5. TOPIC: XVIII ABC LNO Plan (No Change)

DISCUSSION: [redacted] (b)(3), (b)(6) continues to work informal plans for XVIII ABC LNO Plan. III Corps Plan sent to [redacted] (b)(3), (b)(6) (XVIII ABC Operational Planner) as a template. He used the overall construct, modified it to meet their needs and sent forward for our unofficial review and comments 11 Sep 07. This was forwarded to [redacted] (b)(3), (b)(6) and [redacted] (b)(3), (b)(6) for comments.

KEY DATES: Non Extant.

POC: [redacted] (b)(3), (b)(6)
[redacted] (b)(3), (b)(6)

6. TOPIC: Operation Phantom Hammer (Clear Diwaniya) (No Change)

DISCUSSION: Operation PHANTOM HAMMER is a four-phased operation designed to regain control of Diwaniya from insurgent elements. During Phase I, MNC-I prepares a CONPLAN to deploy sufficient forces to Temporary Area of Operations Thunderbird IVO Diwaniyah to conduct clearing operations to reestablish ISF control of the city and enhance security within the MND-CS operational environment. Tentatively, the forces to be employed in this operation include the equivalent of one [redacted] 1.4b Battalion, one US Infantry Battalion, two IA Battalions from 8IA DIV, and corps enablers. Phase II, set the conditions, will consist of increasing situational awareness through intelligence build-up. Phase III, decisive operations, will begin when commander MNC-I directs execution of plan, and will clear Diwaniya north of the Hilla River. Phase IV, secure Diwaniya, returns control of Diwaniya to legitimate authorities. BPT execute Phase III, Stage A NET 22 September 2007. MNC-I CG visited MND-CS on 1 September; directed MG Buk to produce two briefings; first one is the MND-CS plan to RETAIN cleared terrain with Iraqi Police. This includes training IP, vetting IP with biometric means, and ensuring their willing participation in Phase III and IV of this operation. The second briefing is the MND-CS plan to create the 20 patrol bases that the IPs will RETAIN from. MNC-I C7 and MND-CS Engineers have drafted a plan for the amount of Class IV required to create these structures. 316th ESC has a plan (in conjunction with 82nd SB) to transport the Class IV to Camp Echo. MND-CS needs to take these plans and prepare a briefing that shows how many engineers are required, where the Class IV will stage, how it will get to Echo, and how it will get into Diwaniyah to build the patrol bases. This briefing must also discuss completion of JSS#2.

WAY AHEAD: PLANORD ready for release when C3 deems conditions are set. Operation is BPT; will take place when conditions are set. Friendly conditions include the completion of the current corps main effort operation, the availability of enabler support, and the preparation for Phase IV, which includes both the IP training and

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

RETAINING plan and the Class IV/patrol base construction plan. Enemy conditions have improved markedly in Diwaniyah; if the trend continues to improve, Phantom Hammer Phase III may revert to a CONOP.

POC: [REDACTED] (b)(3), (b)(6)

7. TOPIC: Transition of IA Divisions (No Change)

DISCUSSION: The transition of the ten IA Divisions (developed under the COIN force program) to Iraqi Security Forces control is 90% complete:

- 7IA TOA programmed for 01 Nov 07. MNC-I FRAGO directing 7IA TOA to IGFC published 02 Aug 07.

NEXT ACTION: Staff draft MOU and prepare battlespace management FRAGO.

POC: [REDACTED] (b)(3), (b)(6)

8. TOPIC: Base Consolidation and Closure (Update)

DISCUSSION: Base transfer / closures are a conditions based approach driven by three major considerations: stability in the AO, ISF ability/capability to assume & hold battle space, and funding for base consolidation. The current methodology is bottom-up driven with MSC nominating bases for transfer / closure and MNC-I approve closure requests and supports/monitors the MNC-I SOP base closure process. MNF-West's Camp Corregidor is approved for closure for 20-Dec-07, closure efforts in progress. MNF-West has recommended closing Combat Outpost and Blue Diamond, staffing is still at MNF-West HQ. Cedar II capabilities move to Adder is ongoing with 2-year plan, new date for Cedar II closure is Jun-09.

