MNC-I C3 PLANS AND POLICY NOTES (#34)

As of 23 August 2007

WARPLANS:

1. TOPIC: Operations Phantom Thunder (Summer 2007 Offensive) (No Change)

DISCUSSION: On 15 June 2007 MNC-I reached its peak combat strength with the final plus-up BDE (2/3 HBCT) and 3 CAB achieving full operational capability in MND-C and the 13th MEU beginning operations in AO Anaheim in North Eastern MNF-W. MNC-I has increased the scope and intensity of offensive operations to take the fight to the enemy. Operations Arrowhead Ripper in Baqubah, Operation Marne Torch in Arab Jabour, Operation Hardh Al-Amin in the Lake Thar Thar region and Operations Dragon Fire and Gates of Freedom in the Rashid and Mansour Security Districts respectively have already made significant strides in securing the Iraqi populace and reducing AQI and Shia extremists freedom of movement.

MNC-I remains on the offensive with MND-B conducting Operations Dragon Hammer and Dragon Anvil clearing and defeating AQIZ in Rashid and Arab Jabour and Operation Iron Blitz to clearing West of Taji. MND-N will continue to attack AQI in the Diyala River Valley with the continuation of Operation Arrowhead Ripper, and prevent them from gaining sanctuary elsewhere by defeating AQI in the Kirkuk/Tuz area as part of Operation Bronco Ripper. MND-C continues to clear the Southern Baghdad Belts with Operations Avalanche, Operation Husky, and Operation Marne Torch II. MNF-W continues to clear remaining AQI elements in MNF-W with Operation Black Diamond in Karmah, and Operation Pegasus Bridge along their Eastern Boundary, and prepares Fallujah for IP control with Operation Alljah.

While the focus of plus-up forces is Baghdad and the Baghdad belts. MNC-I continues to apply pressure on insurgent networks across the breadth of the country. While Baghdad remains the Corps' main effort, Baqubah and the Diyala River Valley are currently the Corps' top priorities for corps assets followed by the Arab Jabour region of MND-C. While focusing on protecting the Iraqi population MNC-I will expand operations to deny the enemy freedom of movement and sanctuary in areas CF has traditionally had minimal presence while maintaining forces to foster further improvement in those areas that are showing initial signs of success.

2. TOPIC: MNC-I Shia Engagement Strategy (Update)

DISCUSSION: Plans was tasked to develop a mission analysis pursuant to developing a comprehensive Shia engagement strategy that encompasses the spectrum of Shia entities: militias, irreconcilables, as well as those favorable to CF/ GOI. This will provide clarity for MSCs in their lethal and nonlethal engagement with the Shia nested within an integrated Corps strategy.

NEXT ACTION: Mission received from CG 06 Aug 07; Mission Analysis briefed to CG & additional planning guidance received 16 Aug; COA Development OPTs continue 20-21 Aug 07.

3. TOPIC: Operation Phantom Strike (Disrupting an AQI Surge) (Update)

DISCUSSION: AQI is expected to attempt a surge in activities during the latter half of August and the first half of September as part of a historical pattern associated with Ramadan, and as an attempt to influence CF governments and publics in advance of GEN Petraeus's September Assessment to Congress.

MNC-I conducts focused operations to disrupt or prevent AQI from carrying out planned attacks. The term "Phantom Strike" which previously referred specifically to MNC-I operations against networks emplacing deep buried IEDs, has been expanded to an umbrella term for all operations which disrupt AQI and **JAM Special Group's** ability to conduct operations from 15 August to 15 September. **While Clear, Contain, and Control efforts continue, Phantom Strike is characterized by an increase of raids and other short term operations designed to disrupt extremist networks during this critical timeframe.** Operations may target AQI or JAM SG IED networks, Sanctuary/Staging Areas, HVIs, or other targets which will disrupt AQI/JAM SG's ability to increase their level of attacks prior to Ramadan.

MSCs briefed their concepts for Phantom Strike to the MNC-I Commander on 3 August during the Commander's conference. MNC-I will prioritize Corps level enabler support to these operations, and assist in coordinating operations across or adjacent to MSC boundaries.

WAY AHEAD: C3 FUOPS coordinates with the MSCs to synchronize the timing and assist in any required boundary changes for Phantom Strike Objectives which cross or are adjacent to MSC boundaries.

