ENEMY SITUATION

The overall situation in AL QUADISIYAH Province was relatively calm. Criminal activities have predominated there. These are attempts to intimidate local nationals and incommodious people. WASIT province is more complicated as for events occurred there. Corpse found close to Iraq/Iran border crossing point shows us that sectarian violence has increasing tendency. We suppose that insurgents started to use smuggling itineraries from BASRA border crossing point through to WASIT province to BAGDAD. Course of events on south part of AL QUADISIYAH province is strongly influenced by course of events IVO AS SAMAWAH town.

WEEKLY OPERATIONAL ASSESSMENT

Declassified by: MG Michael X. Garrett,
USCENTCOM Chief of Staff
Declassified on: 201506

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Increased presence following high profile attack had a direct effect on reduced attacks and casualties within Baghdad.
- IP/NP Charges of Capitulation, Complicity in sectarian violence, and Lack of Trust in parts of Baghdad, Basra, Samarra remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel).

AIF Neutralized (Al Qaeda Out)

- Attacks **DOWN** 3% (967-999) slightly above the 12 Week Average. Effectiveness rate (23%) below the 12 Week Average (27%).
- Battle Casualties **DOWN** by 35% (930-1433) below the 12 Week Average.
Civilians **DOWN** 44% to below the 12 Week Average, ISF **DOWN** 14% below the 12 Week Average, Coalition **UP** 18% to at the 12 Week Average.
- IEDs **SAME** (345), at the 12 Week Average. 'F&C' Rate **SAME** (40%). 3rd consecutive week numbers and percentages nearly identical. AIF adapting with new & complex TTPs; MNF-W is the exception.
- EFPs **DOWN** (3), with 1 'F&C'. Spreading to other MNDs to include Sunni areas of MND-N. EFP casualties down. Current employment trend is generally upward, this week was the exception.
- VBIED Attacks **DOWN** by 11 to 13 with 3 'F&C'. Effectiveness percentage rate **DOWN**. Casualties per attack were **DOWN** at 8.2 a decrease breaking a three week trend (24.5 last week) which is below the 12 Week Average.
- Suicide Attacks **UP** (11 from 10) at the 12 Week Average Vest type attacks **UP** by 1 to 3.
- Despite elevated tension due to threats of sectarian violence, attacks and casualties were reduced due to increased combined security presence, GOI calls for restraint, and militias assuming a more defensive posture.
- Attempts to incite large scale sectarian violence in Baghdad, Diyala and Salah Ad Din was ineffective.

Support an Independent Iraq (Building Confidence)

- Public atmospherics remain mixed, but showing increased frustration with GOI security activities. Local Internal security measures increasing (auto-segregation, neighborhood watch, tribal alliances...)
- Major "Build" projects in the cleared areas of Baghdad behind schedule to start.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO. Slow progress this week due to curfews, vehicle bans, worker intimidation and security missions.
- Tribal tensions and violence continue with risk of undermining security efforts, particularly in Basra and Salah Ad Din.

MND-CS security situation was stable. Reporting indicates that JAM still control part of Ad Diwaniyah city. AIFs have freedom of movement except of part controlled by ISF. Sectarian violence and threat of VBIED attacks continue especially IVO AS SUWAYRAH. Because of high corruption level among the Department of Border Enforcement (DBE) smuggling continues along Iraq/Iran border. We assess that AIF activities remain on the same level. Attacks against ISF are likely. IED/EDF threat on military bases in MND CS AOR is still exists. WEEKLY OPERATIONAL ASSESSMENT

Declassified by: MG Michael X. Garrett,
USCENTCOM Chief of Staff
Declassified on: 201506

Capable ISF (ISF Increasingly in lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Successful combined operations in Ramadi, Baqubah, Basra, and Ghazaliyah demonstrate effectiveness of ISF to citizens and dismiss accusations of corruption and sectarian targeting.
- IP/NP Charges of Capitulation, Complicity in sectarian violence, and Lack of Trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel).

AIF Neutralized (Al Qaeda Out)

- Attacks **UP** 10% (1076-976) above the 12 Week Average. Effectiveness rate (23%) below the 12 Week Average (26%).
- Battle Casualties **UP** by 2% (978-959) below the 12 Week Average.
Civilians **DOWN** 9% to below the 12 Week Average, ISF **UP** 23% below the 12 Week Average. Coalition **UP** 32% to above the 12 Week Average.
- IEDs **UP** 12% (407), above the 12 Week Average. 'F&C' Rate SAME (39%). 4th consecutive week numbers 'F&C' percentages nearly identical. AIF adapting with new & complex TTPs; MNF-W is the exception.
- EFPs **DOWN** (3), with 0 'F&C'. EFP casualties down. Current employment trend has decreased for the second consecutive week after a sustained increase in NOV.
- VBIED Attacks **UP** by 5 to 18 with 4 'F&C'. Effectiveness percentage rate **DOWN**. Casualties per attack were **UP** at 14.2% an increase after an extremely low week below the 12 Week Average.
- Suicide Attacks **DOWN** (5 from 13) below the 12 Week Average. Vest type attacks **DOWN** by 1 to 2.
- Despite elevated tension due to threats of sectarian violence, attacks and casualties to civilians were reduced due to increased combined security presence, and high profile combined operations causing an increase in attacks against Coalition Forces and ISF.
- Attempts to incite large scale sectarian violence in Baghdad, Diyala and Salah Ad Din was ineffective.

Support an Independent Iraq (Building Confidence)

- Public atmospherics remain mixed, but showing increased frustration with GoI security activities. Local Internal security measures increasing (auto-segregation, neighborhood watch, tribal alliances...)
- Major "Build" projects in the cleared areas of Baghdad behind schedule to start.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- Tribal tensions and violence continue with risk of undermining security efforts, particularly in Diyala and Salah Ad Din.

GOVERNANCE

IN DOURA THE PUBLIC SERVICE THAT IS THE MOST FRUSTRATING IS THE ELECTRICAL SERVICE, TRASH COLLECTION AND SEWER SERVICE. SCHOOLS ARE CLOSED IN MANY PARTS OF DOURA DUE TO TERRORIST THREATS. GHAZALIYAH RESIDENTS SAY THAT SMALL LOCAL PROBLEMS CAN BE RESOLVED BY THEIR LOCAL NAC BUT THAT LARGE AND DIFFICULT CHALLENGES CANNOT BE FIXED.

ECONOMICS (INFRASTRUCTURE AND BASIC SERVICES)

BUSINESS OWNERS NEED TO BE ENCOURAGED TO OPEN THEIR STORES AND BUSINESSES IN THE CITIES OF ADHAMIYAH AND MANSOUR. THIS WILL GIVE CONFIDENCE TO PEOPLE TO VENTURE OUT. EVERYDAY LIFE WILL BEGIN TO RETURN TO NORMAL IN THESE CITIES WITH IMPROVED BASIC SERVICES. THIS SHOULD BE ASSOCIATED WITH A CLEAR PRESENCE OF WELL TRAINED ISF WHO CONDUCT THEMSELVES PROFESSIONALLY.

