MNC-I CURRENT OPS WEEKLY OPERATIONAL ASSESSMENT

Declassified by: MG Michael X. Garrett,
USCENTCOM Chief of Staff
Declassified on: 201506

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Successful combined operations in Ramadi, Turki, and Baghdad demonstrate effectiveness of ISF to citizens and dismiss accusations of corruption and sectarian targeting.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

AIF Neutralized (Al Qaeda Out)

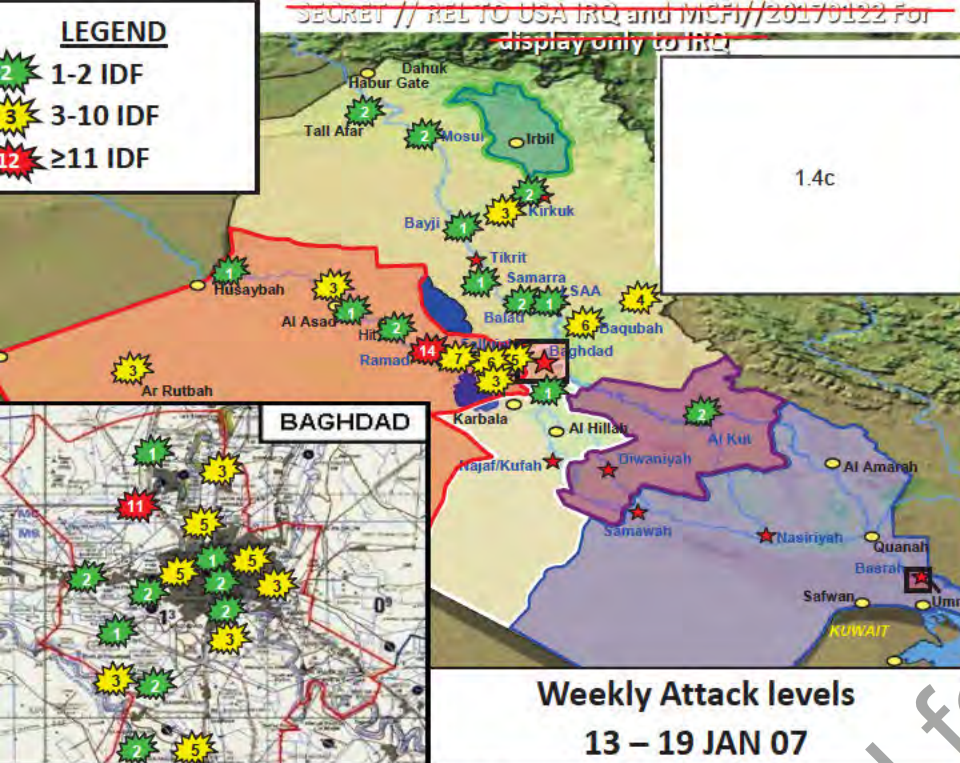

- Attacks **UP** (1036-1071), above the 12 Week Average. Effectiveness rate **DOWN** (22%-20%) and below the 12 Week Average (26%).
- Battle Casualties **UP** by 46% (682-994) above the 12 Week Average (911).
Civilians **UP** 93% (359-692) above the 12 Week Average, ISF **DOWN** 5% (204-193), still above the 12 Week Average.
Coalition **UP** 19% (118-141), above the 12 Week Average.
- IEDs **UP** 18% (564-663), above the 12 Week Average. 'F&C' Rate SAME (42%-42%).
- EFPs **DOWN** (13-12), with 3 'F&C'. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the first week of a decrease, but still high compared to 2 weeks ago (7 events).
- VBIED Attacks **UP** by 2 to 22 with 2 'F&C'. Effectiveness percentage rate **UP**. Casualties per attack were **UP** at 22.6, above the 12 Week Average.
- Suicide Attacks **UP** (6), still below the 12 Week Average. Vest type attacks **UP** (2-3).
- Attacks on civilians have been on a downward trend over last 9 weeks, but increasing over last two.
- Although attacks against ISF have been consistent, resulting casualties have been on a downward trend, indicating improved TTPs increasing survivability by the ISF.

Support an Independent Iraq (Building Confidence)

- Public atmospherics remain mixed, but showing increased frustration with GoI security activities. Expectations for CF to improve security situation are high.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- Tribal tensions and violence continue with risk of undermining security efforts, particularly in Diyala and Salah Ad Din.

LAST WEEKS ASSESSMENT

Overall attacks dropped slightly from 158 to 151. Baghdad IDF shifted away from CF to ISF, as the CF share of MND-B attacks dropped sharply from 68% to 54%. In MNF-W, attacks on CF threatening AQIZ freedom of movement around Fallujah continued, while insurgents maintained resistance in Ramadi against familiar CF and ISF targets. In MND-N, attacks in Baqubah and the Muqtadiyah corridor were sustained at a high level, though there were two incidents where CF destroyed IDF teams, with AIF losses totaling up to 10 KIA and 3 WIA. IDF against Basrah FOBs increased from 19 to 21, with a surge of 11 attacks on 18 and 19 JAN. The continued increased mortar use signals disrupted rocket supplies.

NEXT WEEKS PROJECTION

Expect attacks to remain steady at 20-25 attacks per dry day, with 10-15 on rainy days, for a total of 140 to 170 attacks for the week. JAM attacks on CF should remain lower this week as JAM leaders likely restrict these attacks to retaliation for especially damaging CF operations. In the wake of the 2x VBIED and 1x suicide vest attack on Shi'ites, JAM focus of IDF on civilians will continue, and possibly increase. In MNF-W, the Ramadi and Fallujah areas remain the focus. In MND-N, attacks on ISF and civilians will remain focused in Baqubah while CF will be the primary target of Sunni insurgent attacks in Salah ad Din. MND-SE will continue to see 2-4 mixed IDF attacks per day on Basrah FOBs.

