5. TOPIC: Operation Phantom Hammer (Clear Diwaniya) (No Change)

DISCUSSION: Operation PHANTOM HAMMER is a four-phased operation designed to regain control of Diwaniya from insurgent elements. During Phase I, MNC-I prepares a CONPLAN to deploy sufficient forces to Temporary Area of Operations Thunderbird IVO Diwaniyah to conduct clearing operations to reestablish ISF control of the city and enhance security within the MND-CS operational environment. Tentatively, the forces to be employed in this operation include the equivalent of one Polish Battalion, one US Infantry Battalion, two IA Battalions from 8IA DIV, and corps enablers. Phase II, set the conditions, will consist of increasing situational awareness through intelligence build-up. Phase III, decisive operations, will begin when commander MNC-I directs execution of plan, and will clear Diwaniya north of the Hilla River. Phase IV, secure Diwaniya, returns control of Diwaniya to legitimate authorities. BPT execute Phase III, Stage A NET 22 September 2007. MNC-I CG visited MND-CS on 1 September; directed MG Buk to produce two briefings; first one is the MND-CS plan to RETAIN cleared terrain with Iraqi Police. This includes training IP, vetting IP with biometric means, and ensuring their willing participation in Phase III and IV of this operation. The second briefing is the MND-CS plan to create the 20 patrol bases that the IPs will RETAIN from. MNC-I C7 and MND-CS Engineers have drafted a plan for the amount of Class IV required to create these structures. 316th ESC has a plan (in conjunction with 82nd SB) to transport the Class IV to Camp Echo. MND-CS needs to take these plans and prepare a briefing that shows how many engineers are required, where the Class IV will stage, how it will get to Echo, and how it will get into Diwaniyah to build the patrol bases. This briefing must also discuss completion of JSS#2.

WAY AHEAD: PLANORD ready for release when C3 deems conditions are set. Operation is BPT; will take place when conditions are set. Friendly conditions include the completion of the current corps main effort operation, the availability of enabler support, and the preparation for Phase IV, which includes both the IP training and RETAINING plan and the Class IV/patrol base construction plan. Enemy conditions have improved markedly in Diwaniyah; if the trend continues to improve, Phantom Hammer Phase III may revert to a CONOP.

POC: [redacted] (b)(3), (b)(6)

6. TOPIC: Transition of IA Divisions (No Change)

DISCUSSION: The transition of the ten IA Divisions (developed under the COIN force program) to Iraqi Security Forces control is 90% complete:

- 7IA TOA programmed for 01 Nov 07. MNC-I FRAGO directing 7IA TOA to IGFC published 02 Aug 07.

NEXT ACTION: Staff draft MOU and prepare battlespace management FRAGO.

POC: [redacted] (b)(3), (b)(6)

7. TOPIC: Conducting significant operations against EFP and Advanced Weapon Networks (No Change)

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

DISCUSSION: Following Commander's guidance, planning is in progress to conduct strike operations against the networks responsible for the ingress, distribution and use of EFPs and Advanced Weapons against CF within Iraq. A mission analysis was prepared to seek further guidance from the Commander.

NEXT ACTION: Brief initial mission analysis to the CG and request guidance.

POC: [redacted] (b)(3), (b)(6)

8. TOPIC: Elections (Update) -- **ELECTION NOTES ARE UNCLASSIFIED – DISCUSSION:**

A draft copy of the Provincial Powers Law and a draft copy of the Elections Law (Governorates, Districts, and Sub-Districts Elections Law) are both posted on [redacted] (b)(6) [redacted] (b)(6) elections portal:

[redacted] (b)(6)

This legislation has not progressed beyond the second reading, but reviewing these draft documents gives us the opportunity to see how the PM office intends to craft the legislation. The Elections Law will provide the legal framework for Provincial Elections in Iraq. USM-I is pushing for the Elections Law to be passed by the Council of Representatives as soon as possible; Provincial Elections could occur within about 5 months of the Elections Law passing.

The next step for the IHEC is to confirm the heads of the 19 Governmental Electoral Offices (GEO) (one per province and two in Baghdad). The process for this is that each Governor submits 5 candidates for the post of Director in their Province, and the IHEC will choose the most qualified candidate.

Following the selection of the Directors of the 19 GEO, the IHEC will begin to set the conditions for voter registration. The IHEC plan is to use the Public Distribution List (used to issue food to Iraqis) as the basis for voter registration, and will augment the list with all eligible voters in each province once the law that defines voting age and criteria is passed.

Current estimation is that Voter Registration will occur no earlier than 1 December 2007 and Provincial Elections will occur no earlier than 1 March 2008.