The MNC-I CG reviewed the Basing EXSUM and signed a letter to the MNF-I CG of the MNC-I produced Strategic Over-watch COB list (Q-West, Anaconda, Al Asad, VBC, Delta, Adder, & BAS.) This letter is going through MNF-I staffing for comment before going to the MNF-I CG; MNF-I SPA concurs with MNC-I proposal.

Next Action: The Basing OPT continues to work base closure staff planning to produce draft-ready-to-use base closure plans for every base. This produces off-the-shelf plans that 18 ABN Corps can use as the situation dictates (leveraging III Corps expertise) and raises significant issues for resolution now to produce base closure and base operations enablers in the future, (i.e. increased DRMS demilitarization capability, increased incinerators for waste destruction, scrap metal [on bases] processing and removal.)

Future Actions: IZ Transition: COA#2 is still in effect (No change) JASG-C is producing COA#3 which entails the consolidation of MNF-I presence in the IZ from 13 to 3 locations - with one being the MND-B base (Freedom Rest). The transition requires the transfer of personnel from Bases Union I & III be complete ~APR-09, the relocation of CSH to VBC (Est. transfer complete ~JUL-09) and the relocation of GRD to VBC (~OCT-09). Bases will be transferred from the owners to JASG-C; JASG-C will then hand over to an Iraqi agency when the IZ transition activities are complete.

The Basing Management Working Group meeting is conducted weekly and the Executive Base Management Board is once a month on the 1st Saturday in place of the BMWG.

Bases transferring / closing in the next:

9. TOPIC: Elections (No Change) -- **ELECTION NOTES ARE UNCLASSIFIED – DISCUSSION:**

A draft copy of the Provincial Powers Law and a draft copy of the Elections Law (Governorates, Districts, and Sub-Districts Elections Law) are both posted on [redacted] (b)(6)

[redacted] (b)(6) elections portal:

[redacted] (b)(6)

This legislation has not progressed beyond the second reading, but reviewing these draft documents gives us the opportunity to see how the PM office intends to craft the legislation. The Elections Law will provide the legal framework for Provincial Elections in Iraq. USM-I is pushing for the Elections Law to be passed by the Council of Representatives as soon as possible; Provincial Elections could occur within about 5 months of the Elections Law passing.

The next step for the IHEC is to confirm the heads of the 19 Governmental Electoral Offices (GEO) (one per province and two in Baghdad). The process for this is that each Governor submits 5 candidates for the post of Director in their Province, and the IHEC will choose the most qualified candidate.

Following the selection of the Directors of the 19 GEO, the IHEC will begin to set the conditions for voter registration. The IHEC plan is to use the Public Distribution List (used to issue food to Iraqis) as the basis for voter registration, and will augment the list with all eligible voters in each province once the law that defines voting age and criteria is passed.

Current estimation is that Voter Registration will occur no earlier than 1 December 2007 and Provincial Elections will occur no earlier than 1 March 2008.

Provincial elections have the potential to pull more Sunnis into the political process and improve governance in some provinces, such as Anbar, Diyala, Salah ad Din, and Ninewa. When the elections occur, it is likely that politically organized Sunni Arabs and Sadrists, neither of whom participated in the last round of provincial elections, are positioned to make significant gains, however, Sunni insurgents who oppose elections will likely intimidate neutral or pro-GOI Sunnis from going to the polls. Elections by themselves will not reduce violence; the critical factor in the reduction of sectarian violence continues to be improving the security conditions for the citizens of Iraq.

RECENT MEETINGS: IOWG on 14 Sep 07 at 1030 in the Phantom Conference Room discussed elections in Iraq; 18 Sep 07 MNC-I Elections OPT at Al Faw Palace (will become a weekly, standing OPT until Provincial Elections occur).

WAY AHEAD: 20 Sep 07 Elections Working Group at the Palace Compound, USM-I.

10. TOPIC: Establishment of Judicial Complexes (Update)

DISCUSSION: During the conduct of the MNC-I OPORD 07-01 Brief, the CG MNC-I directed the MNC-I SJA to assume responsibility for the establishment of safe, secure judicial complexes throughout Iraq, modeled after the Rule of Law Complex in the Rusafa District of Baghdad. Additionally, the CG MNC-I provided guidance to establish the first site in the city of Ramadi. Initial planning began with the development of a Concept Brief, which was briefed to the MNC-I C3. Upon briefing the C3, the MNC-I SJA section published WARNO 008 to provide notice to the major subordinate commands about this initiative and to assemble the Corps Judicial Complex Working Group (JCWG). Members of the JCWG include representatives from the Corps SJA, C4, C6, C7, C8, C9, and AT-FP sections as well as a representative from the Joint Contracting Command.