GOVERNANCE

THE CITIZENS OF KADHIIMIAH ARE SAYING THAT PRIME MINISTER AL-MALIKI SHOULD GO ON PUBLIC TELEVISION FOR ONE HOUR TO ANSWER PHONE CALLS FROM THE IRAQI POPULACE. PEOPLE ARE TALKING ABOUT THE CORRUPTION IN THE GOVERNMENT AND HOW IT HAS SPREAD THROUGHOUT THE MOI, ESPECIALLY THE POLICE FORCE.

ECONOMICS (INFRASTRUCTURE AND BASIC SERVICES)

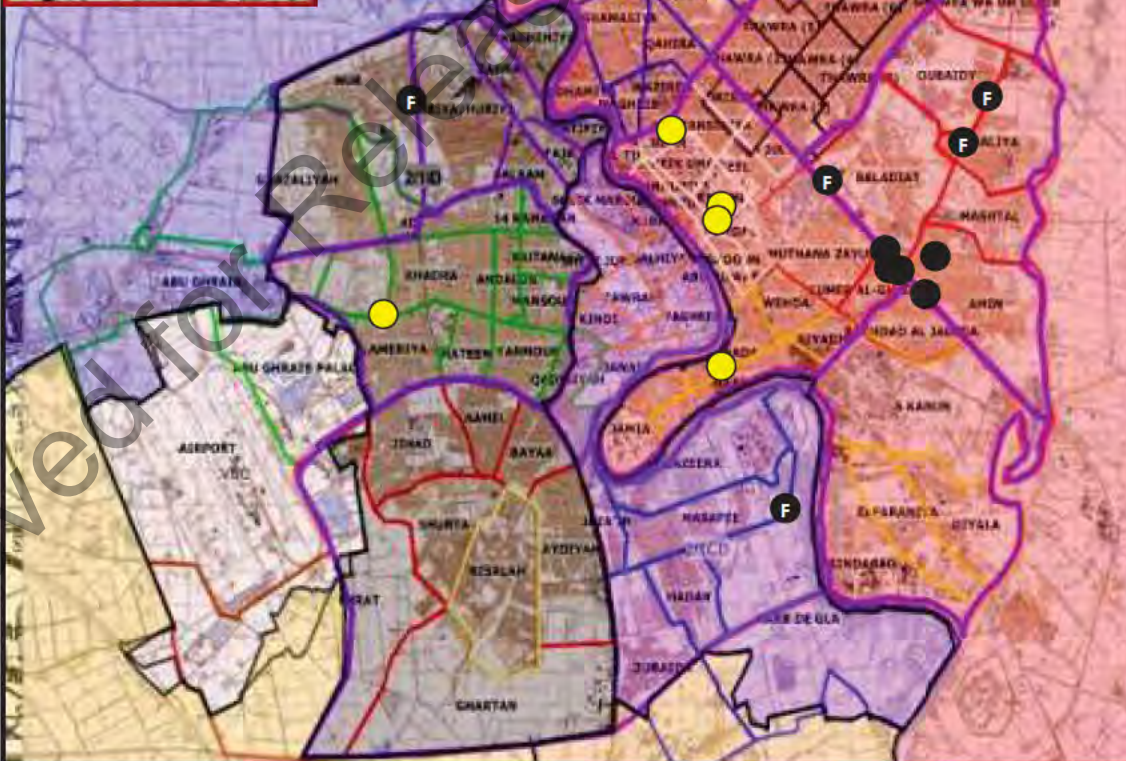

THE BIGGEST ISSUE IS THE LACK OF ELECTRICITY. ELECTRICITY SHORTAGES ARE CAUSING THE PEOPLE TO SUFFER AND THE GOVERNMENT HAS NOT REPAIRED THE DAMAGED LINES. SOME FAMILIES ARE HAVING TO BUY ELECTRICITY FROM THEIR NEIGHBORS.

COMMUNICATIONS

FOLLOWING THE CLASH BETWEEN CF AND JAM NEAR AL-TUWAITHA ON 24 JANUARY 07 AMERICAN OFFICERS SPOKE TO SUNNI TRIBAL LEADERS. THE LEADERS WERE PLEASED ABOUT THE ARRESTS OF JAM MEMBERS AND THAT THE AMERICANS WERE TALKING TO THEM. THE SHEIKHS TOLD THE AMERICANS THEY HOPED COALITION FORCES WOULD MAN ALL THE CHECKPOINTS BECAUSE THEY HAVE NO CONFIDENCE IN THE POLICE.

ENEMY SITUATION

THERE HAS BEEN A SIGNIFICANT INCREASE OF ATTACKS ON ROUTE CLEARANCE TEAMS WITHIN AO LIGHTNING. IN DIYALA, IED AND SMALL ARMS FIRE ATTACKS CONTINUE TO MAKE UP THE MAJORITY OF REPORTED INCIDENTS. IED'S MADE FROM PROPANE TANKS HAVE BEEN DISCOVERED ACROSS AO. IN KIRKUK, ACTIVITY AND REPORTING INDICATES CORRUPT SIB SOLDIERS WORKING WITH AIF. IN SAD, EXPECT AIF TO CONTINUE TO EMLACE OPERATIVES WITHIN THE SECURITY FORCES IN ORDER TO MAINTAIN CONTROL OF THEIR TERRITORIES. IN NINEWA INCREASED IED LETHALITY IS ATTRIBUTED TO THE GROWING AMOUNTS OF EXPLOSIVES IN THE IEDS AND BURIED EMLACEMENT OF THE IEDS.

WEEKLY SIGNIFICANT EVENTS

SECURITY & TRANSITION

THE DIJHLAH IPS STATION, IN SAMARRA, CONDUCTED AN INDEPENDENT RAID LAST WEEK AGAINST AN ILLEGAL CHECKPOINT THAT THE AIF HAD ESTABLISHED NORTH OF THE CITY. IBP:
The JARB packet has been approved and funded. The Alaskan for force protection should arrive by 31JAN07.
The Al Kut Police Academy is still shut down and is pending a new support/sustainment contract which is an Iraqi issue that should be solved on or about 25JAN07.

