MNC-I CURRENT OPS
WEEKLY OPERATIONAL ASSESSMENT

Capable ISF (ISF Increasingly in Lead)
- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Successful combined operations in Ramadi, Turki, and Baghdad demonstrate effectiveness of ISF to citizens and dismiss accusations of corruption and sectarian targeting.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

AIF Neutralized (Al Qaeda Out)
- Attacks UP (1036-1071), above the 12 Week Average. Effectiveness rate DOWN (22%-20%) and below the 12 Week Average (26%).
- Battle Casualties UP by 46% (682-994) above the 12 Week Average (911).
- Civilians UP 93% (359-692) above the 12 Week Average, ISF DOWN 5% (204-193), still above the 12 Week Average. Coalition UP 19% (118-141), above the 12 Week Average.
- IEDs UP 18% (564-663), above the 12 Week Average. ‘F&C’ Rate SAME (42%-42%).
- EFPS DOWN (13-12), with 3 ‘F&C’. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the first week of a decrease, but still high compared to 2 weeks ago (7 events).
- VBIED Attacks UP by 2 to 22 with 2 ‘F&C’. Effectiveness percentage rate UP. Casualties per attack were UP at 22.6, above the 12 Week Average.
- Suicide Attacks UP (6), still below the 12 Week Average. Vest type attacks UP (2-3).
- Attacks on civilians have been on a downward trend over last 9 weeks, but increasing over last two.
- Although attacks against ISF have been consistent, resulting casualties have been on a downward trend, indicating improved TTPs increasing survivability by the ISF.

Support an Independent Iraq (Building Confidence)
- Public atmospherics remain mixed, but showing increased frustration with GoI security activities. Expectations for CF to improve security situation are high.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- Tribal tensions and violence continue with risk of undermining security efforts, particularly in Diyala and Salah Ad Din.

#### Previous 4 weeks (23 DEC - 19 JAN 07)

- Overall attacks dropped slightly from 158 to 151. Baghdad IDF shifted away from CF to ISF, as the CF share of MND-B attacks dropped sharply from 68% to 54%. In MND-W, attacks on CF threatening AQIZ freedom of movement around Fallujah continued, while insurgents maintained resistance in Ramadi against familiar CF and ISF targets. In MND-N, attacks in Baqubah and the Muqtadiyah corridor were sustained at a high level, though there were two incidents where CF destroyed IDF teams, with AIF losses totaling up to 10 KIA and 3 WIA. IDF against Basrah FOBs increased from 19 to 21, with a surge of 11 attacks on 18 and 19 JAN. The continued increased mortar use signals disrupted rocket supplies.

#### Next Week's Projection

- Expect attacks to remain steady at 20-25 attacks per dry day, with 10-15 on rainy days, for a total of 140 to 170 attacks for the week. JAM attacks on CF should remain lower this week as JAM leaders likely restrict these attacks to retaliation for especially damaging CF operations. In the wake of the 2x VBIED and 1x suicide vest attack on Shi'ites, JAM focus of IDF on civilians will continue, and possibly increase. In MND-W, the Ramadi and Fallujah areas remain the focus. In MND-N, attacks on ISF and civilians will remain focused in Baqubah while CF will be the primary target of Sunni insurgent attacks in Salah ad Din. MND-SE will continue to see 2-4 mixed IDF attacks per day on Basrah FOBs.

GOVERNANCE
THE CITIZENS OF KADHIMIYAH ARE SAYING THAT PRIME MINISTER AL-MALIKI SHOULD GO ON PUBLIC TELEVISION FOR ONE HOUR TO ANSWER PHONE CALLS FROM THE IRAQI POPULACE. PEOPLE ARE TALKING ABOUT THE CORRUPTION IN THE GOVERNMENT AND HOW IT HAS SPREAD THROUGHOUT THE MOI, ESPECIALLY THE POLICE FORCE.

