HQ CJTF(I) - Planning Factors

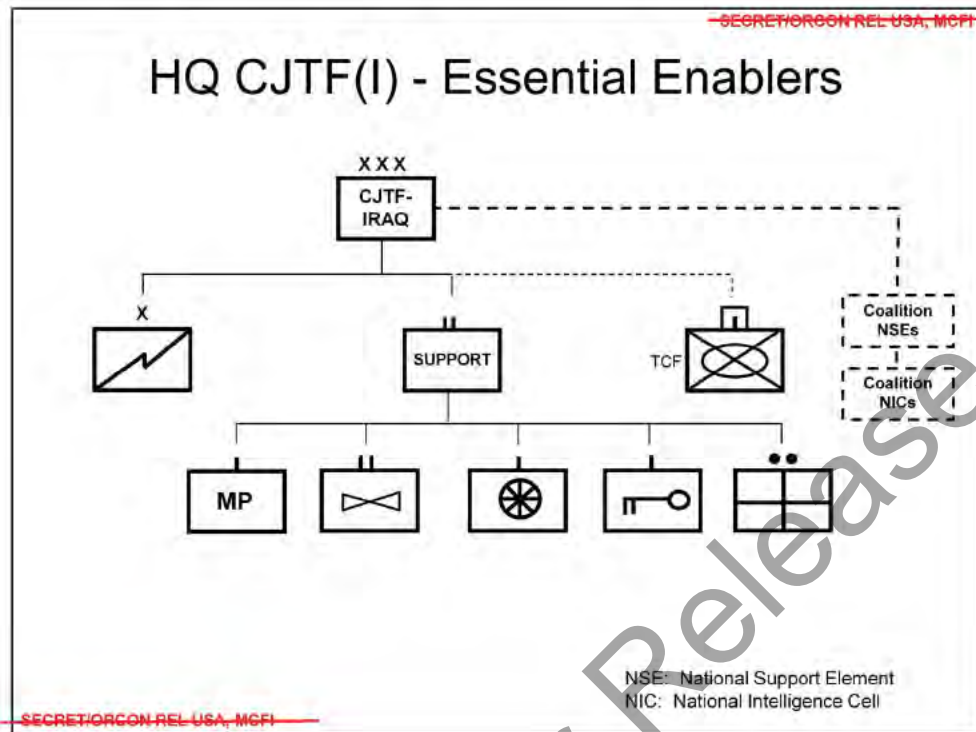

- Based on survey of US Joint Doctrine, US and NATO headquarters models
- Discards option of building CJTF(I) from CJTF-1.4a
- Joint, multinational, operational level headquarters
- Capable of planning and executing both combat and post hostilities operations
- Coordination with civil administration – 'Unity of Effort'
- Oversee the reformation of the Iraqi military

SECRET//ORCON REL USA, MCFI

Note: DCOS Reconstruction Branch may appear small, but delivery of this function is primarily at Div / Bde level, hence staff focused in subordinate commands

NSE: National Support Element

NIC: National Intelligence Cell

HQ CJTF(I) - Resource Considerations

- Creating HQ CJTF(I) from a US or non-US Corps sized HQ plus HQ CJTF-1.4a
 - Requires augmentation (approx 420 available, 720 required)
 - Several functions not present in standard Corps or CJTF-1.4a headquarters
- Large multinational participation may increase HQ CJTF(I) size