IP:
One of the main efforts in this week has been supporting the Attica prison with medical supplies and medical assistants. The PTT arranged transport for medics and supplies to the Prison.

IA:
Regarding the COS one of the problems in Suwayrah is that the militia is better armed than 3 BN/3 BDE, and often the IA units are outnumbered.

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Successful combined operations in Ramadi, Turki, and Baghdad demonstrate effectiveness of ISF to citizens and dismiss accusations of corruption and sectarian targeting.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

AIF Neutralized (Al Qaeda Out)

- Attacks **UP** (1071-1097), above the 12 Week Average. Effectiveness rate **UP** (20%-25%) and above the 12 Week Average (24%).
- Battle Casualties **UP** by 16% (995-1151) above the 12 Week Average (950). Civilians **UP** 10% (693-759) above the 12 Week Average, ISF **UP** 17% (160-187), above the 12 Week Average. Coalition **UP** 44% (142-205), above the 12 Week Average.
- IEDs **UP** 4% (663-693), above the 12 Week Average. 'F&C' Rate **UP** (42%-45%).
- EFPs **DOWN** (13-10), with 5 'F&C'. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the second week of a decrease.
- VBIED Attacks **DOWN** by 3 to 19 with 2 'F&C'. Effectiveness percentage rate **DOWN**. Casualties per attack were **DOWN** at 20.2, above the 12 Week Average.
- Suicide Attacks **UP** (6-7), still below the 12 Week Average. Vest type attacks SAME (3).
- Attacks on civilians have been on a downward trend over last 9 weeks, but increasing over last three.
- Although attacks against ISF have been consistent, resulting casualties have been on a downward trend, indicating improved TTPs increasing survivability by the ISF.

Support an Independent Iraq (Building Confidence)

- Public atmospherics remain mixed, but showing increased frustration with GoI security activities. Expectations for CF to improve security situation are high.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- Tribal tensions and violence continue with risk of undermining security efforts, particularly in Diyala and Salah Ad Din.

ENEMY SITUATION

IN DIYALA, DANGEROUS TTP'S LIKE PROPANE TANK IED'S, EFP'S AND AT MINES WILL CONTINUE TO SPREAD THE AO WHILE AIF KEEP UP THEIR ATTEMPTS TO BREACH OUR ARMOR. IN SAD, AN INFLUX OF FIGHTERS FROM THE WEST AND THE SOUTH WILL CONTINUE TO REINFORCE EXISTING AIF, THESE FIGHTERS WILL BRING MANPOWER AS WELL AS DIFFERENT TTPS. IN KIRKUK, RECENT REPORTING INDICATES THAT BA'ATH PARTY AND AQIZ IN HAWIJA MERGED AND ARE LIKELY OPERATING UNDER THE NAME OF ISI. IN NINEWA, AIF WILL FOCUS ATTACKS AGAINST ISF AND THESE ATTACKS WILL BE DELIBERATE, COORDINATED AND MOST LIKELY ON THE EAST SIDE IN RETALIATION TO IP STATIONS NOT COOPERATING WITH AIF.

WEEKLY SIGNIFICANT EVENTS

- 1 COORDINATED ATTACK IN KIRKUK CITY, THREE IED'S AND SEVEN VBIED ATTACKS CAUSING 1 CIV KILLED AND 18 CIV INJURED ON 03 FEB.
- 2 IP STATION WAS OVERRUN BY AIF, 1-2/3 IA RESPONDED AND KILLED 4X AIF, DETAINED 22X AIF. CORRUPT MAYOR, IP CHIEF AND IPS WERE ARRESTED BY IA IVO TAL AFAR ON 05 FEB.
- 3 OP EMERYVILLE, B/1-505 AND 2/4 IA CAPTURED 12X AIF FROM BUJWARI IED CELL AND FOUND/CLEARED CACHE IVO BAYJI ON 07 FEB.
- 4 2/2 IA DETAINED TWO INDIVIDUALS, WHO REVEALED A LARGE CACHE AND LED TO A RAID AND DETENTION OF 6X AIF TO INCLUDE THE CELL LEADER IVO MOSUL ON 07 FEB.
- 5 IED RIGGED HOUSE SUSPECTED TO BE CACHE SITE RESULTED IN 3X CF KIA AND 6X CF WIA IVO BAQUBAH ON 09 FEB.

CURRENT ASSESSMENT

SECURITY & TRANSITION

-3IA CONDUCTED A CORDON AND SEARCH OF MUHALLABIYAH IVO TAL AFAR IN ORDER TO STABILIZE THE POPULACE OF THE CITY ON 5 FEB.

COMMUNICATIONS

-IA IN CONJUNCTION WITH /2-7 & EOD CONDUCTED A SEARCH OF A PHOTO SHOP. ITEMS IN THIS CACHE INCLUDED 2 X MORTAR TUBES, 7 X 120MM, 2 X PIPE BOMBS, 1 X BAG OF FUSES, 2 X AMMO CANS, AND VARIOUS IED MAKING MATERIAL.

GOVERNANCE

-DIYALA DETENTION SUMMIT-A SMALL STEP FORWARD IN RULE OF LAW IN DIYALA PROVINCE. A DETENTION PROCEDURES WORKSHOP IN BAQUBAH ATTENDED BY INVESTIGATIVE JUDGES AND IP INTERROGATORS, GREW INTO A DETENTION SUMMIT WITH THE UNEXPECTED ATTENDANCE OF GOVERNOR RAAD AND A SENIOR MOI REP.

ECONOMICS

-THE PERMANENT POE CLOSURE AT MUNTHERIA AND PARWEEZ KHAN CONTINUES TO BE A MAJOR CONCERN AS TO THE EFFECTS IT WILL HAVE ON THE KHANAQIN AREA. ATMOSPHERICS INDICATE THAT THE ECONOMIC RAMIFICATIONS OF A PERMANENT CLOSURE TO THESE POES WILL BE FELT DEEPLY BY THE LOCAL PEOPLE LIVING IN THE AREA FAR MORE THAN IT WILL BE FELT BY THOSE IN THE CENTRAL GOVERNMENT LIVING IN BAGHDAD.

