS), and also require corps enabler support, (2) tracking when the capabilities of coalition forces change dramatically enough to warrant either re-missioning of US forces or a boundary change, and (3) participating in WARFIGHTER exercises that train follow-on coalition partners.

**POC:** [redacted] (b)(3), (b)(6)

**9. TOPIC:** Base Consolidation and Closure (Update)

**DISCUSSION:** Base transfer / closures remain a conditions based approach driven by three major considerations: stability in the AO, ISF ability/capability to assume & hold battle space, and funding for base consolidation. The current methodology is bottom-up driven with MSC nominating bases for transfer / closure and MNC-I approve closure requests and supports/monitors the MNC-I SOP base closure process.

O3 & P4 approved COB list remains: Q-West-or-Zaytun, Speicher, Anaconda, VBC, IZ, Al-Asad, Delta, Adder, BAS, Bucca, Um-Qasr.

Base transfers: MNF-West; Corregidor and Combat Outpost completed transfer on 6-Dec-07 to the regional agricultural college (MoF), Blue Diamond transfers 1-Mar-08 and **Hurricane Point**

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

PCN is approved for 20-Feb-08, MND-B transferred control and ownership of both Union I (20-Dec-07) and Union III (3-Jan-08) to JASG-C. There are no new PCN requests.

MNC-I Basing OPT continues to assist and track progress on base transfer CONPLANS.

CONPLANS are due 15-Jan-2008 per MNC-I FRAGO 312 (para. 7)

MNC-I DCoS has departed theater and has transferred his Basing management to the MNC-I Deputy C7 COL Barrowman until 18<sup>th</sup> Abn Corps TOA.

IZ Consolidation Master Plan briefed to DDCS, SPA on 17 Nov. MNC-I also briefed DDCS, SPA on 20 Nov. Latest regarding the NEC occupation window is Feb 08 and be completed by Feb 09. Current plan for movement of MNF-I staff to NEC is approx 175 (down from 250) with STRATEFF being the major staff section moving. Intention is to collapse other elements into the Presidential Palace as space is made available by those moving to the NEC. All MNF-I properties within the IZ will transition to JASG prior to return to the Gol. JASG briefed DDCS SPA on the way forward. Brief included possible demolition of numerous buildings, as well as the inclusion of a permanent structure to be built where Freedom Rest resides. US Military forces FOB site is on the RONCO site.

**Next Action:** MNF-I SPA has formed an OPT to produce an Aug-08 basing outlook based on MNC-I's Aug-08 assessment. This outlook will produce the current and projected basing needs from every MNF-I subordinate unit/agency across Iraq. This OPT effort feeds a MNF-I briefing to P4 in early Feb-08.

**Future Actions:**

18<sup>th</sup> ABN Corps' current plan of responsibility for Basing management is still under review. Last COA had Basing under the C5.

**Bases transferring / closing in the next:**

**30 days:** -

**60 days:** MNF-West's Hurricane Point and Blue Diamond

**90 days:** -

**Key dates:** Next BMWG 12-JAN-08, Next EBMBBoard is 03-FEB-08. The next MNF-I Basing Board (IZ) is 13 Jan 08.

**POC:** [redacted] (b)(3), (b)(6)  
[redacted] (b)(3), (b)(6)

**10. TOPIC:** Establishment of Judicial Complexes (No Change)

**DISCUSSION:** During the conduct of the MNC-I OPORD 07-01 Brief, the CG MNC-I directed the MNC-I SJA to assume responsibility for the establishment of safe, secure judicial complexes throughout Iraq, modeled after the Rule of Law Complex in the Rusafa District of Baghdad. Additionally, the CG MNC-I provided guidance to establish the first site in the city of Ramadi. Initial planning began with the development of a Concept Brief, which was briefed to the MNC-I C3. Upon briefing the C3, the MNC-I SJA section published WARNO 008 to provide notice to the major subordinate commands about this initiative and to assemble the Corps Judicial Complex Working Group (JCWG). Members of the JCWG include representatives from the Corps SJA, C4, C6, C7, C8, C9, and AT-FP sections as well as a representative from the Joint Contracting Command.

- Initial Site Assessment has been completed. Overall cost of project is now estimated to be \$11.6 million. Total completion time for project would be 120 days (assuming complete availability of site).

- Location for Judicial Complex in Anbar province has moved from Camp Blue Diamond to Hurricane Point, directly across the river. The move was made to accommodate the Provincial Governor, who wished to use portions of Blue Diamond for a governmental center. Current plans indicate that the Judicial Courthouse and administrative offices will be situated within a pre-existing building on Hurricane Point, and discussions and planning are underway for the location of the judicial housing (either on Hurricane Point or within Blue Diamond).

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

- Construction expected to begin on Judicial Complex at Hurricane Point in March 2008.
- MNC-I FRAGO 29 to OPORD 08-01, Judicial Complex Site Selection, was published on 1 January 2008. The FRAGO directs MND-N to choose locations for four (4) judicial complexes, one per province, within MND-N's AO and provide site information to MNC-I NLT 20 JAN. It further directs MND-C to initially determine whether a judicial complex is required within its AO NLT 20 JAN, and then subsequently to select a site NLT 1 Feb, if required. The purpose of the FRAGO is to begin necessary movement and place XVIII ABC in a position where they have sites selected, and can begin working through the planning and contracting process.