Provincial elections have the potential to pull more Sunnis into the political process and improve governance in some provinces, such as Anbar, Diyala, Salah ad Din, and Ninewa. When the elections occur, it is likely that politically organized Sunni Arabs and Sadrists, neither of whom participated in the last round of provincial elections, are positioned to make significant gains, however, Sunni insurgents who oppose elections will likely intimidate neutral or pro-GOI Sunnis from going to the polls. Elections by themselves will not reduce violence; the critical factor in the reduction of sectarian violence continues to be improving the security conditions for the citizens of Iraq.

RECENT MEETINGS: IOWG on 14 Sep 07 at 1030 in the Phantom Conference Room discussed elections in Iraq; 18 Sep 07 MNC-I Elections OPT at Al Faw Palace (will become a weekly, standing OPT until Provincial Elections occur).

WAY AHEAD: 20 Sep 07 Elections Working Group at the Palace Compound, USM-I.

POC: [REDACTED] (b)(3), (b)(6)

9. TOPIC: Establishment of Judicial Complexes (No Change)

DISCUSSION: During the conduct of the MNC-I OPOD 07-01 Brief, the CG MNC-I directed the MNC-I SJA to assume responsibility for the establishment of safe, secure judicial complexes throughout Iraq, modeled after the Rule of Law Complex in the Rusafa District of Baghdad. Additionally, the CG MNC-I provided guidance to establish the first site in the city of Ramadi. Initial planning began with the development of a Concept Brief, which was briefed to the MNC-I C3. Upon briefing the C3, the MNC-I SJA section published WARNO 008 to provide notice to the major subordinate commands about this initiative and to assemble the Corps Judicial Complex Working Group (JCWG). Members of the JCWG include representatives from the Corps SJA, C4, C6, C7, C8, C9, and AT-FP sections as well as a representative from the Joint Contracting Command.

- On 12 Aug, the SJA Rule of Law attorney accompanied a group consisting of DoS, GRD, LAOTF, and MNF-I personnel to Ramadi to visit proposed sites for the Ramadi Judicial Complex. The short-term solution, approved by Chief Judge Medhat of the Higher Juridical Council, is to renovate the Ramadi Government Center to house Anbar Criminal Court (ACC) #18. That way, the ACC can begin trying terrorism cases arising within Anbar Province. The long-term solution is to locate a Judicial Complex on FOB Blue Diamond.

- A \$300,00 PR&C has been approved by the MNC-I CoS for a GRD Site Assessment at FOB Blue Diamond for the establishment of a Judicial Complex.

NEXT ACTION: There will be a VOIP teleconference between MNF-I, MNC-I, GRD, and MNF-W on Thursday, 6 Sep @ 1930. The next JCWG meeting is scheduled for Sunday, 9 Sep @ 1600 in the SJA Conference Room

[REDACTED] (b)(3), (b)(6) (USMC) has been designated as the project manager for the Ramadi Judicial Complex. He met with members of the JCWG on Tuesday, 11 September to discuss what has occurred regarding the Ramadi Complex, as well as the way ahead.

11. TOPIC: Major Cultural / Religious Events (No Change)

DISCUSSION:

1 Ramadan 1428 or 13 Sep 2007: Beginning of the month of fasting

Ramadan is the time of the lunar year when Muslims actively practice fasting during the daylight hours. Fasting is one of the 5 pillars of Islam (the others are praying 5 times a day, partaking in the Hajj (holy pilgrimage), giving alms to the poor, and declaring that Allah is the one true God and that Muhammad is his prophet). The period just preceding Ramadan tends to have more enemy activity, and the time of Ramadan generally has less activity during the day, since Muslims are not supposed to eat or drink. It is said that any Muslim who is martyred (killed) during Ramadan is assured to go to heaven, so anticipate a greater than usual amount of activity in the hours of darkness. Several times in the month of Ramadan there are days of particular importance: The first four important days are called the "Nights of Glory and Power"; Muslims don't know exactly which day the Quran was revealed to Muhammad, but they believe it was one of the odd numbered days in the last third of Ramadan. This year they fall on 2, 4, 6, 8, and 10 October 2007. On this day, every act that man does is magnified a thousand-fold. So, to be sure they celebrate the right day, most Muslims pray all night long on each of those nights. After the month of fasting is complete, Muslims celebrate what is known as "Eid al Fitr" or the "festival of breaking the fast". During this time, Muslims wear their best clothing and cover their houses in the finest decorations to celebrate breaking their month-long daylight fast.