Current Situation. A significant reduction in IDF attacks this week was marred by a single attack at BP on Fri 9 Feb, resulting in (10) CF Cas and (1) LN Cas. C-IDF surge ops continue to be central in our efforts with more planned C2 triggered ops. Basrahris continue to turn against IDF teams with maximum use of PSYOPS to highlight the extent of collateral damage. Two IEDs have caused 2 MNF KIA.

Building an Independent Iraq.

IA continue to carry out independent operations. Op SINBAD Pulse 17/18 was entirely IA led with full support from the Iraqi Traffic Police and IPS.

Capability of the ISF. Increasing confidence in the IA to coordinate large ops, although concern remains over IPS reliability due to latent SCU influence. Formation of the new, screened BCU gives some cause for optimism.

Atmospherics.

- Basra: Indications that local populace are becoming increasingly anti-AIF, and increasingly reporting IDF team activity to MNF.
- Cooperation with local Govt and the ISF returned to normality.
- Maysaan: new PDoP ensuring equilibrium and stability.
- Dhi Qar: NSTR.
- Al Muthanna: NSTR.

Neutralizing the AIF. Tempo of Raid Ops to neutralize AIF continue, with further ops planned.

SIGNIFICANT EVENTS OF THE WEEK

- 1 • Op SALVADOR – 6 Feb 07 – Search Op targeting IDF team – 4 AIF Det.
- 2 • Op OXO – 6 Feb 07 – Search Op for AIF and Arms Cache – 6 AIF Det.
- 3 • Op SINBAD Pulse 17/18 – 6-8 Feb 07.

CURRENT ASSESSMENT

MNF Raid Ops continue to keep us on the front foot, denying MJAM the freedom of movement they need and targeting key team members. The level of IDF attacks reduced significantly against January levels.

CURRENT/FUTURE OPS

Current Ops: Ops in support of Hostages Release, Op TACHBROOK and Op VEDETTE.

Future Ops: Ops SHANGHAI, NEWQUAY, FISHER II and SADDLERS – all C2-initiated.

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

AIF Neutralized (Al Qaeda Out)

- Attacks **DOWN** (1121-1040), above the 12 Week Average. Effectiveness rate **DOWN** (22%-21%) and below the 12 Week Average (24%).
- Battle Casualties **DOWN** by 11% (1357-1204) above the 12 Week Average (964).
Civilians **DOWN** 7% (954-883) above the 12 Week Average, ISF **DOWN** 25% (240-180), above the 12 Week Average.
Coalition **DOWN** 13% (163-141), below the 12 Week Average.
- IEDs **DOWN** 13% (699-610), below the 12 Week Average. 'F&C' Rate **UP** (45%-48%).
- EFPs **UP** (7-11), with 1 'F&C'. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the first week of an increase.
- VBIED Attacks **DOWN** by 1 to 34 with 5 'F&C'. Effectiveness percentage rate **UP**. Casualties per attack were **UP** at 16.2, above the 12 Week Average.
- Suicide Attacks **DOWN** (13-6), below the 12 Week Average. Vest type attacks **UP** (3-9).
- Attacks on civilians have been increasing over the last six weeks, though steady over last two.
- Attacks against ISF have been very consistent since July. Resulting casualties had been decreasing over the last 20 weeks, but have been fluctuating recently.

Current Situation. Search and Detain ops have continued through the week. Op TROY (part of country wide surge op) and Op TOKYO (POE closure op) have further constrained AIF activities. Further search and detain ops are being conducted (in conjunction with ISOF) within in the surge ops matrix. AIF kinetic reaction is being robustly countered with only 2 CF WIA but an estimated 3 AIF KIA and at least 6 AIF WIA. Phased array EFP attack on the C-130 demonstrate a continued innovative and offensive approach by the opposition.

Building an Independent Iraq.

Continued financial investment in medium term infrastructure projects following on from Op SINBAD.

Capability of the ISF. Increasing confidence in the IA to coordinate large ops (preparations for Baghdad deployment in Besmayah and robust reaction to attack on Op TROY), although concern remains over IPS reliability due to latent SCU influence. Formation of the new, screened BCU gives some cause for optimism.

Atmospherics.

- Basra: Indications that local populace are becoming increasingly anti-AIF, there is popular support for both cordon & detain ops and the heightened security provided by Op TROY.
- Maysaan: New PDoP ensuring equilibrium and stability although Al Amarah remains tense due to JAM fears of MNF attack and the presence of key players who have 'fled' the surge ops in Baghdad and Basrah.
- Dhi Qar: NSTR.
- Al Muthanna: NSTR.

Neutralizing the AIF. Tempo of Raid Ops to neutralize AIF continue, with further ops planned.

SIGNIFICANT EVENTS OF THE WEEK

- 1 • IED strike on C-130 (Op FARENHEIT – a/c destruction)
- Ops SADDLERS, CARDIFF 2, SADDLERS 2, CARSLISLE and PEGASUS – 5 detainees + munitions

CURRENT ASSESSMENT

MNF Raid Ops continue to keep us on the front foot, denying MJAM the freedom of movement they need and targeting key team members. The level of IDF attacks reduced significantly against January levels.

CURRENT/FUTURE OPS

Current Ops: Ops in support of Hostages Release, Op TACHBROOK, VEDETTE, TROY & TOKYO.

Future Ops: Ops SHANGHAI & RAMIN – all C2-initiated.