ECONOMICS (INFRASTRUCTURE AND BASIC SERVICES)
THE BIGGEST ISSUE IS THE LACK OF ELECTRICITY. ELECTRICITY SHORTAGES ARE CAUSING THE PEOPLE TO SUFER AND THE GOVERNMENT HAS NOT REPAIRED THE DAMAGED LINES. SOME FAMILIES ARE HAVING TO BUY ELECTRICITY FROM THEIR NEIGHBORS.

COMMUNICATIONS
FOLLOWING THE CLASH BETWEEN CF AND JAM NEAR AL-TUWAITHA ON 24 JANUARY 07 AMERICAN OFFICERS SPOKE TO SUNNI TRIBAL LEADERS. THE LEADERS WERE PLEASED ABOUT THE ARRESTS OF JAM MEMBERS AND THAT THE AMERICANS WERE TALKING TO THEM. THE SHEIKHS TOLD THE AMERICANS THEY HOPED COALITION FORCES WOULD MAN ALL THE CHECKPOINTS BECAUSE THEY HAVE NO CONFIDENCE IN THE POLICE.

ENEMY SITUATION

There has been a significant increase of attacks on route clearance teams within AO lightning. In Diyala, IED and Small Arms Fire attacks continue to make up the majority of reported incidents. IED's made from propane tanks have been discovered across AO. In Kirkuk, activity and reporting indicates corrupt SIB soldiers working with aif. In sadi, expect aif to continue to place operatives within the security forces in order to maintain control of their territories. In Nineva, increased IED lethality is attributed to the growing amounts of explosives in the IEDs and buried emplacement of the IEDs.

WEEKLY SIGNIFICANT EVENTS

1. Downed Uh-60 Ivo Kaini Ban in Saad on 20 Jan, resulting in 22 Coalition Forces KIA. AIF set fire to an oil well, tied up SIB soldiers and stole their weapons, ammo and radios Ivo Kirkuk on 21 Jan.
2. IED attack on Coalition Forces IVO Mosul resulting in 1 CF KIA, 7 CF WIA on 22 Jan.
3. VBED attack on the youth union of the KDP IVO Mosul resulting in 25 Civ. injured on 23 Jan.
4. SIB soldiers emplace IEDs, facilitate weapons trafficking, provide an early warning network for aif, siphoning and smuggling oil, and sabotaging the oil pipeline. There have been three attacks on the oil pipeline Ivo Kirkuk from 11-19 January, with evidence pointing to corrupt SIB soldiers.

CURRENT ASSESSMENT

SECURITY & TRANSITION

The Duhlah IPS station, in Samarra, conducted an independent raid last week against an illegal checkpoint that the aif had established north of the city. The positive development in this case is that these IPS developed the intel on their own, conducted their own planning, and executed with zero CF support.

COMMUNICATION

SAD TV has begun broadcasting stories highlighting the successes of ISF forces without any CF encouragement.

GOVERNANCE

The MCC continues to improve overall efficiency, and the defense attorneys have ended their boycott.

ECONOMICS

Essential services. USACE, Gulf Region north awarded the first contract that will begin the construction of four of the twenty-four planned 6-classroom schools in Nineva Province. The construction of the twenty-four schools will bring classrooms to Mosul, Tal'affar and outlying villages.

CURRENT SITUATION

Current Situation. Reduction in number and intensity of IDF and DF attacks. Increased tempo in MNF strike ops against IDF teams combined with reports that BasrahIs are increasingly turning against IDF teams are putting MNF on front foot.

Building an Independent Iraq.
- IA continue to carry out Independent operations, building on success of Op SINBAD with Op SCORPION STING, an IA-led cordon and search op to increase security.

Capability of the ISF. Increasing confidence in IA to coordinate large ops. Continued concern over IPS reliability due to latent SCU influence, although formation of the new, screened BCU gives some cause for optimism.

Atmospheres:
- Basra: Indications that local populace are becoming increasingly anti-AIF, and increasingly reporting IDF team activity to MNF.
- Cooperation with local Govt and the ISF returned to normality.
- Maysan: NSTR.
- Dhi Qar: NSTR.
- Al Muthanna: NSTR.

Neutralizing the AIF. Strike ops to neutralize AIF continue, with further ops planned to exploit C2 triggers.