**POC:** [redacted] (b)(3), (b)(6)

**11. TOPIC:** IA Legal Advisor Partnership Program (IALAPP) (No Change)

**DISCUSSION:** The MNC-I OSJA IALAPP stated priorities are: (1) Oversee IGFC Legal Advisor training; (2) Provide assistance in implementation of revised IA military justice system; (3) Encourage centralized IGFC Detainee procedures and policies; (4) Coordinate providing equipment, materials, and training to increase effectiveness of IA legal advisors; and (5) Foster decrease in IA detainee abuse.

**NEXT ACTION:** Ongoing projects include:

- BG Adnan Hamudi, IGFC Legal Advisor, as well as [redacted] (b)(3), (b)(6) IGFC Deputy Legal Advisor, meeting on a biweekly basis with MNC-I OSJA IALAPP attorney;
- IA implemented Military Justice System on 1 Oct 07. The English translation of the published laws is complete; [redacted] (b)(3), (b)(6) is finalizing the training package on the IA Military Justice System to be distributed throughout theater via MNC-I FRAGO;
- Military Court at Muthena Airport is staffed and ready to hear cases;
- Copies of the IA MJS codes were received from MOD and distributed to the Divisions.

**KEY DATES:**

1 OCT – IA Military Justice System implemented

**POC:** [redacted] (b)(3), (b)(6)

**12. TOPIC:** Major Cultural / Religious Events (No Change)

**DISCUSSION:** The following lists the months of the Lunar Calendar for 1428-9 (2007-8):

<u>Lunar Month</u>	<u>Meaning</u>	<u>Gregorian Month</u>
* 1 Muharram 1429	Forbidden	10 January 2008

**1. TOPIC:** 11 IA HQ Force Generation and Deployment for FAQ (No Change)

**DISCUSSION:** 11 IA is a PMI unit currently undergoing force generation at Old MOD. 15 NOV 07, 11<sup>th</sup> Division took operational control of 1/11 and the Adhamiyah Security District. GEN Babakir has mention several times that he does not want to reflag 4/1 to 4/11. 3/11 and 1/3/11 completed RIP in Sadr City. 2/3/11 completed RIP in Kadamiyah  
Unit designations:

- 1/11 IA Adhamiya
- 2/11 IA to JSS Black Lion and 4 Castles (temp)
- 3/11 IA FOB Hope
- 4/11 IA: planned for 4/1 to reflag, but that is unlikely. May require FORCEGEN or reflagging of a 6 IA BDE.

Battle-space for 11th IA.

- 3 BDEs to Rusafa Area Command, 1 BDE to Karkh Area Command.
- 11th IA able to incrementally C2 BDEs as it becomes more capable, in order:  
1/11(complete), 4/11 (re-flagged from 4/1) 3/11 and 2/11.

**NEXT ACTION:**

- OCT 07 FOC (DIV HQ Build, Phase 1) Orders need to be cut to transfer to BOC control
- 15 JAN: 3/3/11 IA BMP will be complete. They will be leaving Besmaya on 15Jan08 and their their BMPs would be trucked up to FOB Hope.
- 2/11 Unit Set Fielding complete. They held a graduation ceremony with the Minister of Defense 2 JAN. Begin moving into Karkh 3 JAN.
- 2/11 will totally clear Besmaya by 6 JAN.
- Orders needed for 2/11 and 3/11 transferring from MoD to BOC

**KEY DATES:**

JAN/FEB: Reflag 4/1 to 4/11?? Doubtful, more likely to remain in Baghdad until new 2/6 generated or a new 4/11 is generated.

FEB: ADCON 4/11?

APR: TACON 4/11? 3/11 and 2/11 FOC

JUN: 11 IA DIV troops FOC (Phase 2 of DIV HQ build)

**POC:** (b)(3), (b)(6)

**2. TOPIC:** IA Future FAQ Rotations (No Change)

**DISCUSSION:** C3 Plans requested C3 ISF prepare a presentation on the facts, assumptions, constraints and risks used to forecast which IA units are available to deploy in support of Baghdad Security Operations. Situation remains fluid:

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

- A. 4/1 verbal guidance is that it will extend indefinitely.
- B. 3/11 and 1/3/11 completed RIP in Sadr City. 2/3/11 completed RIP in Kadamiyah.
- C. MoD order 3126522, to generate a new 2/6 IA calls for 3/1/3 to stay in Baghdad and be re-designated as 4/2/6 IA. IGFC has now cut their order to establish 2/6; no date.
  - MoD gave verbal guidance to IGFC that 3/1/3 would redeploy this week, but that was rescinded on 1 JAN. 3/1/3 will stay in Baghdad at present.
  - Plans for 2/6 FORCEGEN on hold.
- D. 3/2/2 ordered to remain in Baghdad until 15 JAN.

**NEXT ACTION:**

- 1 JAN: MNSTC-I forecasted 2/11 IOC date. Need orders to BOC.
- ~ 10 JAN: 3/3/11 BMP fielding complete
- 15 JAN: 3/2/2 redeployment

**KEY DATES:**

APR: 3/11 and 2/11 IA FOC

**POC:**

(b)(3), (b)(6)

**3. TOPIC:** IAIB Transition (Update)

**DISCUSSION:** Construction efforts along the exclusion zone are still significantly behind and the first location to become available will not assist in housing newly converted BNs. Exclusion zone basing will not keep pace with the current retraining plan.

