

~~SECRET/REL USA GBR AUS~~

CCJ30G INFORMATION PAPER

SUBJECT: SUMMARY OF IZ SECURITY SITUATION

1. ~~(SEC/REL USA GBR AUS) EXECUTIVE SUMMARY.~~

The overall security situation in Iraq continues to improve daily. CJTF-7 forces are arrayed by matching each unit's capabilities with the right environment in order to achieve the desired endstate. Subsequent movement of forces are based largely on the stability of each population area. The recent unrest in Al Fallujah is under control and continues to improve. CJTF-7 is currently changing the task organization of their security forces (SECFOR) in order to support the increasing security requirements in Iraq.

2. ~~(SEC/REL USA GBR AUS) DETAILS.~~

- The CJTF-7 Commander and his Corps Commanders are arraying their forces by matching each unit's capabilities with the right environment in order to achieve the desired endstate. CJTF-7 continues to make every effort to meet all security requirements in Iraq. In addition to force protection and stability / support operations, CJTF-7 is balancing a myriad of security requirements that include VIP visits and SSE sites.

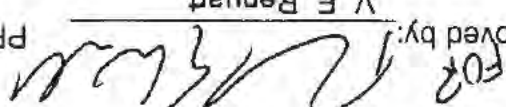

- CJTF-7 is currently changing the task organization for their SECFOR in order to support the increasing security requirements in Iraq. The major requirement for increased security is in the V Corps zone. CJTF-7 is sending nine infantry and five MP companies to the V Corps zone to increase their capability.

- CJTF-7 is aggressively pursuing hiring former Iraqi police not tainted by the former regime. CJTF-7 has also begun to conduct joint Iraqi-Coalition security patrols and has implemented an intensive police training program. Although these programs have not matured they already proven beneficial to the regional security and stability.

- The recent unrest in Al Fallujah is under control and continues to improve. An MP platoon, with embedded civil military affairs personnel, was deployed to the city on May 1st. Town leaders provided coalition forces with information on paramilitaries in the city for apprehension and future prosecution. On the 6th of May the 3rd ACR captured 6 subjects on the V Corps blacklist, including the local finance minister. Bath party financial records were also captured, which will allow V Corps to increase expand their blacklist.

3. ~~(SEC/REL USA GBR AUS) RECOMMENDATION.~~

None. For information only.

Approved by:  V. E. Rennan

MG, USAF

Director of Operations

PREPARED BY:

(b)(3), (b)(6)

Ground Operations Officer