The following lists the months of the Lunar Calendar for 1428-9 (2007-8):

<u>Lunar Month</u>	<u>Meaning</u>	<u>Gregorian Month</u>
1 Ramadan 1428	Parched Thirst	13 September 2007

* Muhammad decreed the 4 months in **GOTHIC TEXT** as holy months. During holy months, it is forbidden for good Muslims to wage war or fight.

POTENTIAL IMPACTS: Moderate threat; large crowds may entice insurgents to attempt a high-profile attack.

12. TOPIC: Base Consolidation and Closure (No Change)

DISCUSSION: in the ongoing efforts to turn over battle space to the ISF, MSC closes or transfers bases to a GOI approved receiver (MOD, MOI, MOF) under a “condition based” approach. Base transfer / closures are a conditions based approach driven by three major considerations: stability in the AO, ISF ability/capability to assume & hold battle space, and funding for base consolidation. The current methodology is bottom-up driven with MSC nominating bases for transfer / closure, gaining approval, and following a 100 day notional timeline, which serves as a guide to accomplish necessary steps in the transfer / closure process.

Next Action: All base transfers/closure nominations have to be approved by CG. No further action required for 3ID CAB at Stryker, and (b)(1.4b, 1.4d) + BNs at Camp Delta and 2/3 HBCT (Brigade #20) at LSAA, Taji, Liberty, Falcon, and Kalsu.

Future Actions: IZ Transition is back on the table which entails the consolidation of MNF-I presence in the IZ from 13 to 3 locations; with two being MND-B bases (Union III and Prosperity). The transition also requires the transfer of Base Union I (Oct08), Freedom Rest (Jul08), the relocation of CSH to VBC (Sep08) and the relocation of GRD to VBC (June08). As part of the consolidation, MND-B will have to relocate from Union III NLT Jan 08 and transfer the base to JASG, which begins construction and renovations to relocate MNF-I FWD by Oct 08. MND-B is currently assessing capacity at Prosperity to absorb forces from Union III. The Executive Base Management Board with COS has been suspended until further notice. Base Working Group meetings are conducted twice a month. As part of future basing plans, we are conducting analysis of current capacity at long term COB IOT build required additional capacity to support RIP/TOA and consolidation efforts.

3. TOPIC: Build POE Capability - Border Strategy, Security and Interdiction (No Change)

DISCUSSION: MNF-I published the modification FRAGO (Securing the Borders Strategy) as part of the Iraqi National Border Control Plan. The modification of the strategy serves to reinvigorate and refocus MNF-I's efforts with the GOI on borders enforcement. The strategy serves as the basis for all ongoing border planning efforts to include interdicting the flow of foreign fighters, building POE capability and seaport / air port strategy. MNC-I published the Operation Silver Raven (Reinforcement of Key Ports of Entry) FRAGO this month. The FRAGO focused efforts to establish a permanent presence at designated POEs IOT disrupt foreign terrorists and facilitators cross-border

movement, illegal munitions smuggling and other nefarious cross-border activities. MNC-I continues to focus on building / enhancing POE capability in conjunction with MNF-I planning efforts. Biometric screening operation continues. BAT/ HIDE / VSAT systems are deployed and FMC at Rabiya, Al Waleed and PMC at Trebil, Zurbatia, AL Qaim, Muntheria land POEs & BIAP.

4. TOPIC: Seaport-Airport Transfer of Authority (No Change)

DISCUSSION: The supervision of seaports / airports is under the MoI / DBE effective 24 Jul 07. Key ministerial negotiations and administrative requirements associated with this action must now occur to facilitate / complete the transfer process. IAW with Region 4 DBE, a committee, made up of members of both the DBE and MOT, are due to meet later this month. The committee will set a date for the transfer of responsibility for Umm Qasr port from the FPS to the DBE. It is assessed that the Umm Qasr port manager [redacted] (b)(6) is likely to retain his position for the foreseeable future, as is the port director [redacted] (b)(6) (who is based in Basrah). The DBE plans to relocate leaders of the militia dominated personnel in order to remove influence in the area. Completion of the transfer will further facilitate key planning tied to current efforts on seaport security and future border operations. The budget for sea/airport is not finalized due to incomplete / ongoing administrative actions required to complete the transfer of authority / responsibility from MOT to MOI. Actions will continue in order to ensure requirements are rolled up into budget by the end of the month.