- 2/5/4 occupied 9 IAIB AO (Shajart al Dur). 9th IAIB moved to 10th IAIB AOR. 10th is at K1 for transition to 3/7/4.
- LORs supporting the FMS cases to field additional SIB units with added equipment were returned to MNSTC-I SAO UNSIGNED. MoD's stated reason was that IAIBs are no longer a priority for the Iraqi Army and MoD for 2008. 05 DEC: No progress, but IAB transition and 12 IA continue to be listed as FORCEGEN priorities, so there is still hope.
- Phase I of the "Exclusion Zone" (Bayji to Kirkuk) estimated 70% complete, estimated completion FEB 08. The Bayji to Baghdad Exclusion Zone is scheduled to start construction in MAR 08 and to be complete in DEC 08.
- 16 IAIB will transition into 6/4/6 following a four week regeneration (starting in mid JAN?) at the Iraqi Army Compound (IAC) in Mahmudiyah. Leadership and equipment are being cross-leveled from across 4/6 IA now. Pipeline duties will be divided among the 4/6 BNs.
- IAG will conduct an inventory of 12<sup>th</sup> IAIB prior to making a decision on allowing them to conduct transition training. If inventory is sufficient, they will begin training.

**NEXT ACTION:**

Now – 12 JAN: 3/7/4 (10 IAIB) transition training at K1

21 Jan – 29 FEB: 2/6/4 (12 IAIB) transition training at K1

**KEY DATES:**

**POC:**

**4. TOPIC:** Seaport-Airport Transfer of Authority (Update)

**DISCUSSION:** The supervision of seaports / airports now falls under the MoI / DBE effective 24 Jul 07. Key ministerial negotiations and administrative requirements associated with this action will continue to facilitate / complete the transfer process. It is assessed that the Umm Qasr port manager (b)(6) is likely to retain his position for the foreseeable future, as is the port director (b)(6) (who is based in Basrah). The PM has appointed Director Generals (DG) for 4 seaports and will come under MOI authority. U.S. DOT has taken the lead

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

on increase in capacity and capabilities at Um Qasr SPOE. DOT reports intention to divide North and South Terminals and institute private management under contract to Gol. Additionally, CF anticipates assisting Gol in obtaining necessary machinery to dredge channel into Um Qasr. Rehabilitation of Um Qasr as well as Iraqi rail system would allow Iraq to take advantage of a large inter-modal transport hub serving the region. **A working group has been formed involving Gol, MNF-I and MNC-I to deal with security and commercial development of Sea POEs which should increase the visibility of all issues relating to MoI and MoT transfer of authority. The Iraqi National Security Advisor is planning a trip to Um Qasr to review security and development in the near future.**

**NEXT ACTION:**

-Continue to monitor actions / developments of seaport/airport strategy & seaport transfer of authority to MOI

-Transfer of authority of the FPS from the MoT to Mol

**KEY DATES:**

-TBD: NSA visit to Um Qasr

- TBD: Joint Border Enforcement Workgroup at DBE HQ - Tentative

**POCs:**

(b)(3), (b)(6)

(b)(3), (b)(6)

**5. TOPIC:** Logistics Base Concept (Update)

**DISCUSSION:** Site Surveys are scheduled to begin during January 2008 for development of Base Support Locations at **Al Kindi, Al Shaiba, Al Amarah, Tikrit, Al Asad**. The projected IOC timeframe for these facilities is June 2008. CAA-TT is currently managing the Force Generation for the units associated with each of these BSLs. The remaining locations will go into development later in the month of January. There are no further updates at this time.

**NEXT ACTION:** Remain engaged with CMATT Logistics on current events concerning BSL development.

**KEY DATES:** None

**POC:**

(b)(3), (b)(6)

**6. TOPIC:** Logistical Support for OCIE at IA Training Centers (No Change)

**DISCUSSION:** There is a potential for each IA Division to be eventually configured with 4 Brigades each and 4 Battalions under each Brigade starting in 2008-2009. This potential change would only affect those elements that are not already in this "4x4" configuration. The impact on increased manning will be most influential on available OCIE issued by the training centers for new recruits. It is estimated by MNSTC-I that available stocks of OCIE will run out by May 2008 versus June 2008 as previously forecasted. It is critical that MoD signs all necessary LORs to support the ownership of providing for OCIE beyond the May-June 2008 timeframe.

**NEXT ACTION:** Remain engaged with CMATT Logistics MNSTC-I J4 and IGFC on current events concerning the changes in OCIE support from MNSTC-I to MoD.