SIGNIFICANT EVENTS OF THE WEEK

1. Op PHOENIX III - 27 Jan 07 - Arms Cache found and cleared - 400+ mortars.

CURRENT ASSESSMENT

The high tempo of MNF strike ops is set to continue to deter and disrupt AIF activity. However, IDF and opportunity attacks on MNF patrols are expected to continue.

CURRENT/FUTURE OPS

Current Ops: Ops in support of Hostages Release, Op TACHBROOK and Op VEDETTE.

Future Ops: Ops NEWQUAY, FISHER II and SADDLERS - all C2-initiated. Op OKO - 4 Feb 07.

WEEKLY OPERATIONAL ASSESSMENT

Capable ISF (ISF Increasingly in Lead)
- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. - IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (pay, under-manning, support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

- AIF Neutralized (Al Qaeda Out)
  - Attacks UP (1108-1114), above the 12 Week Average. Effectiveness rate DOWN (25%-22%) and below the 12 Week Average (24%).
  - Battle Casualties UP by 16% (1164-1353) above the 12 Week Average (964).

  - IEDs DOWN 1% (700-691), above the 12 Week Average. ‘F&C’ Rate UP (45%-46%).
  - EFPs DOWN (12-6), with 5 ‘F&C’. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the third week of a decrease.

GOVERNANCE
THE CITIZENS OF MADA’IN BLAME THE GOVERNMENT OF IRAQ AND THE MINISTRY OF INTERIOR FOR THEIR PROBLEMS. PEOPLE ARE BLAMING MOI FOR FAILING TO PROTECT BUSY AND CROWDED AREAS IN BAGHDAD. THE SAYDIYAH MARKET STREETS IS 200 METERS LONG AND EASILY CONTROLLED BY TWO CHECKPOINTS, YET TERRORISTS SUCCESSFULLY ATTACKED THIS BUSY ECONOMIC AREA.

ECONOMICS (INFRASTRUCTURE AND BASIC SERVICES)
GHAZIYAH CITIZENS ARE COMPLAINING THAT GOVERNMENT DELIVERED ITEMS ARE NOT BEING DELIVERED ON TIME. CITIZENS WANT TO KNOW WHY THE GOVERNMENT IS MAKING IT SO HARD FOR THE AVERAGE PERSON WHILE DOING NOTHING AGAINST THE MILITIAS. THE GOVERNMENT IS ALWAYS SAYING IT WILL COMPENSATE CITIZENS FOR ITEMS THAT THEY ARE NOT RECEIVING. THE GOVERNMENT IS NOT FOLLOWING THROUGH ON THEIR PROMISES. THE PEOPLE OF GHAZIYAH ALSO WANT TO KNOW WHY THE GOVERNMENT IS NOT TAKING ACTION TO STOP THE BLACK MARKET.

COMMUNICATIONS
SOME MEDIA SOURCES ARE REPORTING THAT THE FIGHT AGAINST THE SOLDIERS OF HEAVEN IN AN NAJAF WAS ACTUALLY AN ATTACK ON TRIBAL GROUPS. THE SHEIKES IN SHIA’AB DON’T BELIEVE THIS BECAUSE THE SOLDIERS OF HEAVEN GROUP HAD SOPHISTICATED WEAPONS SUCH AS ANTI-AIRCRAFT WEAPONS. THE PEOPLE BELIEVE THAT THE WEAPONS MUST HAVE COME FROM 1-4 BCT BECAUSE TRIBES DON’T HAVE AAA WEAPONS.

FUTURE OPERATIONS

3-2 SBCT WILL CONDUCT OPERATION ARROWHEAD STRIKE 7, A BCT CLEARING OPERATION IN RUSAFAH 10-12 FEB 07.

IN SAD, AN INFUX OF FIGHTERS FROM THE WEST AND THE SOUTH WILL CONTINUE TO REINFORCE EXISTING AIF, THESE FIGHTERS WILL BRING MANPOWER AS WELL AS DIFFERENT TTP'S. IN NINEWA, AIF WILL FOCUS ATTACKS AGAINST ISI AND THESE ATTACKS WILL BE DELIBERATE, COORDINATED AND MOST LIKELY ON THE EAST SIDE IN RETALIATION TO IP STATIONS NOT COOPERATING WITH AIF.