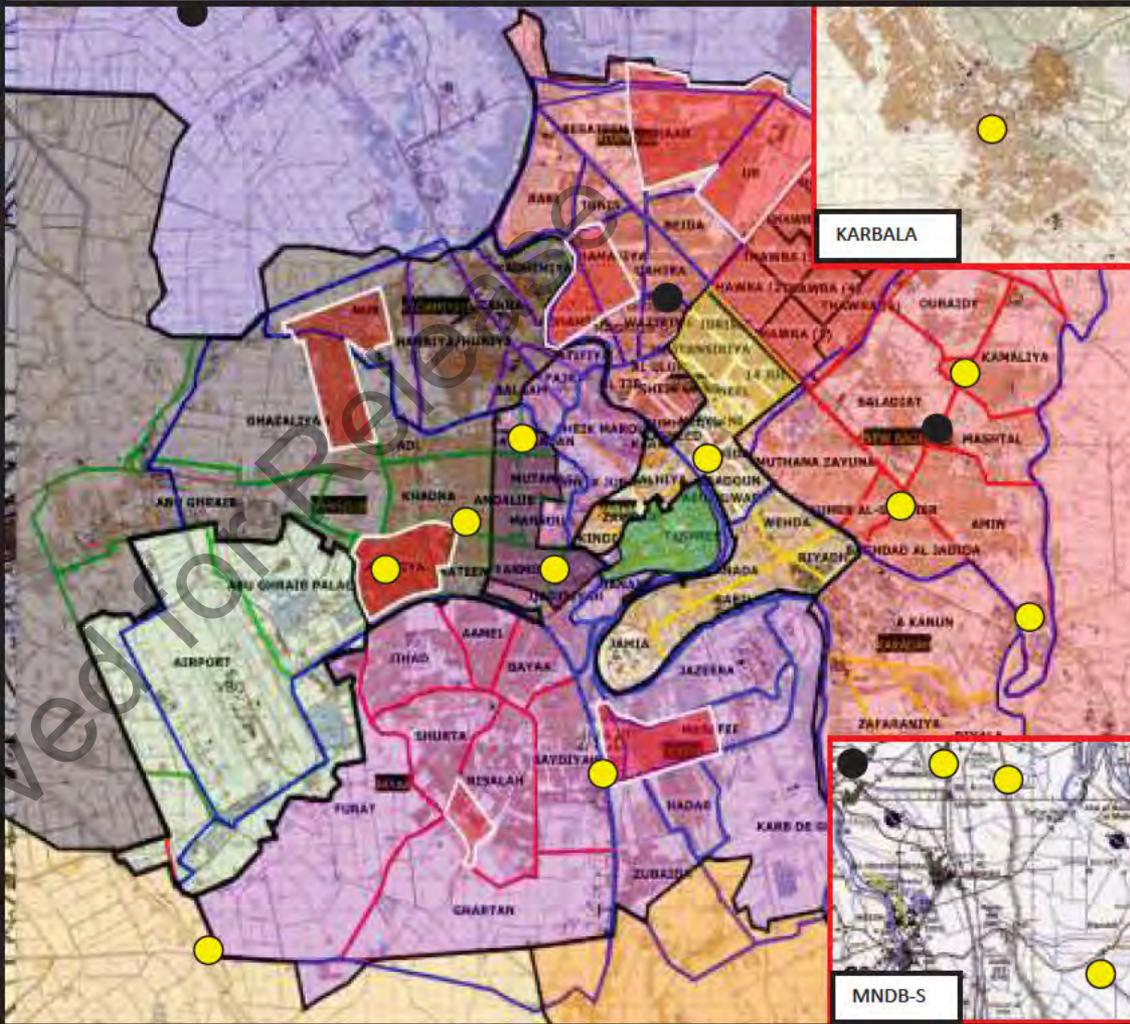

COMMUNICATIONS

ATMOSPHERICS THROUGHOUT GHAZALIYAH INDICATE RESIDENTS ARE PLEASED TO SEE CF AND ARE MOTIVATED TO CLEAN UP THE AREA. LEADERS SHOW A DESIRE TO ENGAGE CF LEADERS AND WORK TOWARD MORE SECURITY AND A PROSPEROUS NEIGHBORHOOD.

WEEKLY OPERATIONAL ASSESSMENT

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Successful combined operations in Ramadi, Baqubah, Basra, and Ghazaliyah demonstrate effectiveness of ISF to citizens and dismiss accusations of corruption and sectarian targeting.
- IP/NP Charges of Capitulation, Complicity in sectarian violence, and Lack of Trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel).

AIF Neutralized (AI Qaeda Out)

- Attacks **DOWN** 10% (974-1078) slightly below the 12 Week Average. Effectiveness rate (19%) below the 12 Week Average (26%).
- Battle Casualties **UP** by 4% (1021-979) at the 12 Week Average.
Civilians **UP** 17% to at the 12 Week Average, ISF **UP** 18% at the 12 Week Average. Coalition **DOWN** 47% to below the 12 Week Average.
- IEDs **DOWN** 16% (344), at the 12 Week Average. 'F&C' Rate **UP** (41%). 5th consecutive week numbers 'F&C' percentages nearly identical (less than 2% change), which is an overall increase from previous weeks.
- EFPs **DOWN** (5), with 1 'F&C'. EFP casualties down. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the third week of lower attacks.
- VBIED Attacks **UP** by 2 to 17 with 8 'F&C' (highest amount of 'F&C'). Effectiveness percentage rate **DOWN**. Casualties per attack were **DOWN** at 11.1%, below the 12 Week Average.
- Suicide Attacks **UP** (10 from 5) above the 12 Week Average. Vest type attacks **DOWN** by 1 to 1. AIF resorting to suicide VBIEDs to achieve desired effects against ISF and civilians.
- Sustained high level of attacks against ISF is directly related to an increasing presence and expanded role. Attacks on civilians at lowest levels since May. AIF has opted for high profile attacks in lieu of more frequent low level attacks against civilians.
- Attempts to incite large scale sectarian violence in Baghdad, Diyala and Salah Ad Din was ineffective.