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

AIF Neutralized (Al Qaeda Out)

- Attacks **UP** (1046-1088), above the 12 Week Average. Effectiveness rate **DOWN** (21%-20%) and below the 12 Week Average (24%).
- Battle Casualties **DOWN** by 18% (1206-985), still above the 12 Week Average (968). Civilians **DOWN** 22% (884-689) above the 12 Week Average, ISF **UP** 17% (189-222), above the 12 Week Average. Coalition SAME (142), below the 12 Week Average.
- IEDs **UP** 15% (612-701), above the 12 Week Average. 'F&C' Rate SAME (48%).
- EFPs **DOWN** (12-3), with 2 'F&C'. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the first week of a decrease.
- VBIED Attacks **DOWN** by 4 to 30 with 5 'F&C'. Casualties per attack were **DOWN** at 17.7, above the 12 Week Average.
- Suicide Attacks **UP** (6-10), above the 12 Week Average. Vest type attacks **DOWN** (3-2).
- Attacks on civilians dropped to 88, after 5 weeks of increasing attacks that peaked at 121 last week.
- Attacks against ISF have been very consistent since July, though this reporting period was an all-time high by a small margin. Resulting casualties had been decreasing over the last 20 weeks, but have been fluctuating recently. Currently in our second consecutive week of decreasing casualties.

Support an Independent Iraq (Building Confidence)

- Atmospherics in Baghdad indicate the population supports the surge operations, and are hopeful. The citizens are pleased about Prime Minister Maliki's pledge to return the homes and property of displaced Iraq people.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- There appears to be a growing rejection of AIF in MNF-W with Sunni tribes, and they have become more active recently in support of ISF recruitment and operations.

GOVERNANCE

THE CITIZENS OF KARADAH ARE FRUSTRATED WITH THE GOVERNMENT ACCUSING THEM OF BEING SECTARIAN IN NATURE AND SUPPORTING THE MILITIAS. THE GOI ALSO ACCUSES THEM OF NOT CARING ABOUT THE IRAQI PEOPLE. CITIZENS SAY THAT IF THE GOI CARED THEY WOULD DO EVERYTHING IN THEIR POWER TO PREVENT A WOMAN FROM BEING DETAINED AND RAPED BY THE ISF. THE PRIME MINISTER'S DENIAL OF THE RAPE ACCUSATION AGAINST THE ISF ON TV CREATES THE APPEARANCE THAT HE IS AGAINST THE CITIZENS AND FULLY SUPPORTS ALL LEGAL AND ILLEGAL ACTIONS OF THE ISF.

ECONOMICS (INFRASTRUCTURE AND BASIC SERVICES)

THE IRAQI GOVERNMENT IS MAKING AN EFFORT TO CLEAN AND BEAUTIFY THE STREETS OF IRAQ IN CONJUNCTION WITH SECURITY OPERATIONS. NEW TREES ARE BEING PLANTED AND DAMAGED STREETS, MEDIANS AND SIDEWALKS ARE BEING REFURBISHED. COMMUNICATIONS