POC: [redacted] (b)(3), (b)(6)

4. TOPIC: Operation Phantom Hammer (Clear Diwaniya) (Update)

DISCUSSION: Operation PHANTOM HAMMER is a four-phased operation designed to regain control of Diwaniya from insurgent elements. During Phase I, MNC-I prepares a CONPLAN to deploy sufficient forces to Temporary Area of Operations Thunderbird IVO Diwaniyah to conduct clearing operations to reestablish ISF control of the city and enhance security within the MND-CS operational environment. Tentatively, the forces to be employed in this operation include the equivalent of one Polish Battalion, one US Infantry Battalion, two IA Battalions from 8IA DIV, and corps enablers. Phase II, set the conditions, will consist of increasing situational awareness through intelligence build-up. Phase III, decisive operations, will begin when commander MNC-I directs execution of plan, and will clear Diwaniya north of the Hilla River. Phase IV, secure Diwaniya, returns control of Diwaniya to legitimate authorities. BPT execute Phase III, Stage A NET 22 September 2007.

WAY AHEAD: **PLANORD ready for release when C3 deems conditions are set. Operation is BPT; will take place when conditions are set.**

6. TOPIC: Request to GOI to employ 34th BDE (Peshmerga) ISO MND-N ops (No Change)

DISCUSSION: CG MNF-I's letter to the PM Gol requesting formal GOI-KRG approval to employ the 34th BDE in support of MND-N operations in vicinity of the Diyala River Valley (DRV) has been submitted. The concept for 34th BDE is to conduct limited operations, under command of 5IA Div, from four (4) battalion-sized operating bases to the north of the DRV. These forces will augment and capitalize on recent MNC-I achievements.

NEXT ACTION: Awaiting response from Gol.

POC:

7. TOPIC: Establishment of Judicial Complexes (No Change)

DISCUSSION:

- During the conduct of the MNC-I OPORD 07-01 Brief, the CG MNC-I directed the MNC-I SJA to assume responsibility for the establishment of safe, secure judicial complexes throughout Iraq, modeled after the Rule of Law Complex in the Rusafa District of Baghdad. Additionally, the CG MNC-I provided guidance to establish the first site in the city of Ramadi. Initial planning began with the development of a Concept Brief, which was briefed to the MNC-I C3. Upon briefing the C3, the MNC-I SJA section published WARNO 008 to provide notice to the major subordinate commands about this initiative and to assemble the Corps Judicial Complex Working Group (JCWG). Members of the JCWG include representatives from the Corps SJA, C4, C6, C7, C8, C9, and AT-FP sections as well as a representative from the Joint Contracting Command.

- On 12 Aug, the SJA Rule of Law attorney accompanied a group consisting of DoS, GRD, LAOTF, and MNF-I personnel to Ramadi to visit proposed sites for the Ramadi Judicial Complex. The short-term solution, approved by Chief Judge Medhat of the Higher Juridical Council, is to renovate the Ramadi Government Center to house Anbar Criminal Court (ACC) #18. That way, the ACC can begin trying terrorism cases arising within Anbar Province. The long-term solution is to locate a Judicial Complex on FOB Blue Diamond.

NEXT ACTION: The next JCWG meeting is scheduled for Sunday, 18 Aug @ 1600 in the SJA Conference Room

KEY DATES:

18 August – JCWG Meeting

8. TOPIC: Joint Campaign Plan (JCP) 07 Review (No Change)

DISCUSSION: Leading an extended MNC-I staff planning reviewing of the final, signed MNF-I Joint Campaign Plan (JCP) 2007. Point papers (written for previous versions of the JCP) are being updated to reflect issues with the final edition.

NEXT ACTION: Forward compiled point papers for CG review.

KEY DATES: Finished papers compiled and to CG 23 Aug.

9. TOPIC: Elections (Update) -- **ELECTION NOTES ARE UNCLASSIFIED** --

DISCUSSION: On 21 August, [redacted] (b)(6) advisor to the Independent High Electoral Commission of Iraq (IHEC) gave a briefing on lessons learned from the 2005 electoral process in Iraq. Topics included command and control, security, logistics, communications, and areas of special interest. Notes are still being compiled and will be posted, along with slides from the presentation, on the MNC-I NPR site, C3,

[redacted] (b)(3), (b)(6) **ELECTIONS.** They will also be posted on the MNC-I Elections web portal, managed by [redacted] (b)(6)

On 26 June 2007, the Elections Working Group reviewed the following items:

Provincial Powers Law: This legislation has not progressed beyond the second reading. USM-I believes that there are two different drafts of this legislation, implying that it still being discussed in committee. This legislation is not required prior to provincial elections.