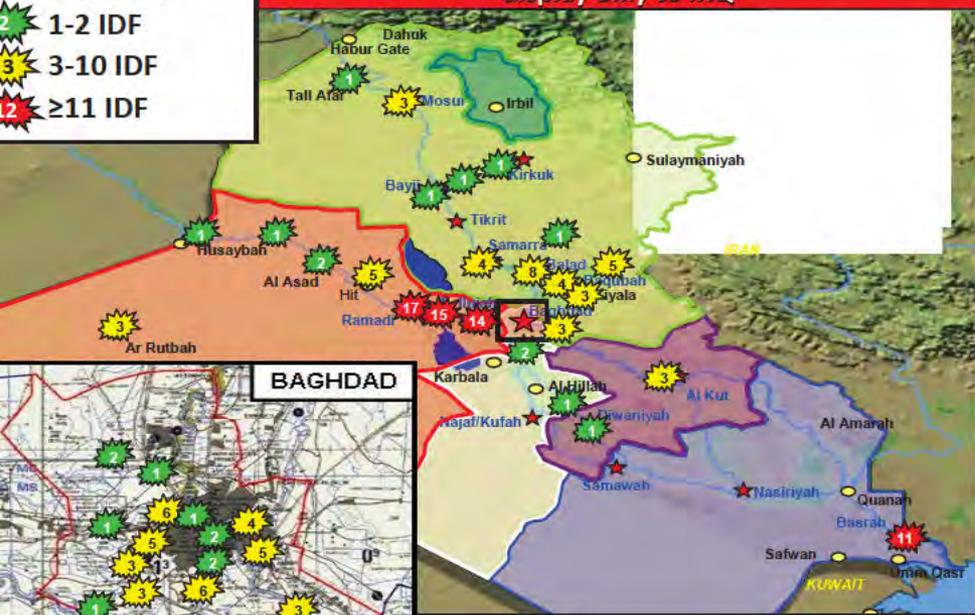

Support an Independent Iraq (Building Confidence)

- Public atmospherics remain mixed, but showing increased frustration with GoI security activities. Local Internal security measures increasing (auto-segregation, neighborhood watch, tribal alliances...)
- Major "Build" projects in the cleared areas of Baghdad behind schedule to start.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- Tribal tensions and violence continue with risk of undermining security efforts, particularly in Diyala and Salah Ad Din.

LAST WEEKS ASSESSMENT

IDF activity increased slightly from 170 to 174. In MNF-W, IDF against CF rose sharply as AQIZ pushed back against OP Squeeze Play. In MND-B, insurgents and militias maintained last week's level of attacks on CF while focusing sectarian attacks against civilians and ISF in Adhimiyah and Khadimiyah. In MND-N's attacks centered on the Baqubah-Muqtadiyah corridor.

NEXT WEEKS PROJECTION

- Expect attacks to remain steady between 21-25 attacks per day with a total of 147-175 for the week. Increased Sunni attacks on CF in Baghdad and the emerging Yusifiyah-Mahmudiyah hot spot will continue as AQIZ is driven from its Ramadi-Habbaniyah support zone. In MNF-W, Ramadi will remain the focus with AQIZ trying to regain its freedom of movement. JAM in MND-SE will likely sustain their attacks over the next week to retaliate for OP Sinbad and recent JAM arrests. MND-CS may also see continued attacks to build pressure for the release of Sadr's Kut deputy.

A RAID ON THE ABU NUR NETWORK RESULTED IN THE CAPTURE OF 24 X SUSPECTED LOWER LEVEL INSURGENTS AND 23 X CELL PHONES. 14 X CACHES WERE SEIZED BETWEEN 18 – 21 DEC. THE LARGEST CACHES WERE LOCATED IN YUSUFIAH AND RUSAFAH.

THIS WEEK, MND-B HAS CONDUCTED 4 X C-EJK OPERATIONS, DETAINING 14 X AIF WITH 3 X HVI DETAINEES.

GOVERNANCE

SOME REPAIRS ARE BEING DONE TO ABU GHURAIB MARKETS. REPAIRS AND UPGRADES INCLUDE PROVIDING LIGHTS, HOWEVER THERE IS LITTLE TO NO ELECTRICITY TO POWER THESE LIGHTS. THE SCHOOLS IN THE AREA HAD SOME PAINTING DONE AND DAMAGED WINDOWS REPLACED.

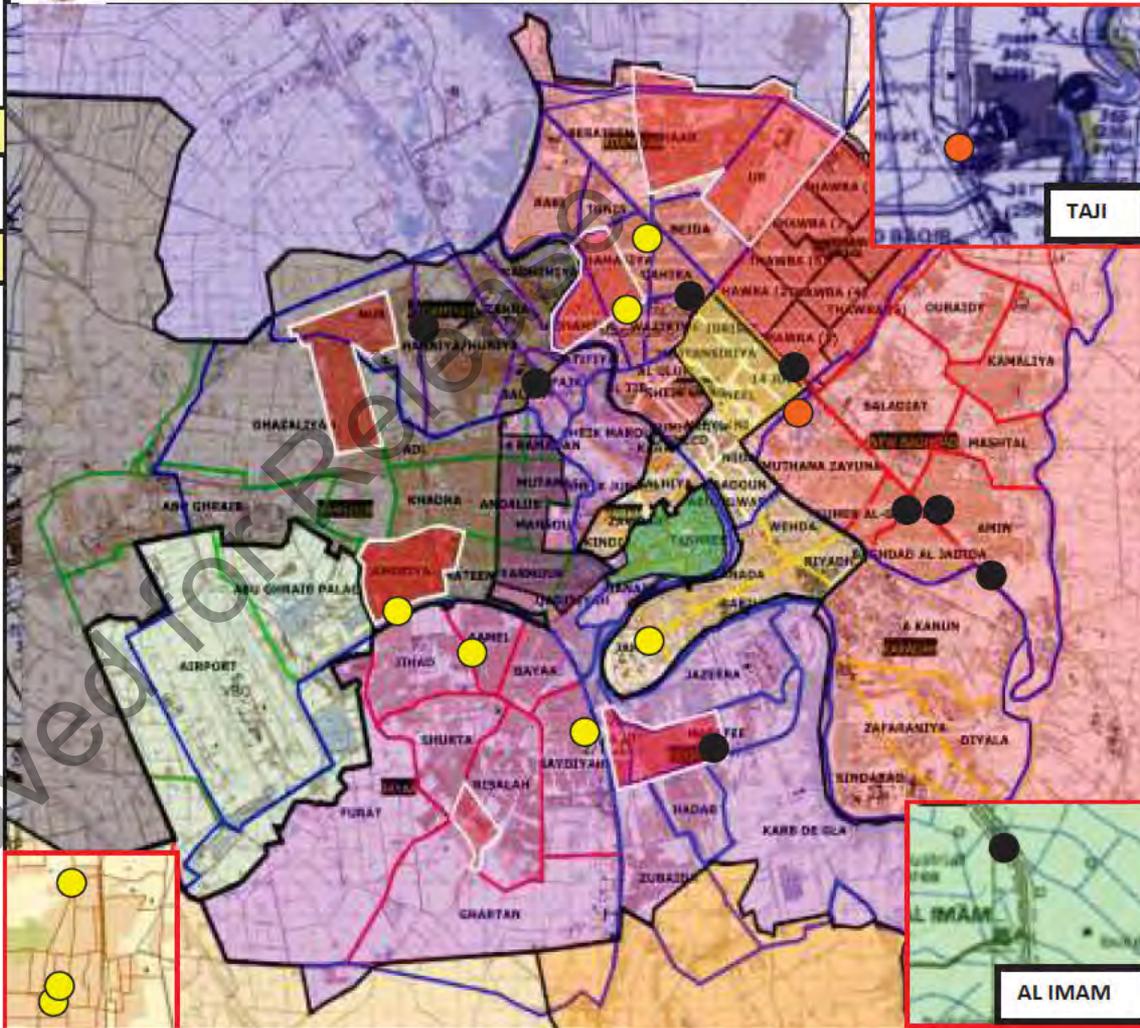

ECONOMICS (INFRASTRUCTURE AND BASIC SERVICES)