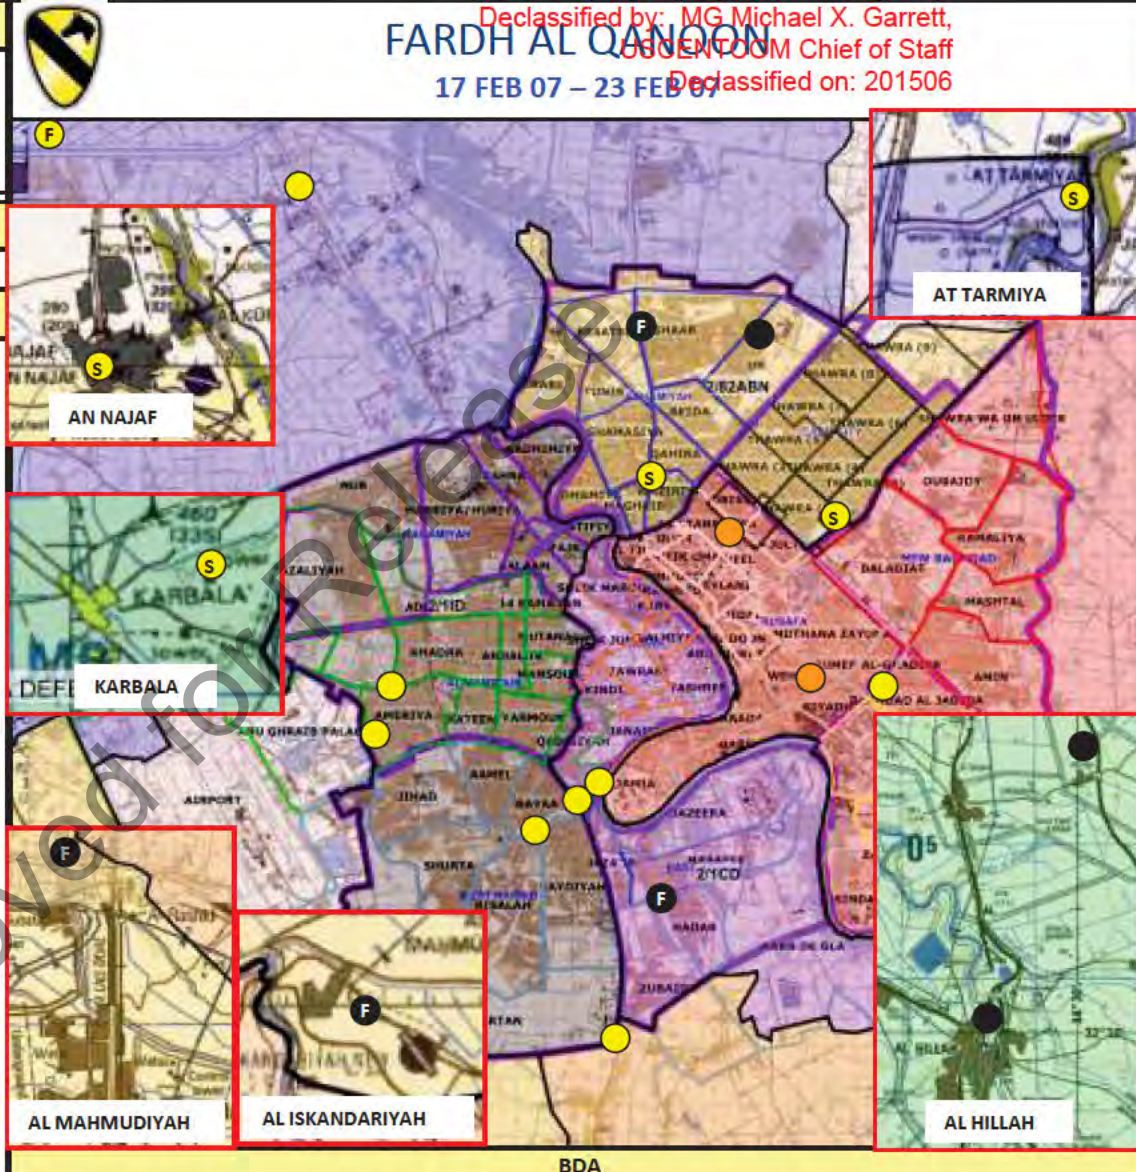

PEOPLE ARE VERY DISAPPOINTED WITH THE GOVERNMENT FOR ALLOWING THE MEDIA TO BROADCAST THE RAPE STORY ON TV. IT IS DISGRACEFUL THAT THE WOMAN CAME ON TV TO TELEVIEW THAT THE ISF RAPED HER. IN THE IRAQI CULTURE IT IS SHAMEFUL TO PUBLISH A STORY LIKE THAT ON TV. THE COUNTRY HAS MORE IMPORTANT THINGS TO WORRY ABOUT, PARTICULARLY WHEN IT PERTAINS TO THE BAGHDAD SECURITY PLAN AND THE IRAQI ECONOMY.

Current Situation. Search and detain ops in Basrah continue to pressure AIF. JAM have found their position in the community marginalised. In frustration they have sought to intimidate Provincial Council members and MNF LECs. Recently they have taken tribal members hostage.

Activities in Maysaan portray an increasingly bold and innovative AIF grouping (MANPAD attk on MERLIN, 29 x 120MM Mor IDF on FOB CONDOR).

Building an Independent Iraq.

Continued financial investment in medium term infrastructure projects following on from Op SINBAD.

Capability of the ISF. Continue to gain operational depth of experience. 3/4/10 now in FOB AL RASHEED, 2/3/10 now in FOB HOPE pending operations.

Atmospherics.

- Basra: JAM have been further marginalised by population. This, plus loss of C² cohesion, has resulted in a change of TTPs (intimidation and kidnapping).

- Maysaan: New PDoP ensuring equilibrium and stability although Al Amarah remains tense due to JAM fears of MNF attack and the presence of key players who have 'fled' the surge ops in Baghdad and Basrah.

- Dhi Qar: NSTR.

- Al Muthanna: Tension as a result of robust and clear action by PDoP, Col Ali. JAM have restrained from offensive action despite bold patrolling into JAM strongholds by IPS (indicates ISF hold the upper hand at present).

Neutralizing the AIF. Tempo of Raid Ops to neutralize AIF continue, with further ops planned.

SIGNIFICANT EVENTS OF THE WEEK

- 1 • MANPAD attack on MERLIN
- 2 • 105MM C-IDF fire actioned.
- 3 • Op PORTO 3 – Key MJAM player detained.
- 4 • 29 x 120MM IDF attack on Camp CONDOR