Elections Law: This legislation has not been drafted and is needed prior to Provincial Elections. It will provide the legal framework for Provincial Elections in Iraq. There has been a suggestion that the 2005 Elections Law will be redrafted; USM-I cannot confirm at this time. USM-I is pushing for the Elections Law to be passed by the Council of Representatives by 15 September 2007.

IHEC received training on scope of duties by UNAMI and the Indian Electoral Commission over the past two weeks. The next step for the IHEC is to confirm the heads of the 19 Governmental Electoral Offices (GEO) (one per province and two in Baghdad). The process for this is that each Governor submits 5 candidates for the post of Director in their Province, and the IHEC will choose the most qualified candidate. Following the selection of the Directors of the 19 GEO, the IHEC will begin to set the conditions for voter registration. Voter registration will be covered in future Elections updates.

Provincial elections cannot proceed until all related legislation is resolved, making elections unlikely before February 2008. Provincial elections have the potential to pull more Sunnis into the political process and improve governance in some provinces, such as Anbar, Diyala, Salah ad Din, and Ninewa. When the elections occur, it is likely that politically organized Sunni Arabs and Sadrists, neither of whom participated in the last round of provincial elections, are positioned to make significant gains, however, Sunni

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

insurgents who oppose elections will likely intimidate neutral or pro-GOI Sunnis from going to the polls. Elections by themselves will not reduce violence; the critical factor in the reduction of sectarian violence continues to be improving the security conditions for the citizens of Iraq.

Presently, sub-provincial elections cannot legally occur; if sub-provincial elections are held, perhaps in a city or a district, the "elected officials" would have no legal status and control neither levers of legitimate power nor a legal financial stream. The concept of a "tribal council", whereby leaders of several tribes might come together to form an informal council, is encouraged as a stabilizing force to augment and support the efforts of the Provincial Governors and the legitimate Provincial Council, as long as it does not attempt to usurp or wrest legitimate power away from the Provincial Governor.

A copy of the Provincial Powers draft legislation posted on the C3 plans and policy NIPR homepage, under (b)(3), (b)(6) ELECTIONS.

10. TOPIC: Major Cultural / Religious Events (Update)

DISCUSSION:

1 Ramadan 1428 or 13 Sep 2007: Beginning of the month of fasting
Ramadan is the time of the lunar year when Muslims actively practice fasting during the daylight hours. Fasting is one of the 5 pillars of Islam (the others are praying 5 times a day, partaking in the Hajj (holy pilgrimage), giving alms to the poor, and declaring that Allah is the one true God and that Muhammad is his prophet). The period just preceding Ramadan tends to have more enemy activity, and the time of Ramadan generally has less activity during the day, since Muslims are not supposed to eat or drink. It is said that any Muslim who is martyred (killed) during Ramadan is assured to go to heaven, so anticipate a greater than usual amount of activity in the hours of darkness. Several times in the month of Ramadan there are days of particular importance: The first four important days are called the "Nights of Glory and Power"; Muslims don't know exactly which day the Quran was revealed to Muhammad, but they believe it was one of the odd numbered days in the last third of Ramadan. This year they fall on 2, 4, 6, 8, and 10 October 2007. On this day, every act that man does is magnified a thousand-fold. So, to be sure they celebrate the right day, most Muslims pray all night long on each of those nights. After the month of fasting is complete, Muslims celebrate what is known as "Eid al Fitr" or the "festival of breaking the fast". During this time, Muslims wear their best clothing and cover their houses in the finest decorations to celebrate breaking their month-long daylight fast.

The following lists the months of the Lunar Calendar for 1428-9 (2007-8):

<u>Lunar Month</u>	<u>Meaning</u>	<u>Gregorian Month</u>
1 Shaban 1428	To Distribute	14 August 2007
1 Ramadan 1428	Parched Thirst	13 September 2007

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

1 Shawwal 1428	Vigorous	13 October 2007
1 DHUAL QADA 1428	Month of Rest	11 November 2007
1 DHUAL HAJJ 1428	Month of Hajj	11 December 2007
1 MUHARRAM 1429	Forbidden	10 January 2008
1 Safar 1429	Empty	9 February 2008
1 Rabi I 1429	First Spring	9 March 2008
1 Rabi II 1429	Second Spring	8 April 2008
1 Jumada I 1429	First Freeze	8 May 2008
1 Jumada II 1429	Second Freeze	7 June 2008
1 RAJAB 1429	To Respect	7 July 2008

* Muhammad decreed the 4 months in **GOTHIC TEXT** as holy months. During holy months, it is forbidden for good Muslims to wage war or fight.