- On 12 Aug, the SJA Rule of Law attorney accompanied a group consisting of DoS, GRD, LAOTF, and MNF-I personnel to Ramadi to visit proposed sites for the Ramadi Judicial Complex. The short-term solution, approved by Chief Judge Medhat of the Higher Juridical Council, is to renovate the Ramadi Government Center to house Anbar Criminal Court (ACC) #18. That way, the ACC can begin trying terrorism cases arising within Anbar Province. The long-term solution is to locate a Judicial Complex on FOB Blue Diamond.

- A \$300,000 PR&C has been approved by the MNC-I CoS for a GRD Site Assessment at FOB Blue Diamond for the establishment of a Judicial Complex.

- (b)(3), (b)(6) (USMC) has been designated as the project manager for the Ramadi Judicial Complex. He met with members of the JCWG on Tuesday, 11 September to discuss what has occurred regarding the Ramadi Complex, as well as the way ahead.

KEY DATES:

NEXT ACTION: Participate in 4 BDE (UK) WARFIGHTER in Hohenfels, Germany 5-17 October 2007.

POC: (b)(3), (b)(6)

12. TOPIC: Major Cultural / Religious Events (No Change)

DISCUSSION:

1 Ramadan 1428 or 13 Sep 2007: Beginning of the month of fasting

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

Ramadan is the time of the lunar year when Muslims actively practice fasting during the daylight hours. Fasting is one of the 5 pillars of Islam (the others are praying 5 times a day, partaking in the Hajj (holy pilgrimage), giving alms to the poor, and declaring that Allah is the one true God and that Muhammad is his prophet). The period just preceding Ramadan tends to have more enemy activity, and the time of Ramadan generally has less activity during the day, since Muslims are not supposed to eat or drink. It is said that any Muslim who is martyred (killed) during Ramadan is assured to go to heaven, so anticipate a greater than usual amount of activity in the hours of darkness. Several times in the month of Ramadan there are days of particular importance: The first four important days are called the "Nights of Glory and Power"; Muslims don't know exactly which day the Quran was revealed to Muhammad, but they believe it was one of the odd numbered days in the last third of Ramadan. This year they fall on 2, 4, 6, 8, and 10 October 2007. On this day, every act that man does is magnified a thousand-fold. So, to be sure they celebrate the right day, most Muslims pray all night long on each of those nights. After the month of fasting is complete, Muslims celebrate what is known as "Eid al Fitr" or the "festival of breaking the fast". During this time, Muslims wear their best clothing and cover their houses in the finest decorations to celebrate breaking their month-long daylight fast.

The following lists the months of the Lunar Calendar for 1428-9 (2007-8):

<u>Lunar Month</u>	<u>Meaning</u>	<u>Gregorian Month</u>
1 Ramadan 1428	Parched Thirst	13 September 2007
1 Shawwal 1428	Vigorous	13 October 2007
1 DHUAL QADA 1428	Month of Rest	11 November 2007
1 DHUAL HAJJ 1428	Month of Hajj	11 December 2007
1 MUHARRAM 1429	Forbidden	10 January 2008
1 Safar 1429	Empty	9 February 2008
1 Rabi I 1429	First Spring	9 March 2008
1 Rabi II 1429	Second Spring	8 April 2008
1 Jumada I 1429	First Freeze	8 May 2008
1 Jumada II 1429	Second Freeze	7 June 2008
1 RAJAB 1429	To Respect	7 July 2008
1 Shaban 1429	To Distribute	5 August 2007

* Muhammad decreed the 4 months in **GOTHIC TEXT** as holy months. During holy months, it is forbidden for good Muslims to wage war or fight.

POTENTIAL IMPACTS: Moderate threat; large crowds may entice insurgents to attempt a high-profile attack.