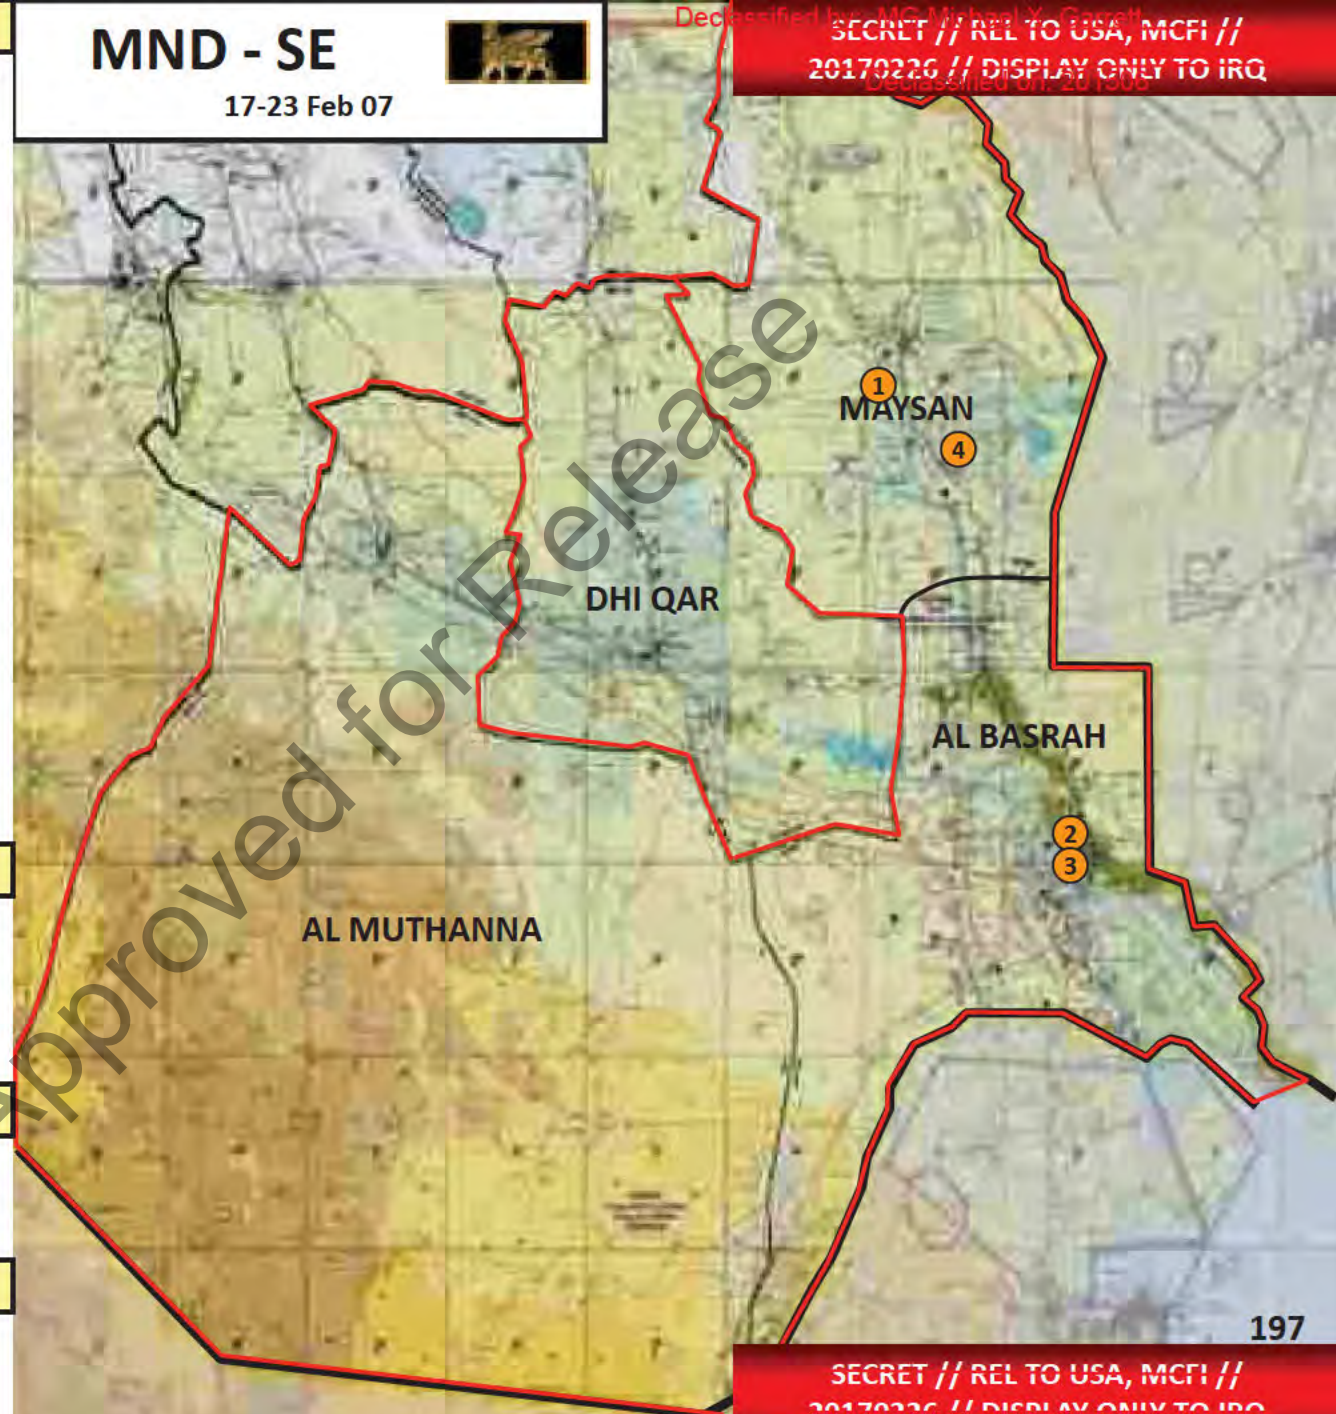

CURRENT ASSESSMENT

MNF Raid Ops continue to deny MJAM the freedom of movement and continuity of C². The increased availability of C-IDF assets (TUAV, 105MM Gun, JAVELIN) will now ensure swift and robust response.

CURRENT/FUTURE OPS

Current Ops: Ops in support of Hostages Release, Op TACHBROOK, VEDETTE & TOKYO.

Future Ops: 5 x Search & Detain Ops – all C2-initiated.

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Building of ISF in Baghdad continues.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

AIF Neutralized (Al Qaeda Out)

- Attacks SAME (1098-1094), above the 12 Week Average. Effectiveness rate SAME (20%) and below the 12 Week Average (24%).
- Battle Casualties **DOWN** by 1% (995-986), still above the 12 Week Average (973). Civilians **DOWN** 22% (697-599) below the 12 Week Average, ISF **UP** 17% (154-219), above the 12 Week Average. Coalition **UP** (144-168), above the 12 Week Average.
- IEDs **DOWN** 10% (707-639), above the 12 Week Average. 'F&C' Rate **UP** (48%-49%).
- EFPs **UP** (3-6), with 2 'F&C'. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the first week of an increase, but last two weeks have been lower than previous 18 weeks.
- VBIED Attacks **DOWN** from 30 to 25, with 4 'F&C'. Casualties per attack were **DOWN** at 16.3, at the 12 Week Average.
- Suicide Attacks **DOWN** (10-9), above the 12 Week Average. Vest type attacks SAME (2).
- Attacks on civilians dropped to 72, after 5 weeks of high levels of attacks that peaked at 121.
- Overall attacks remained unchanged, but attacks in MND-B and MND-N dropped by 7% and 11%, respectively. Attacks in MNF-W were up by 48%, due to a high level of attacks against CF; primarily SAF.

Support an Independent Iraq (Building Confidence)

- Atmospherics in Baghdad indicate the population supports the surge operations, and are hopeful. The citizens are pleased about Prime Minister Maliki's pledge to return the homes and property of displaced Iraq people.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- There appears to be a growing rejection of AIF in MNF-W with Sunni tribes, and they have become more active recently in support of ISF recruitment and operations.

WEEKLY OPERATIONAL ASSESSMENT

USCENTCOM Chief of Staff
Declassified on: 201506

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence growing in areas outside of Baghdad, and the city itself is showing positive signs. Building of ISF in Baghdad continues, with significant progress over the last week.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and logistical shortcomings continue to undermine the ISF's ability to internally support operations; dependant on CF for most items (supplies, equip, fuel). Particular problems exist for the DBE with fuel shortages, and availability and maintenance of scanners in MND-CS and MND-SE; daily supplies (fuel, ammunition) are challenges with the IA.