**KEY DATES:** None

**POC:**

(b)(3), (b)(6)

**FORCE GENERATION:**

**1. TOPIC:** Request for Forces (RFF) 796 Mod 1 Aviation Task Force Extension (No Change)

**DISCUSSION:** MNC-I requests 1 X HHC, Aviation Brigade, requested in RFF 796, be extended to serve a full 15 month tour. This is a non-enduring request for a 230 day extension of TF<sup>1.4a</sup> (sourcing solution for RFF 796) from its current BOG of 15 Jul 08 to a 15-month BOG of 15 Feb

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

09. This extension from eight months to 15 months is required due to MNC-I's plan to replace MND-C's 3ID Headquarters in summer, 2008, thus maintaining the existence of three Army division headquarters in Iraq. TF<sup>1.4a</sup> which has no replacement, must be extended to continue to serve as the Corps Aviation Brigade Headquarters, thus enabling the three other aviation brigade headquarters to provide direct support to the three OIF Army division headquarters. Released by MNF-I to CENTCOM on 8 NOV 07. Released to the Joint Staff on 17 DEC 07.

**NEXT ACTION:** Staffing at JS for final validation

**KEY DATES:** Extend BOG to 15 FEB 09

**POC:** (b)(3), (b)(6)

**2. TOPIC:** RFF 828, MNC-I RFF #167, 2 x Brigade Headquarters (+) (Update)

**DISCUSSION:** This RFF combines two RFFs currently in staffing at CENTCOM, the requests for 2 x BDE level HQ and the associated 2 x Combat Arms Battalions. The requested Brigade Headquarters (+) would deploy to designated locations in the Iraqi theater of operations to provide a command and control element that will integrate civil military operations; interface with local and provincial leaders; command and control provincial reconstruction teams; and command and control limited lethal operations. The BDE Level HQ will deploy to Ar Ramadi in Al Anbar Province and Al Kut in Al Wasit Province in order to facilitate discussion/dialogue with local and provincial leaders as well as to command and control existing Coalition Forces and Provincial Reconstruction Teams (PRTS) in respective operational environments. To foster stability efforts and continue with the projected reposturing of combat forces MNF-I is requesting a scaled force package which they view as a template toward continued successful interface with the local and provincial governments as the fledgling government matures. This organization consists of three parts: (1) 2 X Brigade Headquarters, (2) 2 X Civil Affairs Teams (CAT) (Attached) and (3) 2 X Combat Arms Battalions (-). CENTCOM RFF 828 released to JS; 7 DEC 07. **A General Officer Tank convened to determine sourcing recommendations. MNC-I concurs with the Al Kut sourcing recommendation, but nonconcurs the Ar Ramadi sourcing recommendation.**

**NEXT ACTION:** SecDef will be briefed on 12 JAN

**KEY DATES:** LADs: 4 March and 11 June 08 (approx. <sup>1.4a</sup> pax)

**POC:** (b)(3), (b)(6)

**3. TOPIC:** RFF 695 MOD 2, MNC-I 164, Continued Staff Augmentation for ESC (No Change)

**DISCUSSION:** This RFF MOD is for an augmentation of <sup>1.4a</sup> PAX to support future ESC rotations. In FY08, 3d ESC will replace 316th ESC, which deployed with an augmentation of <sup>1.4a</sup> PAX in addition to being sourced at 110% of their MTOE. Without similar augmentation, 3d ESC will be manned by MTOE at <sup>1.4a</sup> PAX; this is a reduction of <sup>1.4a</sup> compared to the current manning of 316th ESC <sup>1.4a</sup> PAX). If 3d ESC is filled to only 80% of MTOE (P2), and the RFF is not approved, they would deploy with <sup>1.4a</sup> Soldiers; 53% less than the 316th ESC deployment level of <sup>1.4a</sup> PAX. These reduced PAX numbers will greatly impact the capability of 3d ESC to successfully accomplish the combined missions of providing C2 to over 19,000 logistics Soldiers, coordinating Force Protection to five Forward Operating Bases and conducting convoy security for theater level logistics convoys. RFF 695 identified the ESC staff augmentation package as an enduring requirement in the 07-09 JCS EXORD MOD 7 with future rotations to be filled by addition of augmentation package to the JMD. This has not been accomplished and CENTCOM has published a message describing ESC staff augmentation as an unsuitable addition to the JMD. This RFF seeks to establish this ESC augmentation package as an enduring requirement, separate from the JMD, until such a time as it is no longer necessary. Transmitted to MNF-I 22 NOV 07; staffing continues. CC has determined that the volunteer pool has been exhausted; no resolution to find sourcing solution; short term plug

solution being staffed. The URF deploys 1.4a PAX. MNF-I released the RFF to CENTCOM on 17 DEC 07.

**4. TOPIC:** RFF 837 (MNC-I #162) CID BN HHD assigned to MNC-I (Update)

**DISCUSSION:** This RFF requests the deployment of one Criminal Investigations Division Battalion HHD to the Iraq Theater of Operations (ITO). MNC-I requires a separate unit (1 x CID BN HHD) to conduct operations and criminalistic analysis for all Non-Improvised Explosive Device (IED) related evidence in the Iraq theater of operations. The CID BN HHD will serve as the Command and Control node for the future deployment of four Joint Expeditionary Forensic Facilities (JEFFs) to the ITO. JEFFs are a comprehensive forensic force multiplier for maneuver as well as support units that provide an immediate offensive capability by exploiting evidence of forensic value before, during and after any combat operations. The CID BN HHD provides forensic evidence collation, forensic examination and criminalistic analysis, command and control and linkage to MNC-I as well as reach back capability to the United States Criminal Investigations Laboratory (USACIL) and other CONUS labs and facilities. The CID BN HHD will liaise with appropriate interagency organizations to provide forensic support as needed. This capability will provide a critical resource and combat multiplier for deployed forces theater wide. Released by Force 21 Nov 07. **CENTCOM released as CC 837 on 7 JAN.**