THE PEOPLE OF ABU GHURAIB ARE TALKING ABOUT HOW HARD IT IS TO GET FUEL. THE COST OF FUEL IS RISING AS THE WEATHER IS BECOMING COLDER. LOCAL NATIONALS WOULD LIKE FUEL PRICES TO DROP BECAUSE THEY NEED TO HEAT THEIR HOMES. PEOPLE ARE TALKING ABOUT THE RISING UNEMPLOYMENT RATE AND THE INABILITY TO FIND WORK. CITIZENS ARE VOCALIZING THEIR CONCERN FOR CREATING A BETTER LIFE FOR THEIR CHILDREN.

COMMUNICATIONS

THE MILITARY OPERATIONS THAT TOOK PLACE IN ADHAMIYAH WERE WELCOMED BY THE LOCALS AS IT RESTORED GREATER STABILITY TO THE AREA. RESIDENTS USED THE PERIOD OF CALM TO CONDUCT BUSINESS. THE CHECKPOINTS SLOWED TRAFFIC FOR COMMUTERS BUT THEY PREFERRED AN AMERICAN PRESENCE OVER THE IRAQI POLICE. THE OPERATIONS WERE VIEWED BY MANY RESIDENTS AS NECESSARY TO REINFORCE AND IMPROVE LOCAL SECURITY.

WEEKLY OPERATIONAL ASSESSMENT

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to increase in effectiveness across the ITO. Public trust and confidence is building in areas outside of Baghdad. Successful combined operations in Ramadi, Hadithah, and Baqubah demonstrate effectiveness of ISF to citizens and dismiss accusations of corruption and sectarian targeting.
- IP/NP Charges of Capitulation, Complicity in sectarian violence, and Lack of Trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel). The problem is especially severe for the Department of Border Enforcement in MNF-West.

AIF Neutralized (Al Qaeda Out)

- Attacks **DOWN** 1% (990-1005) slightly below the 12 Week Average. Effectiveness rate (20%) below the 12 Week Average (26%).
- Battle Casualties **DOWN** by 38% (641-1026) below the 12 Week Average.
Civilians **DOWN** 46% to below the 12 Week Average, ISF **DOWN** 41% below the 12 Week Average. Coalition **UP** 27% to at the 12 Week Average.
- IEDs **DOWN** 4% (573), at the 12 Week Average. 'F&C' Rate **DOWN** (38%).
- EFPs **UP** (8), with 7 'F&C'. EFP casualties down. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the first week of a 2-3 week surge.
- VBIED Attacks **DOWN** by 6 to 13 with 3 'F&C'. Effectiveness percentage rate **UP**. Casualties per attack were SAME at 11.5%, below the 12 Week Average.
- Suicide Attacks **DOWN** (6 from 11) below the 12 Week Average. Vest type attacks **UP** by 1 to 2. AIF resorting to suicide VBIEDs to achieve desired effects against ISF and civilians.
- Sustained high level of attacks against ISF is directly related to an increasing presence and expanded role. For two consecutive weeks, attacks on civilians at lowest levels since May. AIF has opted for high profile attacks in lieu of more frequent low level attacks against civilians.
- Attempts to incite large scale sectarian violence in Baghdad through high profile attacks was ineffective.

Support an Independent Iraq (Building Confidence)

- Public atmospherics remain mixed, but showing increased frustration with GoI security activities. Local Internal security measures increasing (auto-segregation, neighborhood watch, tribal alliances...)
- Major "Build" projects in the cleared areas of Baghdad behind schedule to start.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- Tribal tensions and violence continue with risk of undermining security efforts, particularly in Diyala and Salah Ad Din.

GOVERNANCE
 CITIZENS OF NEW BAGHDAD SAY THE IRAQI POLICE AND NATIONAL POLICE HAVE BEEN TAKING DETAINEES TO THE MOI BUILDING AND HOLDING THEM THERE. WHEN A DETAINEE IS RELEASED JAM MILITIA KIDNAP THEM AS THEY DEPART THE BUILDING. JAM EXECUTE THE VICTIMS AND DUMP THE BODIES IN A SAFE PLACE. JAM SUPPORTED EJKS ARE DONE IN COOPERATION WITH JAM SUPPORTERS INSIDE THE MOI. PEOPLE CLAIM THIS IS HOW THE MOI CAN FEIGN IGNORANCE OF THE EJKS.

ECONOMICS (INFRASTRUCTURE AND BASIC SERVICES)
 THE LOCALS IN SHA'AB FEEL THE MINISTRY OF PETROLEUM HAS NOT DONE ENOUGH TO STOP GASOLINE FROM BEING STOLEN AND SOLD ON THE BLACK MARKET. MANY PEOPLE COMMUTE AND THEY FEEL THEY ARE THE VICTIMS OF PRICE GOUGING. THIS HAS BEEN A REGULAR COMPLAINT IN THIS COMMUNITY.

ENEMY SITUATION

IN DIYALA, HOT SPOTS FOR ATTACKS WILL CONTINUE TO BE BAQUBAH, (THARIR AND BURITZ). AQIZ ATTEMPTS TO SOW SEEDS OF FEAR AND TERROR IN THE LOCAL POPULATION, ERODING THEIR TRUST IN THE ISF TO PROTECT THEM. IN KIRKUK, AIF CONSIDER CF AND ISF EOD ELEMENTS AS THEIR GREATEST THREAT TO EFFECTIVE IED OPERATIONS. IN SAD, INSURGENTS ARE ATTEMPTING TO CHANGE FROM IMPROVISED EXPLOSIVE DEVICES (IED) TO SNIPER TYPE ATTACKS. IN NINEWA, AIF CONTINUE TO MONITOR COALITION OPERATIONS AND TRAFFIC WEAPONS THROUGHOUT MOSUL.