AIF Neutralized (Al Qaeda Out)

- Attacks **DOWN** by 6% (1112-1046), at the 12 Week Average. Effectiveness rate SAME (21%) and at the 12 Week Average.
- Battle Casualties **DOWN** by 4% (989-954), below the 12 Week Average (970).
Civilians **DOWN** 6% (600-565) below the 12 Week Average, ISF **UP** 21% (219-266), above the 12 Week Average. Coalition **DOWN** (170-123), below the 12 Week Average.
- IEDs **UP** 12% (646-726), above the 12 Week Average. 'F&C' Rate **UP** (49%-51%).
- EFPs **UP** (6-10), with 5 'F&C'. This is the second week of an increase, but last two weeks have been lower than previous 18 weeks.
- VBIED events **UP** from 29 to 34, with 7 'F&C'. Casualties per attack were **DOWN** at 10.0, below the 12 Week Average.
- Suicide Attacks **UP** (9-14), above the 12 Week Average. Vest type attacks **UP** (2-3).
- Attacks on civilians were up to 95, but casualties dropped for the 4th week in a row.
- Several operations were successful in disrupting EFP and fertilizer-based IED operations during the reporting period.

Support an Independent Iraq (Building Confidence)

- Atmospherics in Baghdad indicate the population supports the surge operations, and are hopeful. Recent experiences in Sadr City, as well as progress made in securing key markets in Rusafa which was met with a positive response from LNs, indicate many civilians and their leaders support the efforts.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the AOR.
- There appears to be a growing rejection of AIF in MNF-W with Sunni tribes, and they have become more active recently in support of ISF recruitment and operations.

GOVERNANCE

ALL SECTS IN ZAFARANIYAH VIEW THE GOVERNMENT AS WEAK, SECTARIAN, AND A FAILURE IN SERVING THE PEOPLE. THE CITIZENS ARE EXPECTING AND HOPING FOR THE GOVERNMENT TO FALL. THEY WOULD PREFER THE AMERICANS OR IYAD ALLAWI TO BE IN CHARGE OF THE GOVERNMENT. ZAFARNIYAH CITIZENS WANT A STRONG, NON-SECTARIAN GOVERNMENT THAT DISMANTLES THE MILITIAS.

ECONOMICS (INFRASTRUCTURE AND BASIC SERVICES)

THE CITIZENS OF NEW BAGHDAD ARE COMPLAINING ABOUT ESSENTIAL SERVICES. THEY CHAFF ABOUT HOW HARD IT IS FOR THE IRAQI GOVERNMENT TO PROVIDE ELECTRICITY, CLEAN WATER, AND BARE ESSENTIAL SERVICES FOR LIFE IN IRAQ. THE CITIZENS ARE ASKING WHY IS IT HARD TO PROVIDE FOR THE IMPORTANT LIFE ESSENTIALS IN AN OIL RICH COUNTRY.

COMMUNICATIONS

THE RECENT ATTACK ON PILGRIMS TRAVELING FROM HILLAH TO KARBALA IS THE MAIN TOPIC OF DISCUSSION ON THE STREETS OF HILLAH THIS WEEK. APPROXIMATELY 130 PILGRIMS JOURNEYING THROUGH HILLAH EN ROUTE TO THE HOLY CITY OF KARBALA WERE REPORTED KILLED WITH MULTIPLE INJURIES. RESIDENTS ARE SAYING THIS WAS A HEARTBREAKING EVENT. WEEKLY OPERATIONAL ASSESSMENT

Declassified by: MG Michael X. Garrett,
USCENTCOM Chief of Staff
Declassified on: 201506

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence growing in areas outside of Baghdad, and the city itself is showing positive signs. Building of ISF in Baghdad continues, with significant progress over the last week.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and logistical shortcomings continue to undermine the ISF's ability to internally support operations; dependant on CF for most items (supplies, equip, fuel). Particular problems exist for the DBE with fuel shortages, and availability and maintenance of scanners in MND-CS and MND-SE; daily supplies (fuel, ammunition) are challenges with the IA.

AIF Neutralized (Al Qaeda Out)

- Attacks **DOWN** by 6% (1063-918), below the 12 Week Average. Effectiveness rate SAME (22%) and at the 12 Week Average.
- Battle Casualties **UP** by 11% (981-1088), above the 12 Week Average (977). Civilians **UP** 35% (574-774) above the 12 Week Average, ISF **DOWN** 38% (279-174), below the 12 Week Average. Coalition **UP** (128-140), below the 12 Week Average.
- IEDs **DOWN** 14% (746-640), above the 12 Week Average. 'F&C' Rate **DOWN** (51%-50%).
- EFPs **DOWN** (13-8), with 5 'F&C'.
- VBIED events **DOWN** from 34 to 27, with 9 'F&C'. Casualties per attack were **UP** at 13.4, below the 12 Week Average.
- Suicide Attacks **DOWN** (14-10), above the 12 Week Average. Vest type attacks **UP** (3-4).
- 6 large-scale civilian attacks accounted for 511 of 774 casualties.

Support an Independent Iraq (Building Confidence)

- Atmospherics in Baghdad indicate the population supports the surge operations, and are hopeful. Recent experiences in Sadr City, as well as progress made in securing key markets in Rusafa which was met with a positive response from LNs, indicate many civilians and their leaders support the efforts.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the AOR.
- There appears to be a growing rejection of AIF in MNF-W with Sunni tribes, and they have become more active recently in support of ISF recruitment and operations. There are some indications this rejection of AQI by tribes is also occurring in Ninewa Province.

- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the AOR.
- There appears to be a growing rejection of AIF in MNF-W with Sunni tribes, and they have become more active recently in support of ISF recruitment and operations. There are some indications this rejection of AQI by tribes is also occurring in Ninewa Province.