GOVERNANCE
- DAIYAA detention summit- A small step forward in rule of law in DAIYAA province. A detention procedures workshop in Baghbagh attended by investigative judges and IP interrogators, grew into a detention summit with the unexpected attendance of Governor Razz and a senior MOI rep.

The overall security situation in AL QUADISIYAH province remains relatively tense. The overall security situation in WASIT Province is tense. Especially the northwest parts of WASIT province have had a significant increase of IED, VBIED and IDF in the past week. There have been no IDF attacks on CF in MND CS AO in the past week. Two peaceful demonstrations took place in AS SUWAYRAH, (MA 7944) and in SHAYTH SA’D (PB 200 035) during the week. Both demonstrations ended without any incidents.

CURRENT SITUATION

Current Situation. A significant reduction in IDF attacks this week was marred by a single attack at BP on Fri 9 Feb, resulting in (10) CF Cas and (1) LN Cas. C-IDF surge ops continue to be central in our efforts with more planned C2 triggered ops. Basrahris continue to turn against IDF teams with maximum use of PSYOPS to highlight the extent of collateral damage. Two IEDs have caused 2 MNF KIA.

Building an Independent Iraq:
IA continue to carry out independent operations. Op SINBAD Pulse 17/18 was entirely IA led with full support from the Iraqi Traffic Police and IPS.

Capability of the ISF:
Increasing confidence in the IA to coordinate large ops, although concern remains over IPS reliability due to latent SCU Influence. Formation of the new, screened BCU gives some cause for optimism.

Atmospheres:
• Basra: Indications that local populace are becoming increasingly anti-AIF, and increasingly reporting IDF team activity to MNF.
• Cooperation with local Govt and the ISF returned to normality.
• Maysan: new PDOP ensuring equilibrium and stability.
• Dhi Qar: NSTR.
• Al Muthanna: NSTR.

Neutralizing the AIF:
Tempo of Raid Ops to neutralize AIF continue, with further ops planned.

SIGNIFICANT EVENTS OF THE WEEK

SECURITY – COUNTER-EXTRA JUDICIAL KILLING
THIS WEEK, MND-B HAS CONDUCTED 12 C-EIK OPERATIONS, DETAINING 17X AIF, INCLUDING 7X BN AND ABOVE HVTs (2-1 AD HTV009).

GOVERNANCE
THE CITIZENS OF KARADAH ARE FRUSTRATED WITH THE GOVERNMENT ACCUSING THEM OF BEING SECTARIAN IN NATURE AND SUPPORTING THE MILITIAS. THE GOI ALSO ACCUSES THEM OF NOT CARING ABOUT THE IRAQI PEOPLE. CITIZENS SAY THAT IF THE GOI CARED THEY WOULD DO EVERYTHING IN THEIR POWER TO PREVENT A WOMAN FROM BEING DETAINED AND RAPED BY THE ISF. THE PRIME MINISTER’S DENIAL OF THE RAPE ACCUSATION AGAINST THE ISF ON TV CREATES THE APPEARANCE THAT HE IS AGAINST THE CITIZENS AND FULLY SUPPORTS ALL LEGAL AND ILLEGAL ACTIONS OF THE ISF.

ECONOMICS (INFRASTRUCTURE AND BASIC SERVICES)
The Iraqi government is making an effort to clean and beautify the streets of Iraq in conjunction with security operations. New trees are being planted and damaged streets, medians, and sidewalks are being refurbished.

COMMUNICATIONS
People are very disappointed with the government for allowing the media to broadcast the rape story on TV. It is disgraceful that the woman came on TV to televisualize that the ISF raped her. In the Iraqi culture it is shameful to publish a story like that on TV. The country has more important things to worry about, particularly when it pertains to the Baghdad security plan and the Iraqi economy.