POTENTIAL IMPACTS: Moderate threat; large crowds may entice insurgents to attempt a high-profile attack.

WAY AHEAD: Presented Ramadan briefing to LTG Odierno on 16 August 2007. MNC-I Ramadan FRAGO finished staffing 19 August 2007; will be released to MNC-I on 22 August 2007.

12. TOPIC: Base Consolidation and Closure (No Change)

DISCUSSION: in the ongoing efforts to turn over battle space to the ISF, MSC closes or transfers bases to a GOI approved receiver (MOD, MOI, MOF) under a "condition based" approach. Base transfer / closures is a conditions based approach driven by three major considerations: stability in the AO, ISF ability/capability to assume & hold battle space, and funding for base consolidation. The current methodology is bottom-up driven with MSC nominating bases for transfer / closure, gaining approval, and following a 100 day notional timeline, which serves as a guide to accomplish necessary steps in the transfer / closure process.

Next Action: All base transfers/closure nominations have to be approved by CG. No further action required for 3ID CAB at Stryker, and GEO BDE + BNs at Camp Delta and 2/3 HBCT (Brigade #20) at LSAA, Taji, Liberty, Falcon, and Kalsu.

Future Actions: IZ Transition is back on the table which entails the consolidation of MNF-I presence in the IZ from 13 to 3 locations; with two being MND-B bases (Union III and Prosperity). The transition also requires the transfer of Base Union I (Oct08), Freedom Rest (Jul08), the relocation of CSH to VBC (Sep08) and the relocation of GRD to VBC (June08). As part of the consolidation, MND-B will have to relocate from Union III NLT Jan 08 and transfer the base to JASG, which begins construction and renovations to relocate MNF-I FWD by Oct 08. MND-B is currently assessing capacity at Prosperity to absorb forces from Union III. The Executive Base Management Board with COS has been suspended until further notice. Base Working Group meetings are conducted twice a month. As part of future basing plans, we are conducting analysis of current capacity at long term COB IOT build required additional capacity to support RIP/TOA and consolidation efforts.

13. TOPIC: IA Legal Advisor Partnership Program (IALAPP) (No Change)

DISCUSSION: The MNC-I OSJA IALAPP stated priorities are: (1) Oversee IGFC Legal Advisor training; (2) Provide assistance in implementation of revised IA military justice system; (3) Encourage centralized IGFC Detainee procedures and policies; and (4) Coordinate providing equipment, materials, and training to increase effectiveness of IA legal advisors.

NEXT ACTION: Ongoing projects include:

- Continue training on IA ROE including an information paper, PowerPoint training slides, and ROE Cards;
- Working with MNSTC-I on formulating proper Detainee SOPs and policies;
- Currently working on agreements with DOJ, DOS, and GOI for all future Judicial Review Teams of investigative judges in MND-B, MND-N, and MNF-W, and working on internal MNC-I SOP for conducting the operations;
- Tracking status of IA military justice procedures that are awaiting publication so that the system can be fully implemented;
- BG Adnan Hamudi, IGFC Legal Advisor, as well as [redacted] (b)(6) IGFC Deputy Legal Advisor, now meeting on a biweekly basis with MNC-I OSJA IALAPP attorney;
- BG Adnan planning Legal Advisor Training in anticipation of publication of IA Military Justice System procedures; requested IALAPP attorney make presentation at the training.

1. TOPIC: IA Future FAQ Rotations (No Change)

DISCUSSION: C3 Plans requested C3 ISF prepare a presentation on the facts, assumptions, constraints and risks used to forecast which IA units are available to deploy in support of Baghdad Security Operations. Briefed C3 10 JUN, Options 2 & 4 preferred. MG Berragan concurred, but believes that 3 DIV HQ in Baghdad requires further analysis. Hard copy of slides passed to BG Wolff, MNSTC-I, on 11 JUN. FUOPS currently working COA for replacement of 4th rotation with permanent IA units. 3/3/2 and 3/2/2 were told by IGFC that they will extend. No written order yet. MND-B prefers that the units rotate. Units scheduled to replace them are ORA 4.