WAY AHEAD: Updated Operationally Significant Religious Events Master List is complete; located on the SIPR MNC-I C3 Plans and Policy homepage under LEAD PLANNER (b)(3), (b)(6) and also under RELIGIOUS EVENTS.

2. TOPIC: Seaport Security (Update)

DISCUSSION: MNF -I planning efforts for seaports began 29 Mar and included Maritime Strategy development, security planning on seaports. Leaders from the Iraqi Navy, Coast Guard and CF focused on the development of a Memorandum of Understanding for combined maritime operations. Past seaport conference at MNF-I, 24-25 Jul 07, identified significant gaps in coastal security coverage, both procedural and physical. This gap is currently not patrolled by Iraqi Navy, CG or CTF158 and extends from the last CP on the Iraqi side of the Shatt Al Arab [29° 57'N, 048° 30'E] to the deep water mark off the entrance to the Shatt Al Arab at [29° 51'N, 048° 45'E], a distance of around 10 nautical miles (18km). The DBE Coast Guard is assessed as a well motivated force which frequently conducts offensive anti-smuggling operations however is under-resourced. Available statistics from the year included 4000 ambushes against smugglers and 7 coast guard deaths during intense fighting with smuggling gangs. Next meeting is TBD to complete development of the MOU.

1. TOPIC: MNC-I RFF 656 Riverine JUONS (Update)

DISCUSSION: RFF 656, released 17 Jun 06, requested Riverine capability. JFCOM RFI dated 30 Sep 06 indicated RFF 656 not sourced due to RFF 397 (for MNF-W), directed CENTCOM to source internally. ONS submitted by MNF-I on 30 Nov 06, disapproved 8 JAN 07. Joint Capabilities Board review of JUONS had no significant results. JFCOM developing an in-lieu-of solution and engaging the global force management process. USJFCOM Sourcing Recommendation is deployment of MESF (3 x Armored RHIBs) to augment RIVRON by providing dam security to relieve Riverine assets to support dedicated Riverine requirements. Solution removed from SDOB by Navy. Naval planning team requested by MNF-I based on CONOP request from Chief of Naval operations; Navy has identified members of the NECC and NAVCENT. CENTCOM directive is pending, NAVCENT has asked for a one week delay in tasking and execution of planning in Bahrain.

Coalition partners contacted to determine capabilities/feasibility of support. Current responses are all negative, two countries pending response. MND-SE no longer conducts river patrols, it has prepositioned equipment to allow 7 day response if Iraqi capabilities are exceeded.

Iraqi Navy Commander signed MOU, boats were identified and inspected. Six FABs are being repaired and configured by the 10th Trans Bn in Kuwait. Navy Commander has agreed to extend FAB utilization to Oct 07, MOU is in staffing.

FRAGO published in 26Jun07 DTU, specifying commercial watercraft option to MNDs utilizing OMA funds and internal assets. DA LNO has located 11 Coast Guard watercraft, first six shipped 28 Aug, two more on 10 SEP, and three on 17 SEP with

arrival 4-30 OCT. Boats will be received by 10th Trans for initial inspection and preparation.

Delay in watercraft utilization is expected based on arrival/repairs being completed as units initiate RIP/TOA, unless external personnel are provided.

RFF for Transportation Corps assets will be submitted if Joint Staff does not provide a solution. Coast Guard in theater training capability identified, coordination continues.

NEXT ACTION: Continue to research options to provide the capability. Finalize repair contracts and component delivery for FAB repair. DISCUSSION: Components of the requested AVN TF are: 1 X ATK BN; 1 X CMD AVN CO; 1 X ATS CO (-); and 1 X CAB BWF (battlefield weather flight) for approximately 608 PAX. C3 Air is refining COAs for decision on how to best implement the capabilities resident in this RFF. TF 1.4a from USARAK is the likely sourcing solution to provide the AVN BDE HQ and an ATS. TF 1.4a is conducting a PDSS scheduled now from 27 SEP 07 to 01 OCT 07. MG Simmons concurred that a single ticket express deployment through Kuwait will meet the operational requirement. 3. TOPIC: Request for Forces MNC-I #144 for Replacement Division Headquarters for Multinational Division Center (MND-C) (No Change)