NEUTRALIZE AIF

The overall situation in the MND CS AOR is tense. There has not been observed any significant changes in level of confidence or attitude of local population toward provincial authorities. As the WASIT province have had a decreasing number of attacks, it seems probable that the insurgents have focused their attention from WASIT to AL QUADISIYAH, which the latest attacks indicates, and also that the insurgents have focused their efforts on CF and ISF in this area. Demonstrations in AN NAJAF are likely related to the death of one of the JAM leaders, or have the purpose to show force.

Among other things:

Locals living in AD DIWANIYAH have been concerned about the lack of non potable water and in WASIT locals face problems with the lack of flour.

Reports indicate JAM has started recruiting campaign focusing on students and the poorest part of inhabitants in AL QUADISIYAH province.

Current Situation. The week has been dominated by political and AIF reaction to Op THYME with continuing tension in Al Amarah and As Samawah.

Building an Independent Iraq.

- Continuing Success of Op SINBAD.
- Economics: Over \$2M spent on longer term projects as a result of Op SINBAD.

Capability of the ISF. ISF have now run the last three pulses of Op SINBAD with positive results. They continue to achieve effective control in Al Amarah and As Samawah. Concerns over the senior command of 10 IA Div are being addressed.

Atmospherics.

- Basra: Remain positive following Op THYME and SINBAD 14 but a schism has developed between IPS, ESC, Provincial Council and MNF following JAM pressure on weaker elements of local Govt.
- Maysaan: Tense but stable.
- Dhi Qar: NSTR.
- Al Muthanna: Tense but stable.

Neutralizing the AIF. C2 led ops results have been disappointing but opportunity follow-up ops to AIF attacks continue to produce detainees and exploitable material.

SIGNIFICANT EVENTS OF THE WEEK

- 1 • OP THYME – 25 DEC 06.
- 2 • OP SINBAD 14 – 28/29 DEC 06.
- 3 • IED/EFP ATTKS – 27/28/29 DEC 06.
- 4 • EFP FINDS – 27/28 DEC.

CURRENT ASSESSMENT

The current political schism needs careful handling. The senior command of 10 IA Div must be replaced before TOA is approved. Pressure on MJAM in Basrah will be maintained through C2 led ops in coming weeks.

CURRENT/FUTURE OPS

Current Ops: Ops in support of Hostages Release, Op TACHBROOK and Op VEDETTE.

WEEKLY OPERATIONAL ASSESSMENT

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Successful combined operations in Ramadi, Hadithah, Baqubah, and Basrah, and independent actions in As Samawah demonstrate effectiveness of ISF to citizens and dismiss accusations of corruption and sectarian targeting.
- IP/NP Charges of Capitulation, Complicity in sectarian violence, and Lack of Trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

AIF Neutralized (Al Qaeda Out)

- Attacks SAME (996-997) slightly below the 12 Week Average. Effectiveness rate (23%) below the 12 Week Average (26%).
- Battle Casualties **UP** by 51% (987-655) at the 12 Week Average (previous week was a 7 month low). Civilians **UP** 57% to at the 12 Week Average, ISF **UP** 41% at the 12 Week Average. Coalition **UP** 24% to above the 12 Week Average.
- IEDs **DOWN** 8% (530), below the 12 Week Average. 'F&C' Rate SAME (38%).
- EFPs **UP** (14), with 4 'F&C'. EFP casualties **UP**. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the second week of a surge. Tied for highest week for EFP detonations.
- VBIED Attacks **UP** by 5 to 19 with 7 'F&C'. Effectiveness percentage rate **DOWN**. Casualties per attack were **UP** at 16.3%, above the 12 Week Average.
- Suicide Attacks SAME (6) below the 12 Week Average. Vest type attacks **UP** by 1 to 3. AIF resorting to suicide VBIEDs to achieve desired effects against ISF and civilians.
- Sustained high level of attacks against ISF is directly related to an increasing presence and expanded role. AIF has opted for high profile attacks in lieu of more frequent low level attacks against civilians in an attempt to incite increased sectarian violence.
- Attacks against Coalition Forces have been consistent for the past three weeks.

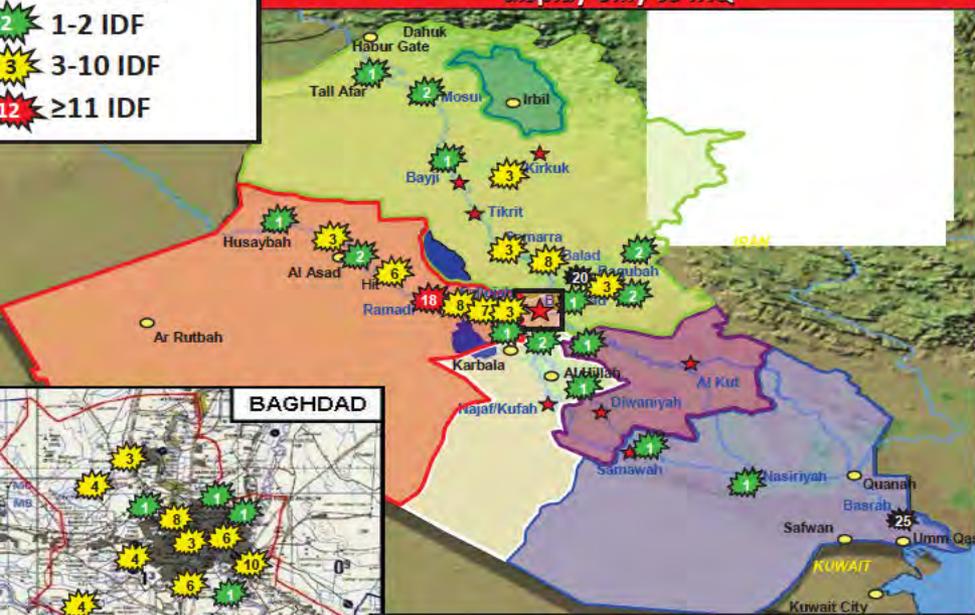

Support an Independent Iraq (Building Confidence)

- Public atmospherics remain mixed, but showing increased frustration with GoI security activities. Local Internal security measures increasing (auto-segregation, neighborhood watch, tribal alliances...)
- Major "Build" projects in the cleared areas of Baghdad behind schedule to start.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- Tribal tensions and violence continue with risk of undermining security efforts, particularly in Diyala and Salah Ad Din.

LAST WEEKS ASSESSMENT

IDF attacks increased from 168 to 193. In MND-B, the increase was focused on Sunni civilians and ISF in the city's NW districts, FOB Rustamiyah, and renewed pressure against the Yusifiyah-Mahmudiah area. JAM attacks against Sunni civilians were focused on Sab al Bor and the Doura district. In MND-N, the sharp rise in IDF attacks was against CF operations IVO Baqubah, as AQIZ is trying to cement their role with Sunnis as guardians against JAM violence. In Anbar, the focus of IDF stayed on Ramadi, as AQIZ resistance to Operation SQUEEZE PLAY continued. IDF against Basrah FOBs began to level, after the preceding week's damaging operations and detentions.