NEXT ACTION: Continue to track

2. TOPIC: IP Expansion Plan (New)

DISCUSSION: Training for the Abu Ghraib IP candidates shifted to Monday the 27th to begin their 4 week training program. Difficulties with FOB India prompted the shift. The main difficulty was an IA compound for the training. The life support for the recruits is being worked to include a food contract, sanitation contract fuel, electricity, bedding and sun shades. The use of FOB India increased the amount of candidates which can be trained at one time from 500 to 1000. This will allow the district to increase the police numbers in the district from 450 to 1738 in a 4 week period. The additional IPs will be used at existing stations, COPs and JSSs, while additional stations are built for the police by MNSTC-I

NEXT ACTION: MG Barrigan, BG Campbell and BG Abdullah of IGFC will travel to FOB India to ensure the use of the grounds for the IPs.

KEY DATES: 23 AUG, accountability formation of 1000 recruits at FOB India
26 Aug, report for training at FOB India
27 Aug, Training commences at FOB India

POC: (b)(3), (b)(6)

3. TOPIC: 11 IA HQ Force Generation and Deployment for FAQ (Update)

DISCUSSION: 11 IA is a PMI unit currently undergoing force generation at Old MOD. 18 AUG, MNC-I planning meeting was conducted to provide LTG Abud a draft concept brief that his staff can further develop into workable COAs with the help, as required, from BOCAT/MND-B. The concept needs to be a time phased / conditions based approach. The arrival of soldiers for the 3/11th IA BDE is beginning now, plan to base at FOB Hope. Recommendation is that rotational units will be back filled by the following units: 4/1 IA BDE (propose re-flag as 2/11 IA BDE), 3/11th IA BDE (Force Generation), and X/6 IA BDE). Determination of real FOC will be based on CF assessments (ORA) with great input from ISF. We recommend that MOD approves re-flagging 4/1 IA BDE to 2/11 IA BDE NLT SEP07, and that 3/4/1 IA BN relocates to Baghdad and relieves 3/1/3 IA BN.

NEXT ACTION: 22 AUG07- LTG Abud/Staff provide guidance at the Baghdad Plans and OPS meeting.

KEY DATES:

1 OCT 07 FOC

POC: (b)(3), (b)(6)

4. TOPIC: Al Askariyah Brigade and 6-2 NP BDE (Update)

DISCUSSION: 1 AA BN is partnered with 6/2 (-) NP BDE in Samarra under command of the SOC. 6/2 and AA NP appear in high spirits, display an Iraqi level of proactiveness, and maintain an obvious presence. Operations are coordinated over unsecured single channel Motorola hand held radios. Operations consist of static checkpoints, small intelligence driven actions, and repairs to an unobserved blocking obstacle (berm) along the parameter of the city. SOC senior staff and NP BDE commanders believe three brigades are required for security and consider 6/2 remaining as a COA. MG Rashid's deputy reported the SOC consists of six senior staff

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

officers and a conference room. CPATT LNO reported SOC radio base station is operational and in contact with IGFC. GOI support for Samarra operations is significantly lacking. C3 ISF requests CPATT report of GOI's ISF support of Samarra. MoI and MoD fails to place urgency for support. IAG will analyze the SOC's need for an operations advisory team. NPTTs assigned to AA and 6-2 BDEs stated the urgent need for a Backscatter to inspect large trucks entering the Mosque reconstruction site, and a VSAT is required for secure digital communication.

NEXT ACTIONS: Coordinate Backscatter and VSAT requisitions with IAG and MNCI Staff. Request and review GOI support from MNFI/MNSTCI.

KEY DATES:

2nd AA BN arrives Samarra not earlier than (NET) 15 September

3rd AA BN arrives NET 15 October

POC: (b)(3), (b)(6)

5. TOPIC: National Police (Update)

DISCUSSION: PM Maliki and MG Hussein (NP Commander) reportedly abolished initiatives of four specialty 'Unity' battalions; this is no longer true. PM Maliki directed the battalions continue training and assume Shia protection security mission. PM Maliki authorized two more special mission battalions to guard the Basrah palace. Both battalions are manned with trained NPs. MoI formally requested CPATT provide the equipment. LTG Dubik authorized a limited support. The battalions are as follows:

-Unity BN (935 on hand) secures Shia pilgrimage route between Baghdad and Karbala. Basic recruit training is ongoing.

-Seyafeah BN (750 Authorized) secures Shia pilgrimage route between Baghdad and Kut. Basic recruit training is ongoing.

-Al Hurriyah City Personal Security Detachment (700 authorized) provides security of Shia holy sites. Basic recruit training is ongoing.

-Karbala Province Emergency BN. (750-unconfirmed) Mission undisclosed.