DISCUSSION: It is conceivable that MNC-I will sustain the current level of brigade combat teams through the summer of 2009. In addition to maintaining the current set of forces, Multinational Division-Center (MND-C) will assume responsibility for the current Multinational Division-Central South (MND-CS) on or about 1 MAY 08, increasing the division's geographical coverage area by at least one seventh (fourteen percent). In view of these facts, MNC-I believes it is necessary to request a replacement of the current Multinational Division-Center (MND-C) Division Headquarters, 3d Infantry Division, in order to maintain the same level of command and span of control. As the headquarters is replaced, the package of enablers for the division must also be replaced. LAD for this replacement division headquarters is 12 MAY 08. Transmitted to MNF-I 14 AUG 07. 4. TOPIC: Request for Forces MNC-I # 154 Horizontal Engineer Company for MNC-B (Update)

DISCUSSION: This RFF includes: 1 X Horizontal Construction Company to support combat and construction operations in Multi-National Division Baghdad Area of Operations. This RFF requests the validation of the Echelon above Division (EAD) engineer assets required to support combat and construction operations in the MND-B AO. The Construction Support Equipment (CSE) Company sourced to OIF 05-07 and OIF 06-08 was not included in the Multi-Functional Engineer Battalion requirement (URF 9376) for OIF 07-09. Additionally, when the 642d Engineer Support Company redeploys on 11 NOV 2007, it will not be replaced. This will leave MND-B with a deficit of six horizontal platoons. Assets assigned to the Corps Engineer Brigade are tasked at capacity, and utilization rates are not predicted to decrease in the next 12 months. This RFF is submitted in accordance with a request by 4th ID prior to assuming MND-B. Transmitted to Force 9 SEP 07. **Transmitted to Force 25 SEP 07.**

DISCUSSION: This RFF includes: 2X Facility Engineer Detachments to support construction and maintenance at the Combat Support Centers (CSCs). MILCON construction and closure of CSC Cedar II. Previous work conducted by a TCN/LN electrical contract at a FOB supported by Q-West led to a CF soldier fatality. Assets assigned to the Corps Engineer Brigade are tasked to support other Contingency Operating Bases (COBs) or are being shifted to support Contingency Operating Bases. CSCs are expected to remain around for as long as the Contingency Operating Bases. Assets within the Iraqi theater cannot be reallocated to support the CSCs. 7. TOPIC: RFF 786 Mobile Public Affairs Detachment (MPAD) (Update)

DISCUSSION: An MPAD is a ^{1.4a} Soldier unit commanded by an O4 with the following capabilities: Provide print and broadcast products, operate a media operations center, advise and assist leaders and troops with procedures to support the civilian news media, and operate the Digital Video and Imagery Distribution System (DVIDS) to transmit digital products and conduct live interviews from remote locations. 3 ID deployed as an additional division headquarters to occupy and establish Multinational Division–Center (MND-C) due to span of control concerns recognized by MNC-I. Originally scheduled to backfill the 25ID as MND-N, this deployment was made on short notice and nearly four months ahead of time. The combination of these two reasons – (1) Establishing a separate and distinct division area of operations (MND-C) and (2) Deploying earlier than originally scheduled – prevented 3ID from requesting an MPAD capacity in a timely manner. MNC-I has attempted to mitigate the shortage; however 3ID needs a dedicated MPAD capability. Transmitted to JS from CENTCOM 10 AUG 07. **In 27 SEP SECDEF Orders Book.**