NEXT WEEKS PROJECTION

- In the aftermath of the Saddam execution and probable Sadr return to government, expect attacks to drop to 21-25 attacks per day for a total of 147 to 175 for the week. JAM attacks on CF in Baghdad should level off unless their leaders think that CF is about to assault Sadr city. Sunni Rejectionists will sustain attacks in Yusifiyah – Mahmudiyah as AQIZ struggles to maintain influence. Ramadi remains the focus in Anbar, as AQIZ tries to regain freedom of movement. In MND-N, attacks will remain focused in the Baqubah area and Muqtadiyah corridor. JAM in MND-SE will likely maintain a level of 2-4 attacks per day to retaliate despite supply problems and leadership disruption after British raids.

31 Dec 06 – 06 Jan 07

Current Situation. The week has been dominated by continued political and AIF reaction to Op THYME and the kidnap of a USD citizen.

Building an Independent Iraq.

- Continuing Success of Op SINBAD.
- Economics: Over \$2M spent on longer term projects as a result of Op SINBAD.

Capability of the ISF. Concern that significant JAM influence continues within the IPS. ISF continue to achieve effective control in Al Amarah and As Samawah. A change of comd of 10 IA Div will be confirmed in the near future..

Atmospherics.

- Basra: The populace remains positive following Op THYME and SINBAD 14. The non-cooperation of elements of local Govt and the ISF which followed Op THYME will hopefully be resolved at a key meeting on Mon 8 Jan.
- Maysaan: Stable.
- Dhi Qar: NSTR.
- Al Muthanna: Stable.

Neutralizing the AIF. ISTAR generated intelligence has provided opportunities for swift and effective follow up to AIF attacks.

SIGNIFICANT EVENTS OF THE WEEK

- 10 IA DIV TOA – 01 JAN 07.

① • KIDNAP – 05 JAN 07.

② • OP PRESTON – 06 JAN 07.