CURRENT SITUATION

Current Situation. Search and detain ops in Basrah continue to pressure AIF. JAM have found their position in the community marginalised. In frustration they have sought to intimidate Provincial Council members and MNF LECs. Recently they have taken tribal members hostage. Activities in Maysan portray an increasingly bold and innovative AIF grouping (MANPAD attack on MERLIN, 29 x 120MM Mortar on FOB CONDOR).

Building an Independent Iraq.
Continued financial investment in medium term infrastructure projects following on from Op SINBAD.

Capability of the ISF.
Continue to gain operational depth of experience. 3/4/10 now in FOB AL RASHEED, 2/3/10 now in FOB HOPE pending operations.

Atmospheres.
- Basra: JAM have been further marginalised by population. This, plus loss of C2 cohesion, has resulted in a change of TTPs (intimidation and kidnapping).
- Maysan: New PDoP ensuring equilibrium and stability although Al Amarah remains tense due to JAM fears of MNF attack and the presence of key players who have ‘fled’ the surge ops in Baghdad and Basrah.
- Dhi Qar: NSTR.
- Al Muthanna: Tension as a result of robust and clear action by PDoP, Col Ali. JAM have restrained from offensive action despite bold patrolling into JAM strongholds by IPS (Indicates ISF hold the upper hand at present).

Neutralising the AIF.
Tempo of Raid Ops to neutralize AIF continue, with further ops planned.

SIGNIFICANT EVENTS OF THE WEEK

1. MANPAD attack on MERLIN
2. 105MM C-IDF fire actioned.
3. Op PORTO 3 - Key MIAM player detained.
4. 29 x 120MM IDF attack on Camp CONDOR

CURRENT ASSESSMENT

MNF Raid Ops continue to deny MIAM the freedom of movement and continuity of C2. The increased availability of C-IDF assets (TUAV, 105MM Gun, JAVELIN) will now ensure swift and robust response.

CURRENT/FUTURE OPS

Current Ops: Ops in support of Hostages Release, Op TACHBROOK, VEDETTTE & TOKYO.

Future Ops: 5 x Search & Detain Ops - all C2-initiated.
MNC-I CURRENT OPS
WEEKLY OPERATIONAL ASSESSMENT

Capable ISF (ISF Increasingly in Lead)
- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence building in areas outside of Baghdad. Building of ISF in Baghdad continues.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and Logistical Support shortcomings continue (support equip, fuel). The problem is especially severe for the Department of Border Enforcement.

AIF Neutralized (Al Qaeda Out)
- Attacks SAME (1098-1094), above the 12 Week Average. Effectiveness rate SAME (20%) and below the 12 Week Average (24%).
- Battle Casualties DOWN by 1% (995-986), still above the 12 Week Average (973).
- Civilians DOWN 22% (697-599) below the 12 Week Average, ISF UP 17% (154-219), above the 12 Week Average. Coalition UP (144-168), above the 12 Week Average.
- IEDs DOWN 10% (707-639), above the 12 Week Average. ‘F&C’ Rate UP (48%-49%).
- EFPs UP (3-6), with 2 ‘F&C’. Current employment trend shows enemy has ability to surge for 2-3 weeks before a 2-3 week decrease. This is the first week of an increase, but last two weeks have been lower than previous 18 weeks.
- VBIED Attacks DOWN from 30 to 25, with 4 ‘F&C’. Casualties per attack were DOWN at 16.3, at the 12 Week Average.
- Suicide Attacks DOWN (10-9), above the 12 Week Average. Vest type attacks SAME (2).
- Attacks on civilians dropped to 72, after 5 weeks of high levels of attacks that peaked at 121.
- Overall attacks remained unchanged, but attacks in MND-B and MND-N dropped by 7% and 11%, respectively. Attacks in MNF-W were up by 48%, due to a high level of attacks against CF; primarily SAF.

Support an Independent Iraq (Building Confidence)
- Atmospherics in Baghdad indicate the population supports the surge operations, and are hopeful. The citizens are pleased about Prime Minister Maliki's pledge to return the homes and property of displaced Iraq people.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the ITO.
- There appears to be a growing rejection of AIF in MNF-W with Sunni tribes, and they have become more active recently in support of ISF recruitment and operations.