-Basrah Palace Protection Battalions (two-350 man battalions)

NEXT ACTION: Continue to monitor and report.

7. TOPIC: Build POE Capability - Border Strategy, Security and Interdiction – (No Change)

DISCUSSION: Current MNF-I planning efforts for key land POEs include building POE capability. As part of this effort the Corps will push an initial 4 station BAT system w/ supporting VSAT and required equipment out to the Rabiya POE within the week. The purpose is to determine the feasibility & serviceability of these systems at a POE. This effort will serve to be the basis of planning for follow-on implementation of same systems out at the other major POE's. Efforts continue on finalizing setup of all equipment and determining adequate requirements for power / use of key personnel on the POE. Additionally MNF-I began an OPT early May to develop an action plan on interdicting the flow of foreign fighters movement and infiltration inside Iraq which entails a focused, synchronized CF and DBE operation. The goal is to reduce the capabilities of AQI and extremists that destabilize Baghdad. Current MOD1 to MNF Frago - Interdiction of FF & F is out for staffing and under review by Corps Staff.

NEXT ACTION:

-Continue Corps planning efforts to building POE capability

8. TOPIC: Seaport Security - (No Change)

DISCUSSION: MNF -I planning efforts for seaports began 29 Mar and included Maritime Strategy development, security planning on seaports. Recent seaport conference at MNF-I, 24-25 Jul 07, identified significant gaps in coastal security coverage, both procedural and physical; it transpires that a 10km stretch at the southern end of the Shatt Al Arab Waterway (SAA) is currently not patrolled by Iraqi Navy, CG or CTF^{1.4a}. Leaders from the Iraqi Navy, Coast Guard and CF focused on the development of a Memorandum of Understanding for combined maritime operations. GOI letter for transfer of Seaports / Airports of entry is complete. Supervision of seaports / airports are now under supervision of the MoI / DBE effective 24 Jul 07. This transfer will facilitate key planning tied to current efforts on seaport security and future border operations. However, this action will further increase funding and sustainment requirements for the DBE and exacerbate existing support shortfalls if the proper funding and other existing support structures were not transferred as well.

NEXT ACTION:

-Continue to monitor developments of Seaport Strategy & Memorandum of Understanding

-Track MNC-I tasks in support of the Foreign Fighters effort

-Disseminate copy of the official order / letter for sea / air port transfer and monitor related developments

KEY DATES:

- NLT 15 AUG 07 – Follow up on seaport MTG between CTF^{1.4a} Iraqi Navy and CG in order to ensure that seamless coastal security can be achieved.

9. TOPIC: DBE Leadership and C2 (No Change)

DISCUSSION: DBE appointed a new National Director, MG Ali. MG Ali will be the ninth National Director within the past 24 months responsible for subordinate POE Directors of each Region. The assignment of the new POE National Director is a step in the right direction toward progress in accountability of regional POE directors and operating standards abroad. Key responsibilities for POE Directors include supervision of POE operations and assess performance of POE staff (to include personnel from other ministries at the POE) and report violations to the DBE chain of command for action.

10. TOPIC: National Police Budget Required (No Change)

DISCUSSION: From creation in 2005, the National Police do not have a budget in any form. The NP requires an independent budget recognized by Parliament as a Directorate under Mol. The Mol budget contains no NP line items for funding or resources. MG Hussein requested an independent budget due to complete failure of Mol support. The question of successful salary funding is answered through Mol HRC filing hiring orders with the Ministry of Finance. To establish a NP budget the PM Council, Parliament, Central Ministry, and MOF must process and approve the budget based on the NP TOE. MG Hussein (NP CDR) stated he hand carried his written request for a budget line to the Minister of Interior and sent the Prime Minister a request for establishing the NP as a directorate under the Mol. NPTT HQ reports all assets, durable and expendable, are courtesy of CPATT, MNDs, and CPATT executed Foreign Military Sales (FMS) purchases.

12. TOPIC: Equipment/Logistical Support to Brigades and Battalions (No Change)

DISCUSSION: The Iraqi Army is looking into the concept of putting their own cafeterias in to feed the soldiers. These cafeterias will be operated by cooks employed by the IA. This is a concept they are looking into so that they can eliminate food service contracts. One test facility is already constructed and operating.

FMS HMMWVs are now arriving and being distributed. Those divisions who have used the Iraqi Army Code Out Procedure will receive replacements for unrepairable vehicles. Many of the divisions neglected using this process because it would diminish the amount of fuel and oil in the divisions allowance from MoO.