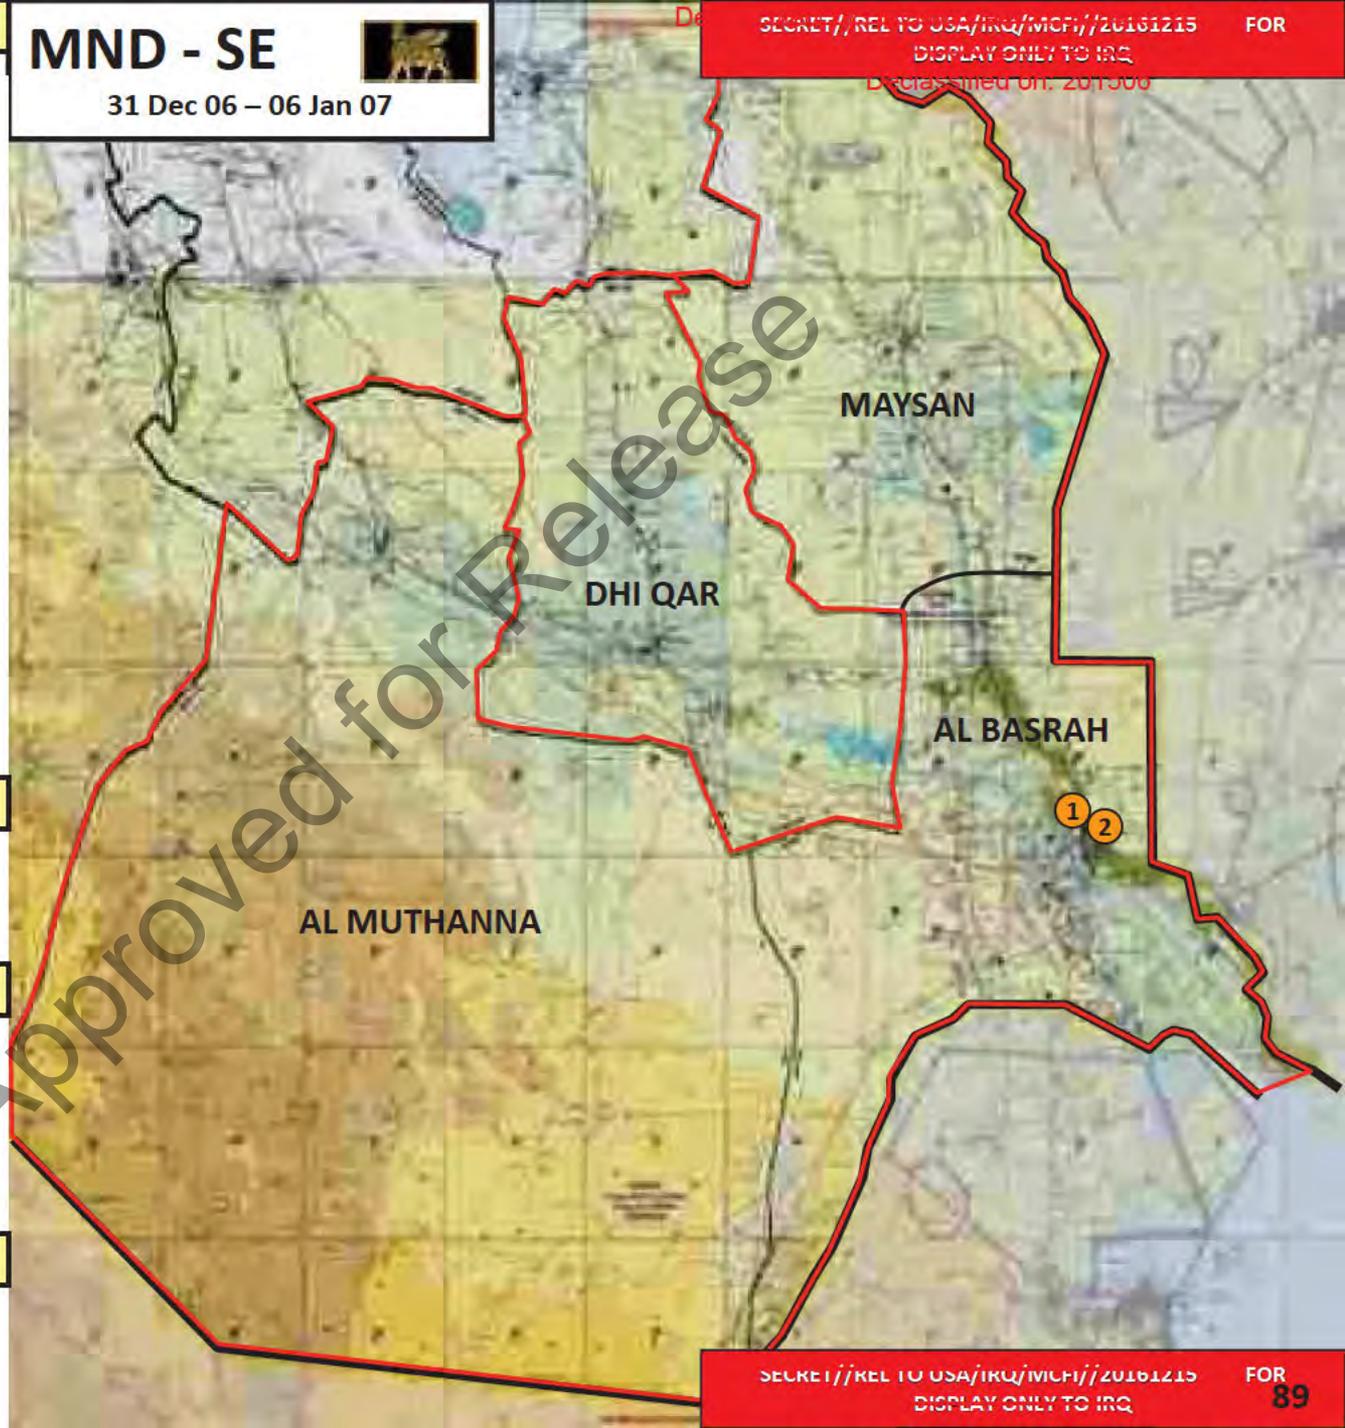

CURRENT ASSESSMENT

Implicit IPS involvement in the kidnap has forced some of those advocating non-cooperation with MNF to change their tune. The meeting on Mon 8 Jan will be key to future working relationships between ISF and MNF. AIF attacks continue but with a frequency below the norm of recent weeks.

CURRENT/FUTURE OPS

Current Ops: Ops in support of Hostages Release, Op TACHBROOK and Op VEDETTE.

Future Ops: Op SINBAD 15 – 9-11 Jan 07.

MNC-I CURRENT OPS

WEEKLY OPERATIONAL ASSESSMENT

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Successful combined operations in Ramadi, Hadithah, and Baghdad demonstrate effectiveness of ISF to citizens and dismiss accusations of corruption and sectarian targeting.
- IP/NP Charges of Capitulation, Complicity in sectarian violence, and Lack of Trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

AIF Neutralized (Al Qaeda Out)

- Attacks **DOWN** (996-884) below the 12 Week Average. Effectiveness rate (17%) below the 12 Week Average (26%).
- Battle Casualties **DOWN** by 37% (988-621) below the 12 Week Average.
Civilians **DOWN** 30% (602-424) below the 12 Week Average, ISF **DOWN** 49% (214-109) below the 12 Week Average.
Coalition **DOWN** 49% (171-88) below the 12 Week Average.
- IEDs **DOWN** 3% (515), below the 12 Week Average. 'F&C' Rate UP (46%).
- EFPs **DOWN** (7), with 7 'F&C'. EFP casualties **DOWN**. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the first week of a decrease.
- VBIED Attacks **DOWN** by 7 to 12 with 2 'F&C'. Effectiveness percentage rate **DOWN**. Casualties per attack were **UP** at 20, above the 12 Week Average.
- Suicide Attacks **DOWN** (3) below the 12 Week Average. Vest type attacks **DOWN** by 1 to 2.
- Low level of attacks is likely due to a combination of effective CF operations and the Eid al Adha holiday. This period has had a low incidence of high profile attacks.
- Weekly casualty figures are at their lowest level since 5 May 06.
- Although attacks against ISF have been consistent, resulting casualties have been on a downward trend, indicating improved TTPs increasing survivability by the ISF.

Support an Independent Iraq (Building Confidence)

- Public atmospherics remain mixed, but showing increased frustration with GoI security activities. Expectations for CF to improve security situation are high.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- Tribal tensions and violence continue with risk of undermining security efforts, particularly in Diyala and Salah Ad Din.

GOVERNANCE

PEOPLE OF GHAZILYAH ARE SAYING THE GOVERNMENT NEEDS TO BE STRONGER AND MUST FIND A WAY TO STOP THE VIOLENCE, AND PROVIDE BETTER SERVICES TO THE PEOPLE, I.E., ELECTRICITY. THE GOVERNMENT NEEDS TO CONTROL THE PRICES IN THE BAGHDAD MARKETS. THE PRICES CONTINUE TO RISE ON A DAILY BASIS. CITIZENS CAN NOT CONTINUE TO SURVIVE WITHOUT ELECTRICITY AND WITH THE PRICE OF GAS AND KEROSENE CONTINUING TO INCREASE THIS ONLY ADDS TO THEIR HARDSHIP.

ECONOMICS (INFRASTRUCTURE AND BASIC SERVICES)

IN KADHAMIYAH PEOPLE ARE USING WOOD TO COOK AND HEAT THEIR HOMES BECAUSE LPG AND KEROSENE ARE VERY EXPENSIVE AND HARD TO FIND. MANY LPG BOTTLES ARE DANGEROUS BECAUSE THEY ARE UNSERVICEABLE AND ARE NOT SAFE TO USE.

COMMUNICATIONS

CITIZENS OF AMERIYAH ARE TALKING ABOUT THE AL-SHARQIYAH TV STATION BROADCASTING A MESSAGE FROM THE MUQTADA AL-SADR OFFICE IN SADR CITY ANNOUNCING THE ENLISTMENT OF ALL MALES FROM 15-45 YEARS OF AGE TO JAM. SHI'AS ARE SAYING THIS IS GOING TO BE A SECTARIAN FIGHT BECAUSE IT WAS ANNOUNCED AFTER A MEETING BETWEEN MUQTADA AND AL-SISTANI.

NEUTRALIZE AIF

The overall situation in the MND CS AOR is tense. AIF/ACF attack levels have returned to pre-holiday levels but SAF and IED attacks in the last week have only occurred in AL QUADISIYAH province. AIF/ACF main effort currently focuses on LN and ISF. AIF continue to have freedom of movement and intimidate LN with violence and kidnappings. Any CF actions in the part of DIWANIYAH controlled by JAM can increase AIF reactions. Sectarian violence continues IVO AS SUWAYRAH. There is a historical increase in IDF attacks related to MND CS rotations. There has not been observed any significant changes in level of confidence or attitude of local population toward provincial authorities. There are still lacks of non potable water, flour, fuel, kerosene and electricity. Reports still indicates that JAM has started recruiting campaign focusing on students and the poorest part of inhabitants in AL QUADISIYAH province. AIF continues IO campaign and propaganda IOT regain local population support. Numbers of displaced people from AL QUADISIYAH is 3937 families and in WASIT province 7342 families.