**NEXT ACTION:** JS staffing

**KEY DATES:** EAD 1 MAR 08. LAD 15 MAR 08

**POC:** (b)(3), (b)(6)

---

**5. TOPIC:** MNC-I #166, 4 X Movement Control Teams (No Change)

**DISCUSSION:** This RFF is for an enduring requirement for four (4) x Movement Control Teams (MCT) 1.4aPAX) to backfill 4 x MCTs upon their redeployment in Spring, 2008. Without the forces requested here, the total number of MCTs in Iraq will be reduced to 16. This reduced number is inadequate to effectively conduct movement control operations. The four MCTs redeploying without a backfill were requested as part of the support requirements for the additional five BCTs (RFF 719) and the requirement for these assets was not requested as an enduring request. However, the necessary deployment duration of these assets should not be tied to the number of BCTs in Iraq but rather to the number of FOBs and the flow of material and services in support of the sustainment of Coalition forces. In addition, the recent shift from a centralized hub and spoke sustainment operation supported solely through Kuwait to a decentralized operation with support flowing through Kuwait, Jordan, and Turkey requires a minimum of 20 MCTs to monitor and synchronize the flow of material at numerous outlying locations. The requested backfills will conduct critical missions at LSA Anaconda, Victory Base complex, LSA Adder, and Camp Taji. Failure to continue sourcing these MCTs will degrade movement control operations and the overall sustainment of Coalition forces in these key areas and throughout Iraq and would hamper the commander's initiative to maintain constant pressure against Anti-Iraq forces. **DISCUSSION: Past:** RFF 656, 17Jun06, requested Riverine capability. JFCOM RFI, 30Sep06, indicated RFF 656 not sourced due to RFF 397 (for MNF-W), directed CENTCOM to source

internally. MNC-I ONS, 30 Nov 06, disapproved 8Jan07. Joint Capabilities Board review of JUONS had no significant results. JFCOM developed an in-lieu-of solution and engaged the global force management process, recommending deployment of MESF (3 x Armored RHIBs) to augment RIVRON. Solution removed from SDOB by Navy. Naval planning team sent to MNC-I OCT 07 based on CONOP request from Chief of Naval operations.

Coalition partners were contacted, no personnel or equipment were committed. MND-SE terminated river patrols and prepositioned equipment under a seven day response concept.

Based on MNC-I request to utilize Iraqi Fast Attack Boats (FAB), Iraqi Navy Commander signed MOU, boats were identified and inspected. US owned JP8 out board engines procured for the FAB and follow on Coalition watercraft. Iraqi Navy Forces Commander and the MNC-I CoS signed an MOU extending FAB utilization to 1 Oct 08.

26Jun07 FRAGO, identified the commercial watercraft purchase option to MNDs utilizing OMA funds and internal assets. Eleven Coast Guard watercraft were laterally transferred to MNC-I. 10<sup>th</sup> Trans Bn is executing initial inspection and preparation. Riverine way ahead submitted to JCS tank on 12Oct07, CONOP needed for action. MND-C submitted a JARB for three armored watercraft, delivery anticipated NET 1Jul08. Initial training class started on 8Dec07. Jan/Feb08 training schedule pending due to mission load/RIP/TOA. Intel briefing for MNC-I BUA on 28Nov07 highlighted sustained inland waterway threat. Naval Planners completed CONOP recommendation 5 Nov07. Coast Guard training team with 10<sup>th</sup> Trans at Kuwait Naval Base (KNB) conducted MND-C crew training minus waterborne live fire training in Dec07. MND-C crews performed commendably and are prepared to execute operations. MND-N recommended that watercraft be redirected to other Divisions based on mission load inhibiting crew train up.

**Present.** Three of eleven Coast Guard watercraft and six FABs with 10<sup>th</sup> Trans at KNB are operational. MND-B is prepared to accept and train on watercraft in Feb08.

**NEXT ACTION:** MNF-I CG sign corrected response to Navy CONOP and forward to CENTCOM. Watercraft distribution will be based on division need, capabilities, and maintenance.

**7. TOPIC:** Combat Tracker Dog Teams JUONS (Update)

**DISCUSSION:** This JUONS would source MNC-I requirement for 2 CTD teams per 17 BCTs, for a total requirement of 144 personnel. USCENTCOM issued RFF 780, 29 JUN 07, Subject: "Combat Tracker Dog Teams ~~(S/REL)~~" requesting capability for theater, with 30 SEPT as Latest Arrival Date. JS and JFCOM unable to source request, recommended CENTCOM pursue contracting solution until Services develop required capability. CTD teams have the ability to identify, pursue, track, and locate anti-Iraq forces from historic and current IED sites, indirect fire points of origin, and sniper positions back to their homes or operating bases. CTDs are an IED defeat force multiplier for line units that provide an immediate offensive capability by exploiting post-blast/UXO attack sites. **The JUONS for this RFF is CC-0232. ~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