6. TOPIC: Seaport Security (No Change)

DISCUSSION: MNF -I planning efforts for seaports began 29 Mar and included Maritime Strategy development, security planning on seaports. Recent seaport conference at MNF-I, 24-25 Jul 07, identified significant gaps in coastal security coverage, both procedural and physical; it transpires that a 10km stretch at the southern end of the Shatt Al Arab Waterway (SAA) is currently not patrolled by Iraqi Navy, CG or CTF158. Leaders from the Iraqi Navy, Coast Guard and CF focused on the development of a Memorandum of Understanding for combined maritime operations. The DBE held a recent meeting at Terhan to discuss coastal security, especially Shat Al Arab. The Way ahead for planning includes setting up checkpoints every 20km with patrols by both the Iranian and Iraqi coast guard. LNO's between countries will help coordinate efforts to stop smuggling.

~~SECRET//REL TO USA and MCFI//~~

~~SECRET//REL TO USA and MCFI//~~

DISCUSSION: The Minister of Defense announced that Life Support contracts will not be renewed nor will any new contracts be enacted. He instructed the Commanding Generals of the divisions to coordinate all services within the division. Many divisions concerned that they can meet such a short timeframe, 1 NOV.

Approximately 100 FMS HMMWVs have arrived. It will be up to the IA to decide who will get the vehicles, but as of now they are tagged to go to the new battalions being formed within the IA. 10 Bomb Disposal vehicles are in and will be distributed 1 per division.

The 10th IA Division has been relocated to Camp Mittica.

There are several issues of deficient life support at Camp Mittica for the 10th Div HQ. There is inadequate water and electricity amongst other life support issues to support all the troops at Mittica. The full transition will remain on hold until Engineers have improved facilities.

NEXT ACTION: C3 ISF LOG continues to monitor equipment status of IA units and especially those supporting FAQ.

Mol HRC successfully salary funding is answered through files hiring orders with the Ministry of Finance. these elements are under SOC Command. AA BDE (-) conducted RIP/TOA with 6/2 NP in Samarra 01 SEPT, no incidents reported. 1/6/2 and 2/6/2 NP BNs will RIP/TOA with 3 AA BN on/about 28 SEPT. 3 AA BN will base on platoon in Ballad. Should Ballad's security destabilize, 2/6/2 will remain until conditions are conducive to platoon strength security. Ballad IP in the lead is required for reduced NP presence. NPTTs assigned to AA and 6-2 BDEs stated the urgent need for a Backscatter to inspect large trucks entering the Mosque reconstruction site, and a VSAT is required for secure digital communication. Requests to MNFI and MNSTCI for review of GOI support is 3 weeks unanswered.

DISCUSSION: RFF 656, released 17 Jun 06, requested Riverine capability to deny Anti-Iraqi Forces (AIF) use of the Tigris and Euphrates Rivers. JFCOM RFI dated 30 Sep 06 indicated RFF 656 not sourced due to RFF 397 (for MNF-W), directed CENTCOM to source internally. JUONS submitted by MNF-I on 30 Nov 06, disapproved 8 JAN 07. 3. TOPIC: Request for Forces MNC-I #144 for Replacement Division Headquarters for Multinational Division Center (MND-C) (No Change)

DISCUSSION: It is conceivable that MNC-I will sustain the current level of brigade combat teams through the summer of 2009. In addition to maintaining the current set of forces, Multinational Division-Center (MND-C) will assume responsibility for the current Multinational Division-Central South (MND-CS) on or about 1 MAY 08, increasing the division's geographical coverage area by at least one seventh (fourteen percent). In view of these facts, MNC-I believes it is necessary to request a replacement of the current Multinational Division-Center (MND-C) Division Headquarters, 3d Infantry Division, in order to maintain the same level of command and span of control. As the headquarters is replaced, the package of enablers for the division must also be replaced. LAD for this replacement division headquarters is 12 MAY 08. Transmitted to MNF-I 14 AUG 07. Submitted to CENTCOM 11 SEP 07.

4. TOPIC: RFF 786 Mobile Public Affairs Detachment (MPAD) (Update)

DISCUSSION: An MPAD is a ^{1.4a} Soldier unit commanded by an O4 with the following capabilities: Provide print and broadcast products, operate a media operations center, advise and assist leaders and troops with procedures to support the civilian news media, and operate the Digital Video and Imagery Distribution System (DVIDS) to transmit digital products and conduct live interviews from remote locations. 3 ID deployed as an additional division headquarters to occupy and establish Multinational Division-Center (MND-C) due to span of control concerns recognized by MNC-I. Originally scheduled to backfill the 25ID as MND-N, this deployment was made on short notice and nearly four months ahead of time. The combination of these two reasons – (1) Establishing a separate and distinct division area of operations (MND-C) and (2) Deploying earlier than originally scheduled – prevented 3ID from requesting an MPAD capacity in a timely manner. MNC-I has attempted to mitigate the shortage; however 3ID needs a dedicated MPAD capability. Transmitted to JS from CENTCOM 10 AUG 07. **Projected to be in 27 SEP SECDEF Orders Book.**