MNC-I CURRENT OPS WEEKLY OPERATIONAL ASSESSMENT

Declassified by: MG Michael X. Garrett,
USCENTCOM Chief of Staff
Declassified on: 201506

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Successful combined operations in Ramadi, Turki, and Baghdad demonstrate effectiveness of ISF to citizens and dismiss accusations of corruption and sectarian targeting.
- IP/NP Charges of Capitulation, Complicity in sectarian violence, and Lack of Trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

AIF Neutralized (Al Qaeda Out)

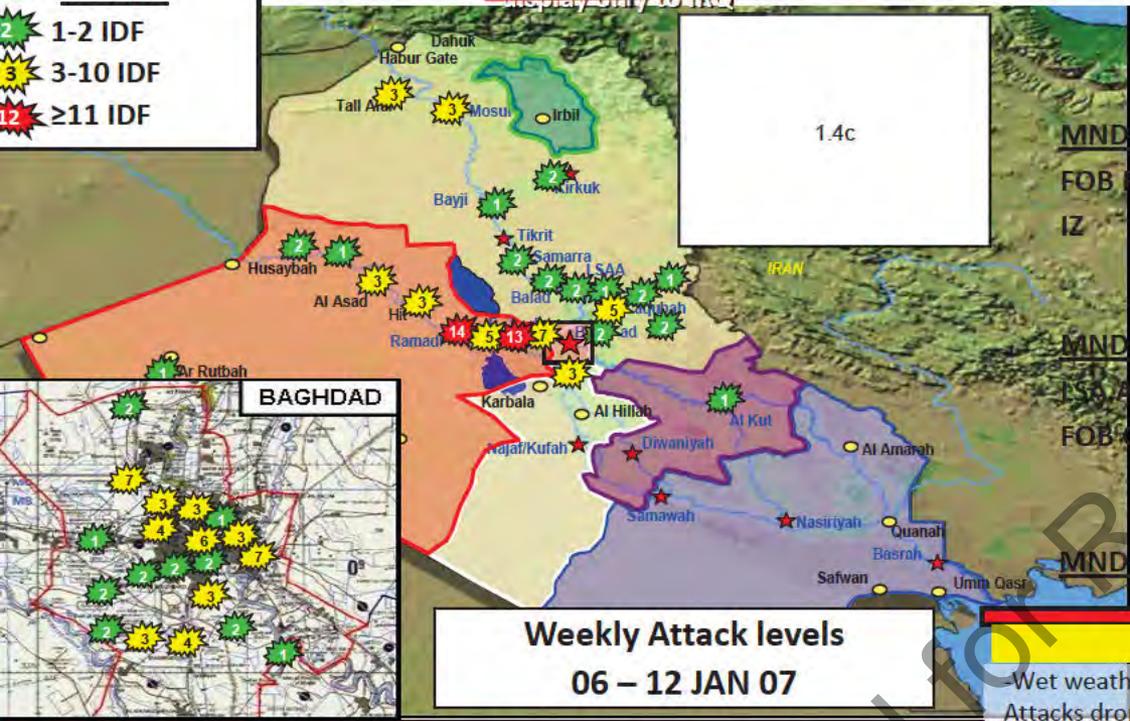

- Attacks **UP** (1000-1036), still **below the 12 Week Average**. Effectiveness rate (22%) **below the 12 Week Average** (26%).
- Battle Casualties **UP** by 8% (631-682) **below the 12 Week Average** (911).
Civilians **DOWN** 30% (429-359) **below the 12 Week Average**, ISF **UP** 88% (109-205) **above the 12 Week Average**. Coalition **UP** 27% (93-118) still **below the 12 Week Average**.
- IEDs **UP** 7% (521-560), **below the 12 Week Average**. 'F&C' Rate **DOWN** (46%-42%).
- EFPs **UP** (13), with 5 'F&C'. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the first week of an increase.
- VBIED Attacks **UP** by 1 to 17 with 3 'F&C'. Effectiveness percentage rate **DOWN**. Casualties per attack were **DOWN** at 12, **above the 12 Week Average**.
- Suicide Attacks **UP** (5) **below the 12 Week Average**. Vest type attacks SAME at 2.
- Attacks on civilians have been on a downward trend over last 8 weeks, with lower resulting casualties
- Although attacks against ISF have been consistent, resulting casualties have been on a downward trend, indicating improved TTPs increasing survivability by the ISF.

Support an Independent Iraq (Building Confidence)

- Public atmospherics remain mixed, but showing increased frustration with GoI security activities. Expectations for CF to improve security situation are high.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- Tribal tensions and violence continue with risk of undermining security efforts, particularly in Diyala and Salah Ad Din.

LAST WEEKS ASSESSMENT

Wet weather during the week reduced attack levels in every area except MNF-W. Attacks dropped from 197 to 158. In MND-B, JAM attacks on Sunni civilians shifted to Sa'ab al-Bour and Mahmudiyah. In the city, the reduced volume of attacks on civilians focused on Kadamiyah and Adhamiyah. In MNF-W, attacks on CF threatening AQIZ freedom of movement around Fallujah increased, while insurgents maintained resistance in Ramadi against familiar CF and ISF targets. In MND-N, attacks in Baqubah dropped sharply, but AQIZ sustained attacks throughout the rest of Diyala. IDF against Basrah FOBs decreased for a third week in a row.

NEXT WEEKS PROJECTION

Expect attacks to remain steady at 23-28 attacks per day for a total of 150 to 175 attacks for the week. Drops to 10-15 per day during rainy periods will be offset by surges when conditions improve. JAM attacks on CF will drop this week as JAM leaders likely restrict these attacks to retaliation for damaging CF operations. JAM focus on civilians will remain NW and S of Baghdad in the struggle for freedom of movement. Sunni Rejectionists will sustain attacks in Yusifiyah – Mahmudiyah and on Shia civilians who have displaced Sunnis in Mahmudiyah. In MNF-W, Ramadi and Fallujah remain the focus. In MND-N, Diyala attacks on CF, ISF and civilians will remain focused in the Baqubah-Muqtadiyah corridor. JAM in MND-SE will likely maintain a sustainable level of 2-4 IDF attacks per day.

NEUTRALIZE AIF

The overall security situation in AL QUADISIYAH province remains relatively tense. Recently the MND CS got a field message from US SF about a possible IED placed on Salem Street in Ad Diwaniyah as well as possible sniper activity IVO Salem Street. It has been seen that IED are placed in the evening and removed again in the morning. It is assessed that the insurgents in this JAM area protects their homes with IED for fear of ISF/CF incursions during the night. There have been no IED attacks in the last week!

The overall security situation WASIT Province has been tense but attacks within the WASIT Province remains low. The relative low activity may be a result of the recent detentions and the finding of a weapon cache. ISF are still in control over WASIT province. JAM financial situation are deterioration. It is assets that criminal activity will increase especially on civilian convoys.