**DISCUSSION:** MNC-I requests a separate URF be established for a Veterinary augmentation package consisting of 1X64F (Veterinary Clinical Specialist), and 3X68T (Animal Care Specialist). Past rotations of the Medical Detachment Veterinary Service have only been sourced with 1X64F and 1X68T to provide Level III veterinary surgical capability. Based on the increase in military working dogs in theater there is a need to increase the number of skilled VETs and maintain the Level III VET capability in theater. MEDCOM, FORSCOM and CENTCOM have approved and have sourced the current MDVS with two additional 68T, bringing the total requirement to 1 x 64F and 3 x 68T. Without this capability, the closest Level III veterinary surgical capability is Germany. CENTCOM, FORSCOM and MEDCOM have validated this requirement and this RFF establishes the requirement as enduring. Submitted to MNF-I on 27 DEC 07; staffing continues

**POC:** [redacted] (b)(3), (b)(6)

**9. TOPIC:** MNC-I RFF 171, 1 X Joint Combat Assessment Team (JCAT) (No Change)

**DISCUSSION:** The purpose of this RFF is to validate this capability, already sourced by the Navy (NAVAIRSYSCOM), as an enduring OIF requirement. The required number of personnel (6) are already approved, sourced and deployed to Iraq via 07-09 URF (12901). The FY09 URF (45624) is also already approved. The FY08 URF (12902) has been deleted and CENTCOM Force Management has directed this RFF be processed in order to validate the FY08 rotation of this capability. The JCAT conducts in-theater evaluation of military aircraft damaged during combat operations in the Iraq AOR and provides assessments of enemy anti-aircraft threats and capabilities. **DISCUSSION:** This RFF includes both 1 X Horizontal Construction Company to support combat and construction operations in Multi-National Division Baghdad Area of Operations and 2 X Facility Engineer Detachments to support construction and maintenance at the Combat Support Centers (CSCs). These two requirements (previously MNC-I RFFs 152 and 154) were combined by CENTCOM into one RFF (824). The Facility Engineer Detachments are a new requirement needed to provide adequate engineer support at the CSCs; the Horizontal Engineering CO requirement seeks a one-for-one replacement for the 642d Engineer Support Company which redeployed in Nov 07 without a sourced replacement. CENTCOM released to JS as RFF 824 on 21 Nov 07. RFF was fully sourced by the JS. Approved in DEC SDOB

**12. TOPIC:** MNC-I RFF #161, Counter IED Corps Support Team and 4 X Division/MEF Support Teams to support MNC-I IED Network Attack (No Change)

**DISCUSSION:** This is a request to formalize a recurring requirement for forces in Iraq to enable Joint IED Defeat Organization (JIEDDO) support for effective IED Network Attack operations. JIEDDO created the JIEDDO CIED Operations Integration Center in Virginia in 2006-7 to develop a broad variety of fused operations-intelligence products in support of USCENTCOM network attack operations. Commander MNC-I and Director, JIEDDO have conducted a proof of concept employment of a Corps Support Team (CST) and Division/MEF Support Teams (DST/MST). Through relatively small C2 and SATCOM deployment packages, the CST, DST/MST enable direct in-theater utilization of the extensive JIEDDO COIC capabilities. Commander MNC-I now requires these detachments, totaling 1.4a personnel (3 of which are already on a JIEDDO Field Team Iraq JMD), for recurring support of MNC-I and subordinate MND/MNF HQs for the duration of their deployments. Released by MNC-I 15 Nov 07. Based on the verbiage of the RFF which referred to the requested military PAX as "equivalencies" to contract civilians, MNC-I determined that the request does meet the criteria for a formal RFF; RFF will be withdrawn. CENTCOM has directed MNF-I to request the forces by memo thru CCJ3-IED to JIEDDO. CENTCOM FM is taking no further action with this RFF. Memorandum being drafted by the COIC at MNC-I. **Memorandum was forwarded to CENTCOM on 23 DEC**

**13. TOPIC:** RFF 806, Information Operations (No Change)

**DISCUSSION:** US adversaries operate on the internet with near-impunity, using it to recruit new members, spread extremist ideology and propaganda, and disseminate command and control messaging. Recent authorities grant DOD greater opportunity to contest the free use of the internet by Anti-Iraqi Forces (AIF). MNC-I is developing three capabilities to execute CNO and PSYOP based on those new authorities. MNC-I needs CNO capabilities to understand adversary use of the internet, develop targets, and make appropriate target nominations that reflect MNC-I requirements. MNC-I also needs the capability to counter extremist propaganda and messaging on the internet by providing an alternative voice and message. This is

**15. TOPIC:** Request for Forces 719 Mod 6 (MNC-I #144) for Replacement Division Headquarters for Multinational Division Center (MND-C) (No Change)