6. TOPIC: Request for Forces (RFF) MNC-I #145 for Exchange of Security Force (SECFOR) Battalions (Update)

DISCUSSION: MNC-I requires adjustment of SECFOR battalions to maximize deployment time and utilization of SECFOR trained units. It is MNC-I's understanding that 1-321 FA has a Warning Order (WARNORD) to deploy as a SECFOR battalion. MNC-I desires to deploy 1-321 FA to join 1/82nd ABN Theater Security Brigade (TSB), and replace 1-9 FA as part of that brigade. 1-321 FA would remain with 1/82nd ABN as part of the TSB until the TSB BOGs 8 SEP 08. This exchange of forces would allow 1-9 FA to be reattached to 2/3 Brigade Combat Team (BCT) and BOG out with 2/3 BCT and to be utilized as a full spectrum battalion. This exchange of units allows greater continuity of effort within MNC-I. A unit doing a SECFOR mission is replaced by a SECFOR trained unit. Brigade units from the 82nd Airborne Division and the 3^d Infantry Division are reunited, and these BCT units are able to redeploy to home station together. To MNF-I 7 AUG 07. 15. TOPIC: RFF 695 for 316TH ESC (Update) *Monitor Only*

DISCUSSION: 316th ESC RFF requests [REDACTED] pax to provide staff augmentation, ISF support, and distribution management capability to this USAR unit that will deploy under a new Modular MTOE of [REDACTED] pax; reduction of [REDACTED] compared to the 13th SCE, and [REDACTED] compared to 3rd COSCOM. Additional personnel will enable 316th ability to plan, coordinate, and synchronize logistics support and sustainment operations across the ITO. Reduced manning based on transformation to Single Log C2 with 1st Theater Support Command (TSC) assuming portions of overall theater sustainment mission from the ESC. Timeline for 1st TSC to assume Single Log C2 is a minimum of 6 months into the 316th ESC rotation (~Jan 08). CENTCOM RFF 695 released 9 Nov 06. Sourced in 07-09 EXORD Mod 7. CENTCOM also states in EXORD that this enduring request will be sourced after 07-09 via a JMD. Since then, CCJ1 And CCJ4 have stated via e-mail that the JMD is not the correct method of sourcing this requirement and do not endorse the creation of a JMD to support this requirement. Discussed in detail with CENTCOM, JFCOM, and FORSCOM 21 Aug. Seeking short and long term solution. Short term solution is either a BOG extension (which CENTCOM vetted and believes is not feasible), or seeing volunteers and plugging with CONUS units. Long term solution is mod 2 to RFF 695 which will make the requirement enduring for the next ESC. 23 Aug: JFCOM AO is also researching the possibility of changing EXORD mod 7 to remove the JMD and make the requirement enduring by disconnecting the augmentation from single log C2 which will

17. TOPIC: Request for Forces MNC-I #148 Non-Standard Brigade Headquarters (Update)

DISCUSSION: Success in mission accomplishment is being realized in Al Anbar and Al Wasit provinces. As a result, military operations are giving way to political means as we continue to enable civil authority. As such, the commander has determined that conditions support the redeployment of the current US Army forces (1/3ID and 214 Fires BDE) on their present time lines and not replacing those capabilities. Given this fact, the Commander, MNC-I requests to replace the HBCT and 214 Fires BDE with Non-Standard (N/S) brigade-level headquarters capable of (1) commanding and controlling remaining US and Coalition Forces and Civil-Military Operations Teams (i.e., QRF, MEDEVAC, Fire Support, Route Clearance Teams, PRTs, etc.); and (2) Conducting interface with local governments and the Iraqi Security Forces in order to provide the political-military headquarters interface necessary to continue the enduring process of enabling civil authority. **Any brigade-level headquarters/command and control organization will accomplish the purpose of this RFF (e.g., Fires Brigade Headquarters, Air Defense Artillery (ADA) Headquarters, Combat Support Brigade (Maneuver Enhanced), Battlefield Surveillance Brigade, United States Marine Corps Marine Expeditionary Brigade, etc. (Note: This is not an all inclusive list.)).** Additionally, a Civil

This RFF requests the validation of the Echelon Above Division (EAD) engineer assets required to support combat operations in the MND-C AO. Planning assumptions during the initial support estimate for surge operations included a timeline that predicted surge operations to be complete by 1 August 2007. This assumption has not been validated, and MND-C cannot sustain combat operations without appropriate EAD engineer assets in line with doctrine and those allocated to other Multi-National Divisions.