The IA is still having trouble finding personnel to fill mechanic positions.

Uniforms for the divisions are ready for pick up at the MoD warehouse in the IZ. The MoD does not have transportation arranged for delivery of uniforms, so the divisions will have to pick them up. The IA divisions in the north have not come to pick up uniforms yet, due to the distance of travel.

NEXT ACTION: C3 ISF LOG continues to monitor equipment status of IA units and especially those supporting FAQ.

1. TOPIC: MNC-I RFF 656 Riverine JUONS (Update)

DISCUSSION: RFF 656, released 17 Jun 06, requested Riverine capability to deny Anti-Iraqi Forces (AIF) use of the Tigris and Euphrates Rivers. JFCOM RFI dated 30 Sep 06 indicated RFF 656 not sourced due to RFF 397 (for MNF-W), directed CENTCOM to source internally. ONS submitted by MNF-I on 30 Nov 06, disapproved 8 JAN 07. Joint Capabilities Board review of JUONS had no significant results. The Riverine JUONS topic removed from Joint Coordination Board,. JFCOM developing an in-lieu-of solution and engaging the global force management process, Global Force Management Board projected for 6 Sep 07. **USJFCOM Sourcing Recommendation** is deployment of MESF (3 x Armored RHIBs) to augment RIVRON by providing dam security to relieve Riverine assets to support dedicated Riverine requirements. **MNC-I Concurred with comment that additional assets are needed but MNC-I needs the ability to disperse RIVERON forces across its area of operation..**

Coalition partners contacted to determine capabilities/feasibility of support. Current responses are all negative, two countries pending response. **MND-SE no longer conducts river patrols.**

following a 15 month tour. Their originally scheduled replacement was tasked to support the newly created MND-Center when theater was increased to a 20 BCT posture in early 2007. There are no aviation assets scheduled to support MND-B upon the departure of 1ACB in Dec 07. Other OIF aviation assets could be tasked to support MND-B, but this could result in a significant increase in un-supported air mission requests, degradation in maneuver forces' capacity for mission completion, and a reduced ability to sustain operations throughout the area of operations. To mitigate this risk, and to preserve an ability to source future aviation force requirements, this RFF requests an Aviation Task Force (AVN TF) for approximately eight months to serve as the nucleus for dedicated aviation support to MND-B. RFF reclaimed from MNF-I pending briefing to command Group. To MNF-I 4 AUG 07. Released to CENTCOM 22 AUG 07.

to support combat and construction operations in Multi-National Division Center Area of Operations. This RFF requests the validation of the Echelon Above Division (EAD) engineer assets required to support combat and construction operations in the MND-C AO. Planning assumptions during the initial support estimate for surge operations included a timeline that predicted surge operations to be complete by 1 August 2007. This assumption has not been validated, and MND-C cannot sustain combat operations without appropriate EAD engineer assets in line with doctrine and those allocated to other Multi-National Divisions. Assets assigned to the Corps Engineer Brigade are tasked at capacity, and utilization rates are not predicted to decrease in the next 12 months. To maintain the momentum and tempo of current operations, assets within the Iraqi theater cannot be reallocated to support MND-C. To MNF-I 6 AUG 07. 4. TOPIC: Request for Forces (RFF) MNC-I #145 for Exchange of Security Force (SECFOR) Battalions (Update)

DISCUSSION: MNC-I requires adjustment of SECFOR battalions to maximize deployment time and utilization of SECFOR trained units. It is MNC-I's understanding that 1-321 FA has a Warning Order (WARNORD) to deploy as a SECFOR battalion. MNC-I desires to deploy 1-321 FA to join 1/82nd ABN Theater Security Brigade (TSB), and replace 1-9 FA as part of that brigade. 1-321 FA would remain with 1/82nd ABN as part of the TSB until the TSB BOGs 8 SEP 08. This exchange of forces would allow 1-9 FA to be reattached to 2/3 Brigade Combat Team (BCT) and BOG out with 2/3 BCT and to be utilized as a full spectrum battalion. This exchange of units allows greater continuity of effort within MNC-I. A unit doing a SECFOR mission is replaced by a SECFOR trained unit. Brigade units from the 82nd Airborne Division and the 3^d Infantry Division are reunited, and these BCT units are able to redeploy to home station together. 6. TOPIC: Request for Forces MNC-I #144 For Replacement Division Headquarters for Multinational Division Center (MND-C) (No Change)

DISCUSSION: It is conceivable that MNC-I will sustain the current level of brigade combat teams through the summer of 2009. In addition to maintaining the current set of forces, Multinational Division-Center (MND-C) will assume responsibility for the current Multinational Division-Central South (MND-CS) on or about 1 MAY 08, increasing the division's geographical coverage area by at least one seventh (fourteen percent). In view of these facts, MNC-I believes it is necessary to request a replacement of the current Multinational Division-Center (MND-C) Division Headquarters, 3d Infantry Division, in order to maintain the same level of command and span of control. As the headquarters is replaced, the package of enablers for the division must also be replaced. LAD for this replacement division headquarters is 12 MAY 08. Transmitted to MNF-I 14 AUG 07.