**DISCUSSION:** It is conceivable that MNC-I will sustain the current level of brigade combat teams through the summer of 2009. In addition to maintaining the current set of forces, Multinational Division-Center (MND-C) will assume responsibility for the current Multinational Division-Central South (MND-CS) on or about 1 MAY 08, increasing the division's geographical coverage area by at least one seventh (fourteen percent). In view of these facts, it is necessary to request a replacement of the current Multinational Division-Center (MND-C) Division Headquarters, 3d Infantry Division, in order to maintain the same level of command and span of control. As the headquarters is replaced, the package of enablers for the division must also be replaced. LAD for this replacement division headquarters is 12 MAY 08. SECDEF approved MND-C division headquarters to replace 3ID. 10MT HQs sourced as replacement division headquarters. Transmitted to JS 4 Oct 07; sourcing solution for the EOD BN HQ [1.4a] PAX) approved in the 30 NOV SDOB; remaining enablers (minus the Fires BDE, [1.4a] pax, and WIT, [1.4a] pax) expected in the DEC 07 SDOB. **16. TOPIC:** MNC-I RFF #157, 1 X SECFOR Combat Arms Battalion (Update)

**DISCUSSION:** MNC-I requests 1 X SECFOR Combat Arms Battalion (BN) to relieve 1-9 FA conducting Force Protection missions at LSA Anaconda. This is a non-enduring requirement requesting a one time fill from 15 JUN 08 to 15 SEP 08 and can be filled by retaining current SECFOR units scheduled for curtailment. The gap in capability requested in this RFF is the result of CENTCOM concurring with JFCOM's request to accept the 07-09 Theater Security BDE minus 1 X IN BN. MNC-I has internally mitigated this shortfall for 13 months by task organizing 1-9 FA from 2/3 ID and placing them OPCON under 1/82 ID (-). 1-9 FA is not scheduled to be replaced as a rotational force and its BOG is approximately 40 days prior to 1/82 ID (-)'s BOG. Transmitted to MNF-I 5 OCT 07. Transmitted to CENTCOM 22 OCT 07. CENTCOM with JS discussing to restaff as GENADMIN or continue as RFF. **17. TOPIC:** Request for Forces (RFF) 820 – Extend 126 FMCO (-) to 365 BOG (Update)

**DISCUSSION:** This modification changes the 126 Financial Management Company (minus) from 90 day BOG to an enduring requirement. Additionally, it requests that the RFF requirement be changed from a Financial Management Company (-) to a Financial Management CO. Fourteen (14) (but as of 24 OCT 07 fifteen) MNC-I finance detachments support 192,000 personnel (military and civilian) in Iraq, greater than twice the doctrinal number of 6,000 personnel each. MNC-I finance units also disburse over \$2,000,000,000 (\$2 billion) annually. Currently, three Financial Management COs provide internal control and technical oversight of MNC-I finance detachments in order to maintain accountability of public funds. A minimum of three Financial Management COs are required by doctrine to provide internal control/oversight. Redeployment of the 126 Financial Management CO (-) after 90 days will violate the doctrinal template and increase the potential for loss of public funds. Sourcing of the 126 Financial Management CO (-) at 67% of authorized strength [redacted] 1.4a PAX) also jeopardizes their ability to perform their mission. This will restore the financial internal control/technical oversight capability that existed prior to FY 06-08 rotation. Two Department of Defense IG audits of internal controls of finance operations in South West Asia are currently ongoing or scheduled to begin in 2008. CENTCOM released to Joint Staff as extension for current unit and as an enduring requirement 12 Nov 07. SECDEF disapproved the BOG extension. CC RFF 820 remains valid based on the enduring requirement request for one financial management company to replace the redeploying unit. ARCENT will provide C2 to the 1 DET; LAD or 106 FMCO (USAREUR) as backfill is 29 FEB 08 for 15 month deployment. Approved in DEC SDOB. personnel) compared to 3rd COSCOM. Additional personnel will enable 316th ability to plan, coordinate, and synchronize logistics support and sustainment operations across the ITO. Reduced manning based on transformation to Single Log C2 with 1st Theater Support Command (TSC) assuming portions of overall theater sustainment mission from the ESC. Timeline for 1st TSC to assume Single Log C2 is a minimum of 6 months into the 316th ESC rotation (~Jan 08). CENTCOM RFF 695 released 9 Nov 06. Sourced in 07-09 EXORD Mod 7. CENTCOM also states in EXORD that this enduring request will be sourced after 07-09 via a JMD. Since then, CCJ1 And CCJ4 have stated via e-mail that the JMD is not the correct method of sourcing this requirement and do not endorse the creation of a JMD to support this requirement. Discussed in detail with CENTCOM, JFCOM, and FORSCOM 21 Aug. Seeking short and long term solution. Short term solution is either a BOG extension (which CENTCOM vetted and believes is not feasible), or seeing volunteers and plugging with CONUS units. Long term solution is mod 2 to RFF 695 which will make the requirement enduring for the next ESC. 23 Aug: JFCOM AO is also researching the possibility of changing EXORD mod 7 to remove the JMD and make the requirement enduring by disconnecting the augmentation from single log C2 which will alleviate the need to an RFF mod. Formal message at CENTCOM and ARCENT FFA. JFCOM has stated via email that RFF 695 mod 2 will need to come forward to change the EXORD wording and to make the augmentation enduring and distinct from Single Log C2. CENTCOM is requesting that JS rescind the EXORD requiring the JMD. ESC is preparing to route their RFF. Short term solution is progressing. MNC-I CJ1 is working with 316 ESC G1 and coordinating with HQDA to have orders cut for current ESC augmentation volunteers. Coordination efforts are also in progress to use personnel on the in theater volunteer list (maintained by MNC-I CJ1) to fill nearly all of the remaining 51 positions left open. This effort will take approximately one month to complete and there is a risk of having Soldiers who have put their name on the volunteer list having changed their mind regarding staying in theater. 316 ESC has successfully filled [1.4a] slots for the augmentation plug using the theater volunteer list and DA is providing the other 2 individuals. Will continue to press on the long-range sourcing solution. DA has refused to extend the [1.4a] AGR Soldiers. Total now needed for short-term plug is [1.4a] ARFOR and operational chain of commands apprised of situation. ESC will continue to identify volunteers until 15 Nov, and then ARFOR will need to provide remainder. Working point paper with C4 [ (b)(3), (b)(6) ] to route up chain of command for GO attention. Required number for short-term plug is [1.4a] DA has taken FORAC. RFF is at MNF-I for staffing. The number of PAX that remain unsourced is [1.4a] CC has determined that the volunteer pool has been exhausted; no resolution in sight to find a sourcing solution. Held sidebar with ALCON at FORSCOM Sourcing. JFCOM agreed to push short-term plug provided we look at internal mitigation one final time. CENTCOM will push RFF out ASAP. Discussed possible fill for this and follow on URFs being the unused portion of the modular SB which services Al Asad. The URF only deploys [1.4a] pax. Both request for plug and RFF have been released and coordination between CENTCOM and JFCOM/JS is in progress. **JFCOM logbook for plug was due 2 Jan from force providers. **DISCUSSION:** MNC-KU JMD was ordered in response to RFF 695M1 after first rotation was sourced via traditional sourcing. JMD is loaded in database by MNC-I CJ1, but cannot be activated by CENTCOM J1 due to the JMD process running through the GFMB, rather than the PSRB process. Working point paper with C4 [1.4a] (b)(3), (b)(6) to route up chain of command for GO attention. Met in sidebar at FORSCOM Sourcing Conference. CENTCOM FM has agreed to push this issue through their C1. Also discussed the general possibility to source via unit fill using underutilized SECFOR BCT BN HQ from either ARCENT or TF-134.