WEEKLY OPERATIONAL ASSESSMENT

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence growing in areas outside of Baghdad, and the city itself is showing positive signs. Building of ISF in Baghdad continues, with significant progress over the last week.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and logistical shortcomings continue to undermine the ISF's ability to internally support operations; dependant on CF for most items (supplies, equip, fuel). Particular problems exist for the DBE with fuel shortages, and availability and maintenance of scanners in MND-CS and MND-SE; daily supplies (fuel, ammunition) are challenges with the IA.

AIF Neutralized (Al Qaeda Out)

- Attacks DOWN by 6% (1112-1046), at the 12 Week Average. Effectiveness rate SAME (21%) and at the 12 Week Average.
- Battle Casualties DOWN by 4% (989-954), below the 12 Week Average (970).

- VBIED events UP from 29 to 34, with 7 ‘F&C’. Casualties per attack were DOWN at 10.0, below the 12 Week Average.
- Suicide Attacks UP (9-14), above the 12 Week Average. Vesi type attacks UP (2-3).
- Attacks on civilians were up to 95, but casualties dropped for the 4th week in a row.
- Several operations were successful in disrupting EFP and fertilizer-based IED operations during the reporting period.

Support an Independent Iraq (Building Confidence)

- Atmospherics in Baghdad indicate the population supports the surge operations, and are hopeful. Recent experiences in Sadr City, as well as progress made in securing key markets in Rusafa which was met with a positive response from LN’s, indicate many civilians and their leaders support the efforts.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the AOR.
- There appears to be a growing rejection of AIF in MNF-W with Sunni tribes, and they have become more active recently in support of ISF recruitment and operations.

MNC-I CURRENT OPS
WEEKLY OPERATIONAL ASSESSMENT

Capable ISF (ISF Increasingly in Lead)

- IA Independent and Combined operations continue to trend positive across ITO. Public trust and confidence growing in areas outside of Baghdad, and the city itself is showing positive signs.
- IP/NP charges of capitulation, complicity in sectarian violence, and lack of trust in parts of Baghdad remain a problem.
- Administrative and logistical shortcomings continue to undermine the ISF’s ability to internally support operations; dependent on CF for most items (supplies, equip, fuel). Particular problems exist for the DBE with fuel shortages, and availability and maintenance of scanners in MND-CS and MND-SE; daily supplies (fuel, ammunition) are challenges with the IA.

AIF Neutralized (Al Qaeda Out)

- Attacks UP by 4% (962-998), below the 12 Week Average. Effectiveness rate DOWN (22%-20%) and below the 12 Week Average.
- Battle Casualties DOWN by 18% (1124-918), below the 12 Week Average.
- Civilians DOWN 20% (796-635) below the 12 Week Average, ISF DOWN 19% (179-145), below the 12 Week Average.
- Coalition DOWN 7% (138-149), below the 12 Week Average.
- IEDs UNCHANGED (640-637), above the 12 Week Average. ‘F&C’ Rate DOWN (50%-46%).
- EFPs DOWN (10-5), with 2 ‘F&C’.
- VBIED events UP from 27 to 31, with 8 ‘F&C’. Casualties per attack were DOWN at 12.2, below the 12 Week Average.
- Suicide Attacks UP (10-11), above the 12 Week Average. Vest type attacks DOWN (4-3).

Support an Independent Iraq (Building Confidence)

- Atmospherics continue to trend positive In the AOR. The replacement of the Fallujah Council, the response to the establishment of the JSS in Sadr City, and anti-corruption efforts in MND-North indicate a growing buy-in to the security measures.
- Fuel, Electricity, Security, Transportation remain at the forefront of public concern across the AOR.
- There appears to be a growing rejection of AIF in MNF-W with Sunni tribes, and they have become more active recently in support of ISF recruitment and operations. There are some indications this rejection of AQI by tribes is also occurring in Ninewa Province.