8. TOPIC: Request for Forces (RFF) MNC-I #145 for Exchange of Security Force (SECFOR) Battalions (Final Entry)

DISCUSSION: MNC-I requires adjustment of SECFOR battalions to maximize deployment time and utilization of SECFOR trained units. It is MNC-I's understanding that 1-321 FA has a Warning Order (WARNORD) to deploy as a SECFOR battalion. MNC-I desires to deploy 1-321 FA to join 1/82nd ABN Theater Security Brigade (TSB), and replace 1-9 FA as part of that brigade. 1-321 FA would remain with 1/82nd ABN as part of the TSB until the TSB BOGs 8 SEP 08. This exchange of forces would allow 1-9 FA to be reattached to 2/3 Brigade Combat Team (BCT) and BOG out with 2/3 BCT and to be utilized as a full spectrum battalion. This exchange of units allows greater continuity of effort within MNC-I. A unit doing a SECFOR mission is replaced by a SECFOR trained unit. Brigade units from the 82nd Airborne Division and the 3^d Infantry Division are reunited, and these BCT units are able to redeploy to home station together. To MNF-I 7 AUG 07. Single Log C2 with 1st Theater Support Command (TSC) assuming portions of overall theater sustainment mission from the ESC. Timeline for 1st TSC to assume Single Log C2 is a minimum of 6 months into the 316th ESC rotation (~Jan 08). CENTCOM RFF 695 released 9 Nov 06. Sourced in 07-09 EXORD Mod 7. CENTCOM also states in EXORD that this enduring request will be sourced after 07-09 via a JMD. Since then, CCJ1 And CCJ4 have stated via e-mail that the JMD is not the correct method of sourcing this requirement and do not endorse the creation of a JMD to support this requirement. Discussed in detail with CENTCOM, JFCOM, and FORSCOM 21 Aug. Seeking short and long term solution. Short term solution is either a BOG extension (which CENTCOM vetted and believes is not feasible), or seeing volunteers and plugging with CONUS units. Long term solution is mod 2 to RFF 695 which will make the requirement enduring for the next ESC. 23 Aug: JFCOM AO is also researching the possibility of changing EXORD mod 7 to remove the JMD and make the requirement enduring by disconnecting the augmentation from single log C2 which will alleviate the need to an RFF mod. Formal message at CENTCOM and ARCENT FFA. JFCOM has stated via email that RFF 695 mod 2 will need to come forward to change the EXORD wording and to make the augmentation enduring and distinct from Single Log C2.

DISCUSSION: During OIF rotation 06-08 MNC-I has 11 Optometrists that provide daily care to the 133,000 U.S. personnel. For OIF rotation 07-09 this will be down to 2 Optometrists to provide daily care to all U.S. personnel. The Sustainment Brigades currently in Iraq have organic Optometry teams. The Sustainment Brigades due in OIF 07-09 have undergone transformation and no longer have Optometry Teams. This RFF is a one-for-one replacement of the capability lost due to transformation. ~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

conditions support the redeployment of the current US Army forces (1/3ID and 214 Fires BDE) on their present time lines and not replacing those capabilities. Given this fact, the Commander, MNC-I requests to replace the HBCT and 214 Fires BDE with Non-Standard (N/S) brigade-level headquarters capable of (1) commanding and controlling remaining US and Coalition Forces and Civil-Military Operations Teams (i.e., QRF, MEDEVAC, Fire Support, Route Clearance Teams, PRTs, etc.); and (2) Conducting interface with local governments and the Iraqi Security Forces in order to provide the political-military headquarters interface necessary to continue the enduring process of enabling civil authority. 20. TOPIC: Request for Forces MNC-I # 153 Information Operations (No Change)

DISCUSSION: US adversaries operate on the internet with near-impunity, using it to recruit new members, spread extremist ideology and propaganda, and disseminate command and control messaging. Recent authorities grant DOD greater opportunity to contest the free use of the internet by Anti-Iraqi Forces (AIF). MNC-I is developing three capabilities to execute CNO and PSYOP based on those new authorities. MNC-I needs CNO capabilities to understand adversary use of the internet, develop targets, and make appropriate target nominations that reflect MNC-I requirements. MNC-I also needs the capability to counter extremist propaganda and messaging on the internet by providing an alternative voice and message. This is accomplished by using PSYOP to influence specified target audiences (TA) by reaching out to TA on existing websites, blog forums, etc. It is also accomplished by constructing and maintaining an alternative website to counter extremist propaganda and provide objective information to TA. MNC-I is not staffed with the required subject matter experts to address these requirements. Transmitted to MNF-I 30 AUG 07. Transmitted to CENTCOM 11 SEP 07.

This RFF requests the validation of the Echelon Above Division (EAD) engineer assets required to support combat operations in the MND-C AO. Planning assumptions during the initial support estimate for surge operations included a timeline that predicted surge operations to be complete by 1 August 2007. This assumption has not been validated, and MND-C cannot sustain combat operations without appropriate EAD engineer assets in line with doctrine and those allocated to other Multi-National Divisions.