**23. TOPIC:** Weapons Intelligence Teams Sourcing (No Change)

**DISCUSSION:** Currently USAF has been assigned to fill [1.4a] which is for the Weapons Intelligence (WI) CO (it includes the C2 element and 15 WI teams {WIT}). Thus far, only [1.4a] USAF personnel (i.e. intelligence analysts) for [1.4a] have been sourced to fill the requirement as of 11 Nov 07. Specifically, FY08 GFMAP Mod 2 sourced these [1.4a] personnel for this requirement. Currently, USAF has provided a non-concur to sourcing the other [1.4a] personnel required under [1.4a]. The reason provided for the USAF non-concur is that the

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

service does not agree with the construct of the WI CO mission. This USAF non-concur has resulted in the recommendation by JFCOM to JS to provide a GO override of the USAF non-concur; however, as 11 Nov 07 MNC-I is unaware if this non-concur has been executed. Additionally, there is an issue with the USAF intention to fill a Military Police/Security Force skill set (AFSC 3P071) with Still Photographer (AFSC 3V072). Based upon the information pulled from the USAF website, there are 1.4a Still Photographers under 1.4a and another 3 under RFF 719 Mod 1 rotation completing training, vice Security Force personnel.

Replacing Security Force personnel to fill the investigator position with a Still Photographer is an unacceptable in lieu of option because they are not investigators. Investigators are required because the WIT conducts cache and post blast investigations. With no indication that the appropriate Security Forces personnel have been identified, or received any of the required training, this too puts the WIT mission at risk. This in lieu of option was not staffed with MNF-I, MNC-I, or CJTF 1.4a There is no indication it was staffed outside of Air Force channels, as both CENTCOM and JFCOM staffs have non-concurred to Still Photographers to fill the investigator responsibilities. The combination of no official sourcing of the WI CO and teams coupled with the skill set issue must be resolved immediately to prevent a HIGH Risk gap in capability to support critical counter IED intelligence fusion efforts.

**NEXT ACTION:** MNF-I pushing JS (second time). Recommend MNC-I GO level push as well to source the requirement officially with the Airman currently in the schoolhouse and ask for JS directed immediate re-sourcing of immediate replacements for 1.4a photographers. Work with 1.4a to coordinate a short term mitigation plan. Requires SECDEF override. Pushing into 30 Nov SDOB. SECDEF overrode multiple non-concurs. All sourcing approved, on orders and deploying. USAF personnel missed LAD. Will work with 1.4a to make sure LS/RS is concluded satisfactorily. Remaining issue is obtaining replacements for photographers for this and follow-on requirements. Continue to work with MNF-I and CENTCOM on this issue.

**DISCUSSION:** IRT rapid theater turnover, rapid changes in the FM process and general inexperience in force management, joint AO level proposal is being generated to conduct training on FM processes and organizational support ICW CENTCOM FM shop. Working to identify agenda and location based on simple cost/benefit analysis. This conference will include MNF-I, MNC-I, MNSTC-I and TF 1.4a WFFs, and 18<sup>th</sup> ABN Corps primary Force Gen Reps. Proposal also includes making this training agenda theater-wide to be repeated annually at the beginning of the Force Requirements conference and exported to the WFFs of the incoming Corps prior to deployment.