7. TOPIC: Request for Forces MNC-I # (RFF) 146 Executive Police Advisors (No Change)

DISCUSSION: This RFF requests a total of five Executive Police Advisors to provide expertise in senior law enforcement planning, policy, and political skill. MNC-I requires the skill in law enforcement administration and political awareness that only a seasoned Executive Police Advisor can provide to the senior leadership of the Corps. This RFF requests a senior Executive Police advisor for the Multinational Corps and Multinational Division Commanders. The Corps and Division Commanders have incredible police and training skills within the Military Police leaders and staff officers of the Corps, but as military professionals may not have the breadth of knowledge that a Chief of Police, Police Superintendent, or Federal Deputy Director may possess. As the Coalition reestablishes the rule of law at all levels, these senior Executive Police Advisors will be a vital element in establishing the supervisory and national level police expertise, and the interface with political leaders. More junior police will lack the law enforcement administration experience to assist the Iraqi government at the highest levels.

Experienced senior police executives will be able to coach senior Iraqi police as well as to advise the Corps and Division Commanders. This RFF is based on a recommendation for this capability by the Center for Strategic and International Studies. To MNF-I 6 AUG 07. **Returned without action from MNF-I 13 AUG 07.**

DISCUSSION: This RFF includes: 1 X Command and Control Element, 1 X Oil Pipeline Repair Capability, 1 X Power Line Repair Capability to repair of the national infrastructure of Baghdad and Iraq. This RFF addresses the validation of the assets required to repair critical infrastructure facilitating the deliberate rebuilding of GOI capacity to provide quality of life to its citizens. Contractors have been unreliable in conducting repairs to the oil pipeline and power line infrastructure. This capability does not currently exist in theater and is a new requirement. Providing the required capability will greatly enhance Coalition Forces' efforts to build and improve GOI capacity. Focusing on essential services and sustainable economic development is inextricably linked to providing leverage in political efforts. To MNF-I 6 AUG 07. Additional personnel will enable 316th ability to plan, coordinate, and synchronize logistics support and sustainment operations across the ITO. Reduced manning based on transformation to Single Log C2 with 1st Theater Support Command (TSC) assuming portions of overall theater sustainment mission from the ESC. Timeline for 1st TSC to assume Single Log C2 is a minimum of 6 months into the 316th ESC rotation (~Jan 08). CENTCOM RFF 695 released 9 Nov 06. Sourced in 07-09 EXORD Mod 7. CENTCOM also states in EXORD that this enduring request will be sourced after 07-09 via a JMD. Since then, CCJ1 And CCJ4 have stated via e-mail that the JMD is not the correct method of sourcing this requirement and do not endorse the creation of a JMD to support this requirement. Discussed in detail with CENTCOM, JFCOM, FORSCOM 21 Aug. Seeking short and long term solution. Short term solution is either a BOG extension (which CENTCOM vetted and believes is not feasible), or seeing volunteers and plugging with CONUS units. Long term solution is mod 2 to RFF 695 which will make the requirement enduring for the next ESC. 23 Aug: JFCOM AO is also researching the possibility of changing EXORD mod 7 to remove the JMD and make the requirement enduring by disconnecting the augmentation from single log C2 which will alleviate the need to an RFF mod.

conditions support the redeployment of the current US Army forces (1/3ID and 214 Fires BDE) on their present time lines and not replacing those capabilities. Given this fact, the Commander, MNC-I requests to replace the HBCT and 214 Fires BDE with Non-Standard (N/S) brigade-level headquarters capable of (1) commanding and controlling remaining US and Coalition Forces (i.e., GRF, MEDEVAC, Fire Support, Route Clearance Teams, etc.); and (2) conducting interface with the provincial and local governments (i.e., Governor, PJCC, PDOP, IA, IP, etc.) in order to provide the political-military headquarters interface necessary to continue the enduring process of enabling civil authority.
